LAST BIG BLOCK

Of Canadian Pacific Reserve Farm Lands
In Central Alberta and Saskatchewan

We would call your attention to these lands, the last large block of good virgin farm land in Western Canada, which marks the end of wholesale prices for virgin farm lands in the Prairie West.

News of this block being opened up is being advertised throughout Europe and the United States, and is being read by hundreds of thousands of people every week.

The American farmers have been quick to see the opportunities offered in the Western Provinces of Canada in the past, and I am sure that they will see this last opportunity as quickly as any, and that there will be thousands of them going to see these lands as soon as the snow begins to thaw in the spring. It is, therefore, up to us in Eastern Canada to make arrangements to visit the West and see these lands at the earliest possible opportunity, and I cannot urge you too strongly if you are at all interested in getting a farm of your own, to take advantage of this last opportunity. Those who act now and secure some of these lands will reap the benefit of quicker increase in value than at any period in the past, and the land will pay for itself from the crops in a few years.

Those who do not wish to improve the land at once may purchase land on our ten year contract, one-tenth cash, balance in nine equal payments at 6%, which does not require improvement of the land, or you can pay in full if you choose.

Those who get there first will get best selection and best location.
