Hospital for Sick Children

87 COLLEGE ST., TORONTO

Dear Mr. Editor:—

Your readers have probably had their appetite for statistics satiated during the past few months. Still they will, no doubt, want to know something of the work accomplished by the hospital to which they have so generously contributed in the past. They are shareholders in a Mission of Mercy. Their dividends are not paid in coin of the realm. May I trespass upon your space to outline what those dividends are?

Firstly, the daily average of children occupying cots in the Hospital for Sick Children was 255. The total cared for as in-patients was 6,367. That is equivalent to the population of a good-sized Ontario town.

And secondly, the out-patient department. This is a wing of offices given over to consultation and minor operations. On an average there were 190 young callers a day.

That is where the dividends are earned—in the difference made in the lives of thousands of children through the voluntary contribution which render it possible to maintain an institution where pallid cheeks become rosy and twisted limbs are made straight.

If that were not dividend enough, one might try to estimate the enormous salvage of child-life in Ontario which has taken place since "Sick Kids" doctors and "Sick Kids" nurses have been going out through this province equipped with a knowledge of children's diseases, which they could not get except in some such highly specialized and pre-eminently efficient institution as the Hospital for Sick Children.

On this year's service the Hospital expended \$345,126 and finds itself in the hole to the extent of \$134,284. What comes in around Christmas-time keeps the Hospital going. So long as the word "Christmas" retains its original significance could any charity possibly enlist more of the sympathy of your readers or entitle itself to more of their support?

Faithfully yours,

I. E. ROBERTSON,
Chairman Appeal Committee

A MINUTE OF MERCY COSTS
FIFTY CENTS

Do they answer your questions?

The young people, in their letters from school, seldom tell you what you really want to know.

But how different when you call them by Long Distance! Jack says he is all over his cold. Mary is no longer homesick and is perfectly happy.

The load is lifted from your mind. And how the absent ones do enjoy hearing the familiar voice!

No matter how gloomy the weather, a talk with the young people by Long Distance will always bring sunshine into their day as well as yours.

Look up in your Telephone Book the lower rates for Station-to-Station calls after 8.30 p.m.

Every Bell Telephone is a Long
Distance Station

RADIOLA

for all the people
at all prices

Westinghouse has placed standard radio sets within the reach of everyone.

Now, there are different priced Radiolas, just as there are different priced automobiles. Those who wish superior workmanship and exclusive design will find the more expensive Radiolas well worth the price.

Those whose chief interest is in education, recreation, inspiration and information will find a thoroughly satisfactory Radiola within easy financial reach.

Simplicity of operation, wide range, perfect tone and dependable performance are characteristic of ALL Radiolas.

The established reputation of the Canadian Westinghouse Company is behind every Radiola. This means satisfaction, reliability, service.

There is a Radiola for every purse—to hear the best buy the Radiola.

Here and There

The gold mines of Northern Ontario broke all previous records in the month of January, when they produced approximately \$2,100,000, based on preliminary reports received from the mines.

It is reported that arrangements have been made for the financing of a \$500,000 plant in Edmonton, Alta., for the manufacture of paving blocks from the tar sands of Fort McMurray.

The first of the private fur auction sales which the Hudson Bay Company has decided to hold in future at their head office in Montreal took place recently, when a collection of various furs, estimated roughly at \$25,000 to \$30,000 value, was put up for sale by sealed bids.

Grain handled at the port of Montreal in 1923 totalled 120,013,938 bushels, the largest amount shipped through any port in North America during the year. Montreal thus maintains for the third consecutive year her position as the leading grain exporting port of the continent.

Dr. Geo. H. Locke, chief librarian, Toronto, at the request of the Canadian Authors' Association, has undertaken to supervise the selection of volumes for the Canadian literature exhibit at the British Empire Exhibition. The task involves the gathering together of 500 representative books and it is anticipated will take about a fortnight.

From all indications, the potato shipments to Havana this season from the port of St. John, New Brunswick, will greatly exceed those of last year. To date there have been 750,307 bushels sent forward in twenty steamers, while from September 1, 1922, until January 31, 1923, a total of 505,668 bushels were shipped in seventeen steamers.

With heavy enquiries from South American sources for Canadian flour, millers expect to see their export volume substantially increased during the month of February, as compared with January. This movement, together with offerings of a premium for wheat at Vancouver, has been the most encouraging trade feature of the past month in Winnipeg, Man.

Miss Marion Towne, of Berlin, N.H., who in three years since she first put on a ski, has achieved fame through her daring and graceful jumping, has expressed her desire to compete with Canada's best girl ski jumpers at the winter sports carnival in Quebec on February 21, 22, 23 and 24th, during which time she will make exhibition jumps.

Further indications that the year 1923 will create a record in ocean traffic are shown by figures given out at the headquarters of the Canadian Pacific Steamships. Bookings for westbound sailings were exceptionally large, while those for sailings to the Old Country for Christmas and the New Year were in advance of the traffic of any previous year.

The Calgary Board of Trade is taking interest in the proposal of large British interests, which involves the utilization of western straw for the manufacture of paper and other products, and is getting all possible information with respect to the development of industries. Hundreds of thousands of tons of straw are burned in the prairies every year, which it is claimed has a commercial value.

St. Jovite, Quebec, has been chosen once more as a movie location, and arrangements have been made by Conrad Nagle and Alma Rubens for the transportation of themselves, party of 17 and equipment to that place during the early winter. Last winter Lionel Barrymore and Seena Owen located at St. Jovite for the filming of "Snow Blind" prior to taking other parts of the picture around the Chateau Frontenac, Quebec, and Windermere, British Columbia.

Traffic through the Lachine Canal in 1923 showed an increase over that of 1922 in almost every particular, the total grain carried being 88,285,270 bushels, as compared with 87,831,212 in 1922, the best previous year; coal receipts totalling 813,591 tons, compared with 384,575 tons; the ship tonnage operated being 5,462,200, against 4,786,543; shipments of pulpwood totalling 356,980 tons, against 313,134 last year; the cargo tonnage being 4,411,183, compared with 4,360,323; and the number of passengers carried totalling 78,097, against 69,332 in 1922.
