FIELD FORT AND GARRISON AT BIACHES TAKEN BY 9 SOLDIERS

Daring Attack by the French in Which a Handful of Men Crept Through the Breach in the Defences and Rushed Enemy With the Bayonet

By Special Wire to the Courier. Paris, July 19.—One of the most striking episodes of the great Somme offensive was the taking of the field fort at Biaches and the garrison of 113 men by nine French soldiers. The fort had resisted throughout the artillery bombardment and the infantry attacks had been checked by murderous machine gun fire. By a lucky chance a French officer discovered the precious secret that the terrible bombardment had made the fort vulnerable at one point. Selecting a second lieutenant, two sergeants, a corporal and four men, he led them on hands and knees through the long grass to the spot where he knew there was a breach in the defenses. They reached their objective point without the Germans learning of their approach. Abruptly three of the French officers leaped into the work, shouting in stentorian tones: "Forward with the bayonet," and throwing bombs which exploded in the dugout. The other six daring Frenchmen remained behind ready to retreat if the attempt failed. But the Germans taken unawares, had no time to get their weapons, and surrendered almost without a show of fight. When one of their number fell, shot by a revolver fired pointblank by the commanding French officer, the Germans, 113 in all, came out of their shelters and threw up their hands, the French asserting. The three French captors now began to feel nervous as they saw no reason why the Germans should not fall upon and exterminate them. But at this moment the other six hurried in. Their resolute energy imposed upon the Germans, who believed that the new arrivals were followed by many others. The German officers in the fort then threw down their arms and the entire garrison was marched to the French rear, escorted by nine captors, who had not lost a man.

Power Company Climbs Down Dominion Government Promptly Protects Hydro Interests By Special Wire to the Courier. Toronto, July 19.—Sudden pressure applied to the Canadian Niagara Power Company by the Dominion Government has succeeded where weeks of reasoning and friendly negotiations failed and the Ontario Hydro System is to get the additional power which it so badly needs. Frightened by the federal authorities' threat to turn the big guns of power and prohibit the export of power, the Canadian Niagara Power Company has receded from its stand and an agreement is being drafted and the provincial government and the company, which gives the Ontario hydro commission 50,000 horsepower at \$12 per horsepower. An announcement to this effect was expected from Premier Hearst some time during the day.

ANOTHER SUB DUE SUNDAY

Baltimore Hears That Bremen Is Expected to Arrive in Few Days.

By Special Wire to the Courier. Baltimore, Md., July 19.—There were persistent rumors early this morning that the arrival of a second merchant undersea boat, presumably the Bremen, was expected Sunday. While officials of the Eastern Forwarding Company, American representatives of the Ocean Navigation Company of Bremen, have stated openly that another submarine was on the way here, none would fix an exact date for her arrival. Stored on barges off the property of the Baltimore Copper Smelting and Rolling Company, not far from the Deutschland's pier, is a large quantity of copper which it is said will form the bulk of the return cargo of the Bremen if she leaves this port. At Curtis Bay a chemical company has in tanks on a railroad siding an essential requirement in munitions manufacture. It is reported this is intended for export to Germany.

Great Openings For Business Now in Russia

American Business Man Declares Wonderful Chance for Capital By Special Wire to the Courier. Stockholm, July 19, via London, 1.30 p.m.—After spending two months in Russia, during which time he arranged a loan of \$50,000,000 to the Russian Government, and also for the establishment of branch banks, Samuel McRoberts, senior vice-president of the National City Bank, of New York, sails to-day for home on board the Steamer Bergenafjord. Mr. McRoberts made a careful study of conditions in Russia. "The war," he said, "has awakened Russia beyond all conception and that country now offers a wonderful opportunity to capital and business enterprises. The people of America do not appreciate the extent of the Russian market or Russian resources, but should prepare now for a great Russian trade after the war. "I travelled for three days through territory as fertile as the best parts of Iowa and Illinois. With vodka prohibited and the war concluded, Russia will leap into prosperity."

No Canadian Nickel Going to Germany

International Nickel Company States That No Canadian Nickel Is on the Submarine Deutschland. By Special Wire to the Courier. New York, July 19.—Officials of the International Nickel Company, which virtually controls the nickel output of Canada in this country, are authority for the statement that no Canadian nickel will go to Germany in the submarine Deutschland. An official of the company asserted that this corporation had an agreement with the Canadian Government under which it may not supply nickel to any country with which Great Britain is at war. Other concerns in New York dealing in nickel say they have no knowledge of the source of supply of that metal now stowed in the German submarine. The manager of one company said, however, that the Deutschland's cargo probably had been obtained in the open market. Metal dealers declared to-day that Canada was not the only source of nickel in America. They said that a quantity of nickel ore was obtained through various copper mines in the United States, and that ore from New Caledonia was brought here to be refined.

Have Enemies Finished? "So Have We", Herr Harden Tells Huns Truth

Famous Hun. Writer Ridicules German Belief that France Will Not Be Able to Fight Beyond the Autumn, and Says Allies Not yet at their Strength.

By Special Wire to the Courier. London, July 19.—(New York Times cable)—The London Times says the last number of Die Zukunft contains a number of Maximilian Harden's warning articles in which, under the appearance of preaching steadfastness, he advises the public to check its hopes of an early and satisfactory peace. He says: "Have the enemies finished? So have we. And so it is possible that after the trial of strength which has begun, they will add up the account and seek a straight road to the belief that they will behave thus." Harden then ridiculed the German predictions that the French cannot possibly fight beyond autumn, and says: "If our enemies believe they have not yet reached the highest point of what they can do, and that in the spring they will be ahead of us with heavy guns and ammunition, they will once more send their men into the storm of winter, the snow and water in the trenches. The brave man wants neither to be comforted nor to be fooled. A mass attack may begin with fireworks and end in no advance on the other hand, the first tenth may cut open the chief artery of the opposing army." Harden ends with the remark that the Germans fear too much from the continuation of the war and expect too much from the peace.

BOSTON DOCTOR CHARGED WITH GRAVE CRIME

Said to Have Attempted to Kill Head of Mass. College of Osteopathy

IS SAID TO HAVE CONFESSED.

By Special Wire to the Courier. Boston, July 19.—Dr. Wilfred E. Harris, president of the Massachusetts College of Osteopathy lay at the point of death at the City Hospital to-day, while Dr. Atwood salaried Longed the police that he shot Harris because he believed the latter had wronged his fiancée, Dr. Selia Adams an osteopath of Brooklyn, who died yesterday. It was stated, from a source which entered his body. After being booked on a charge of assault and with intent to murder, Dr. Atwood was taken to the hospital where Dr. Harris identified him as his assailant, made a complete confession, the police say, spent a quiet night in the Back Bay police station and was ready to-day for his arraignment in municipal court. Medical Examiner Magrath planned to perform an autopsy on the body of Miss Adams to-day to determine the exact cause of her death. The physician who attended the young woman, gave it as his opinion that she died from an overdose of a drug, which the police declared she took with suicidal intent. Son of Canadian M.P. Dr. Harris, who is 45 years of age, and married, is a former president of the Canadian Club of Boston, son of a former member of the Canadian parliament, and one of the pioneer osteopaths of Massachusetts. Dr. Atwood and Miss Adams formerly studied under him at the College of Osteopathy in this city. It was said that Miss Adams recently informed Dr. Atwood that her marriage was impossible because Dr. Harris had wronged her, and she charged the latter with the crime. It was stated that the prisoner and Miss Adams had been engaged for some time. Dr. Atwood was later arraigned and held for a hearing on July 28, to which date the case was continued. By Special Wire to the Courier. Chicago, July 19.—Crowds gathered in the vicinity of Irving avenue, where the negro, Henry P. McIntyre in an orgy of killing sent four people to their deaths, and was himself, together with his wife, later killed, gave rise to fears of possible race rioting early to-day, and caused fifty policemen to be despatched to the scene. They dispersed the crowd quickly and the danger was declared to have been averted. To prevent further difficulty negroes were ordered by the police to keep off the streets. Among the effects found in McIntyre's house after the bodies had been removed was a letter which he had written to Prince Menalik of Abyssinia. In it McIntyre proposed colonizing American negroes in Abyssinia, stating that he had "organized a church and also an immigration league in the name of the Abyssinian Government."

"In the Upper Posina, our troops, after artillery preparation, renewed their attacks on Corno Del Coston. The enemy's batteries did not reply to our bombardment but afterwards began an intense gust of fire. We, however, succeeded in gaining new positions on the rocky slopes of the mountain. "Along the remainder of the front there were artillery actions, especially in the upper Boite, at the head of the Seisera valley, where the enemy disclosed new heavy batteries, and on the highest west of Gorizia. "An enemy aeroplane dropped bombs on Marostica (northeast of Vicenza in Venetia), as a result of which there were some victims and slight damage."
