THE WATER FAMINE

Although the rainfall and precipitation the present year are greatly below normal yet this section of Ontario has reaped one of the most bounteous and satisfactory harvests in its history.

In the Bay of Quinte district, the total average annual precipitation, which includes rain and melted snow, is about 30 inches. Some years there is considerably more and other years very much less.

The season of production, now just closing, has proved to us what can be done in the way of growing crops with only a limited rainfall.

The periods between showers were characterized by bright sunlight. Mildew, rust, scab, blight and potato rot never had a chance.

Excessive humidity, as we had it in 1916 and 1919 breeds all kinds of blights and plant diseases.

But the low record of rainfall, as we have it in 1920, creates another difficulty in that the light showers do not penetrate the soil to a depth.

When the springs are not fed, the streams and rivers dwindle and languish. And, when the rivers shrink, the electric power plants must also slow up, and factories cease operations as they have been doing at Belleville the past week.

In such years as 1920, it is more than ever necessary that we should have conservation of the water collected in the upper lakes that feed the Trent Valley system.

AN HONORABLE SERVANT

By the resignation of Chief Newton, the City of Belleville will lose the services of a conscientious and honorable servant. Forty-three years is a long time in the life of any individual and for that unusual period Chief Newton has been one of the guardians of the peace at Belleville.

The work of the police is exceedingly delicate and difficult. Not every physical giant makes a capable constable. To be a truly successful policeman muscular strength is required but there must also be strength of character, with a great reserve of diplomacy, patience, resolution and horse-sense.

Many have thought that Chief Newton was too easy in his administration of the police department. But it is also easily possible for a policeman to be over-zealous, fussy and unduly severe.

The ideal constable, or chief of police is the man who can secure order without being himself too much in evidence. While he directs and commands the forces of order, he is not himself rushing to the front with a big stick. He may be out of sight but his forceful character dominates the whole situation.

As compared with any other city in Ontario, or in Canada, Belleville is orderly and clean. Our

police constables all take pride in their work and try to give honest service and there are few who will say they are overpaid for their work.

The burden of years has compelled Chief Newton to withdraw from the more strenuous duties connected with his office but he will go into his position of semi-retirement with the ardent satisfaction that comes to every man who has kept the faith and held his personal record clean and incorruptible.

It is a curious thing that in the Dark Ages or a little after, when a certain archdeacon nicknamed his country "Merrie England," the pretty phrase was really then most undeserved. William the Conqueror and his curse of a son, William Rufus, were scourging the land. Plagues ate up the people. In particular the mosquito was unchallenged in its "merrie" work of spreading ague and malaria.

Even the name malaria reveals the ignorance of the times. "Bad air" was the only source imagined of the disease. This was as much a misnomer as merrie England itself. No doubt the good archdeacon was merrie and roared over his wine. It is natural to judge others by yourself, especially if you are not intellectually curious. Now and then he cursed the kill-mirth mosquito, but he did not dream that it was dealing death all over the land.

Malaria used to take five million lives a year in India; Italy still has two million cases and 15,000 deaths yearly; America has had as high a death-rate as 26 per 1,000 from it. In England and other countries swamp drainage, quinine and various health precautions have limited the once absolute-monarchy of the malarial mosquito.

The quarterly board of Dundas Centre Methodist Church, London, has extended a unanimous invitation to Rev. John Garbutt, of Simcoe Street Church, Oshawa, to become pastor there in June, 1921.

The assessment rolls of Peterboro, show an increase in the city's population of 560 during the past year. The total assessment has increased \$2,603,780, and the number of taxable persons 191.

Dust explosions have caused the destruction of millions of dollars' worth of property in grain and cereal plants, flour mills, sugar refineries and elevators, besides great loss of life.

A dust explosion is very similar to a gas explosion, except that the particles of dust are a little bit larger than the gas particles. The finer the dust the more easily it is ignited and the more disastrous the explosion.

A pile of dust in a room or a sack of, or barrel of flour, or any finely pulverized carbonaceous material, will not explode so long as it stays in the pile or sack. It must be in suspension, as a cloud in the air; and like gas, there must be a proper mixture of dust and air and a spark or flame present which has sufficient heat to ignite the dust before an explosion can occur.

Cleanliness is the first precaution. Mechanical dust collectors are essential where processes generate fine dust, such as starch, flour, coal, ork, sawdust, grain dust and powdered sugar. Jeanliness means—nothing to explode. Protects workmen's lives. Saves property. Saves food.

FIRE: ITS USE AND ABUSE

You may not know, you cannot tell, How much good and evil in you dwell; Give either sway, and soon you'll see Results surprising as can be.

So fire serves us for our good, If used in judgment, as we should; The glow of warmth, the cheering flame, With loud huzzas we'll all acclaim.

And useful, too, in many ways, Preparing in the good old days; How savoury was the smell we got When from the stove we took the pot.

'Twas needful when the bush was cleared, And happy homes on land were reared; Our fathers knew its value well, And old folks now its worth could tell.

But fire, when it's not controlled, Would damage do a thousand-fold; In woods and forests, midst great trees; Experience shows the wreck it leaves.

When started once by careless men Who in the forests make their den, Away from home and have some fun In chasing deer with dog and gun.

So careful be, both young and old, See to it, fires are well controlled. You'll earn reward, much good you'll do For home and lands and Country too.

—Lt. Col. A. E. Belcher, Past President, Veterans of 1866.

Talk of the Town And of the Country

GORDON CAHOON INJURED.

On Saturday Gordon Cahoon, Kingston, was the victim of an accident which fortunately did not prove serious. He was working at the Old Homestead factory and in reaching over a shaft to adjust a belt his clothing caught in the shaft, lacerating the arm above the elbow. He was taken to the hospital for treatment. He is about again as usual.

BROKE HIS ANKLE.

A. J. Smith, Napanee, had the misfortune to fall and break his ankle badly while working at Isaac Taylor's new house in Richmond. He was working on a low scaffold and the board he was standing on broke letting him down. At the same time another board fell striking him on the ankle.

GREW FAT ON 24c A DAY.

It is refreshing to hear in these days that the prisoners at the Kingston jail are being fed at an average cost of 24 cents a day. One prisoner is said to have gained twenty pounds during his sojourn within its walls.

OSHAWA PASTOR CALLED TO LONDON.

The quarterly board of Dundas Centre Methodist Church, London, has extended a unanimous invitation to Rev. John Garbutt, of Simcoe Street Church, Oshawa, to become pastor there in June, 1921.

ASSESSMENT INCREASED.

The assessment rolls of Peterboro, show an increase in the city's population of 560 during the past year. The total assessment has increased \$2,603,780, and the number of taxable persons 191.

TRIP OF THE HENS.

When Mr. and Mrs. Harry Gilligan, who reside about one mile from Colebrook, on the main road to Moe-cow, went to visit Mrs. Hart, mother of Mrs. Gilligan, who resides in Colebrook, one evening this week, they were accompanied by ten chickens.

After Mr. and Mrs. Gilligan had completed the chores they decided to drive to Colebrook to spend the evening. As the milk wagon was close at hand they decided to hitch up the horse to this wagon. When it came time to go home Mr. Gilligan noticed something under the wagon. At first he thought that it was a dog or something of that kind but upon investigation it proved to be ten of his chickens. They had evidently decided to perch on the axle of the wagon for the night so they did not bother about the bumps on the road. He allowed them to remain on the axle and drove them back home again.

Although a number of other condenseries have closed milk plants at Bloomfield of the Bowers' Products, Limited Toronto, has not closed, and the company it is stated has never considered closing.

RESCUED AVIATORS.

While travelling on a ship from New York to Mexico recently, Edwin Paxton Coffal, who spent a few weeks last summer at Brockville a guest of H. C. Tunncliffe Jones, heard a wireless call for help and in a few hours the ship's crew had rescued from the ocean two aviators who had had with a mishap and fallen. Mr. Coffal, while in Brockville, carried on a number of wireless messages with outside points.

BITTEN BY DOG

Mr. Stas Johns, of Port Hope, is nursing two very sore hands as the result of trying to separate a couple of dogs while engaged in a struggle on Saturday afternoon. Mr. Harry Austin had gone to Mr. Johns' farm to take away the articles he had purchased at the auction sale on Wednesday. While there Mr. Austin's dog and Mr. Johns' dog started a fierce fight and in attempting to separate them Mr. Johns was badly bitten on both hands by his own dog, one of the teeth going completely through his hand.

DIED WHEN GIVEN LIBERTY.

Isadore Berman, aged twenty-one an inmate of Sing Sing prison, died of heart disease when informed he had been pardoned by Governor Smith. He had been in prison since December, after conviction for assault in New York City. The pardon was recommended by prison physician because of Berman's illness from heart trouble.

TO SHUT OFF ONE CIRCUIT AT A TIME.

To handle the situation in Trenton the residents' lighting will be pulled off, one circuit at a time, for one or two hours each day and concerns using power for manufacturing, or

other purposes, will be reduced to the minimum amount at night. The strongest endeavour will be made to leave all lighting circuits on at night and to keep power for factories during the day. The citizens are urged to use no lights, motor, cooking or heating apparatus that are not absolutely necessary. By so doing no serious inconvenience will result to any electric consumers. If the load on the power houses should not be kept down there is no alternative but to pull the switch on the entire town.

TO HONOR KINGSTON DOCTORS.

Dr. G. W. Mylke, Dr. A. E. B. Williamson and Dr. J. F. Sparks will be honored by being made Fellows of the American College of Surgeons at a congress to be held in Montreal from Oct. 11th to 16th next.

WILL CONSTRUCT BUILDINGS.

W. H. Harvey, Deseronto, has been awarded the contract by the Dominion government for the new nurses' home, orderlies' quarters, and medical officers' quarters, in connection with Westminster Hospital, London, Ont. The contract is in the neighborhood of a quarter of a million dollars.

BARN DESTROYED NEAR SEAGRAVE.

About noon on Tuesday, fire destroyed the barn and crop of Mr. John Marks, near Seagrave. Mr. Wes. Frise had his threshing outfit at the barn and was doing the threshing for Mr. Marks, and the cleaner was also burned. It is thought that an explosion in the separator was the cause of the fire. Mr. Marks lost his entire crop and a number of implements, including a gasoline engine and a milking machine. Mr. Frise lost his cleaner.

PECULIAR ACTION OF TRACTOR.

We are told that a rather peculiar incident occurred the other day in connection with a tractor, says The Stirling News-Argus. Mr. George Green had been working with one, and having finished took it to the barn, but when he wanted to stop it, the machine would not stop, but went right on through the side of the barn, and kept going until the supply of gasoline ran out. Something had got wrong, and the supply of gasoline could not be cut off.

PROMINENT SPEAKERS COMING

Among the speakers expected to attend the convention of the Ontario Religious Council in Belleville on Oct. 26-28, are Prof. Hoilnie, associate superintendent of the Department of Education of the International S. S. Association; Very Rev. Dean Tucker, St. Paul's Cathedral, London Ont.; Rev. Dr. John MacNeill, Walmer Road Baptist Church, Toronto; Hon. Nelson Parliament, Speaker of the Ontario Legislature; Prof. Fred Langford, of Victoria College, Toronto; Rev. C. W. Bishop, secretary National Council Y.M.C.A.; Mrs. Palmer G. Burgess, Ottawa, Children's Division Superintendent of the Ontario Religious Council; Rev. Dr. George T. Webb, Rev. Manson Doyle, and Rev. S. C. Myers. This will be the fifty-fifth annual provincial convention.

One Year for Theft

Peterboro, Oct. 6.—One year at hard labor in the Burwash Reformatory was the sentence given Seeborne Goodmurry, charged with receiving money which he knew to have been obtained under false pretenses, and George Atwater, charged with obtaining money under false pretenses by Magistrate Dumble in Peterboro police court Monday morning.

STOLE CASE OF GIN.

After license officials had taken a quantity of liquor from the cells at the Cornwall police station for the purpose of moving it to Toronto, one case of gin disappeared while the officers were temporarily absent from the building.

APPOINTED ASSISTANT PROFESSOR.

Prof. W. E. MacPherson, B. A., LL.B., of the staff of the Queen's Faculty of Education, has been appointed an Assistant Professor in the Ontario College of Education, Toronto. Prof. MacPherson is leaving this

week to take up his new duties. His family will follow him to Toronto later.

TO HAVE ONE CHURCH PAPER.

Negotiations will be entered into for the establishment of one church weekly for the whole of the Presbyterian Church of Canada, as a result of a decision made by the General Board of the Presbyterian Church. The board also elected Rev. D. M. Solandt, Winnipeg, to the position of business manager of Presbyterian Publications.

VISITING IN PRINCE EDWARD.

Dr. G. W. Morden, more generally and admirably known as "Wally," was the guest for a few days of Mr. and Mrs. A. E. Calnan, Picton, and of Mr. and Mrs. B. R. Levens, Bloomfield. He left on Friday for Montreal to meet Mrs. Morden on her return from overseas. Dr. Morden since his return from England, has been in charge of the American Cellulose Co., of Cumberland, Maryland.

GEOGRAPHIC DECISIONS.

By a decision of the Geographic Board of Canada, a mount at the head of Clearwater river, Alberta, has been named Mount Malloch, after George Malloch, geologist, son of the late Dr. A. E. Malloch, of Brockville and Hamilton, who mapped the area overlooked by this peak and afterwards perished at Wrangell Island in the Arctic. Morris Island, in the Mississippi river at the head of the Chats rapids, is named after the late Hon. William Morris, of Brockville, who served on the Board of Commissioners of Public Works in 1844-45.

MYSTERIOUS PIGEON FOUND.

On Friday a pigeon, supposedly, a carrier, was found on the farm of N. Webster at Lansdowne. A band on one leg of the bird was marked "A. J. 20 L. 6777," while a plain brass band was found on the other leg.

A FAMILY OF PRIZE WINNERS.

Mr. and Mrs. J. H. McConnell Pointe, have three children, each of whom have won a prize at the Picton baby show. In 1918 Theresa Bernadette was awarded first prize, \$10 in gold; in 1919 Thomas Augustus carried off second prize, \$5 in gold; and in 1920 Katharine Adaline was awarded second prize, a gold locket and chain and \$2.50 in cash. This is a splendid record.

A HANDSOME BANNER.

A. C. Grant, Picton, has presented the Prince Edward County veterans with a beautiful banner, three feet wide and five and a half feet long, painted on heavy canvas. The design is the red, white and blue of the Union Jack, over which is a khaki scroll with the names of the engagements of the great war, in which Canadians participated. Over the scroll are Canada's national emblems, the beaver and maple leaf, with the words, "Canada's Roll of Honor," at the top, and across the bottom, "In Flanders Field the Poppies Grow."

PROMINENT SPEAKERS COMING

Among the speakers expected to attend the convention of the Ontario Religious Council in Belleville on Oct. 26-28, are Prof. Hoilnie, associate superintendent of the Department of Education of the International S. S. Association; Very Rev. Dean Tucker, St. Paul's Cathedral, London Ont.; Rev. Dr. John MacNeill, Walmer Road Baptist Church, Toronto; Hon.
