Experienced men from 35 to 45, and boys from 15 to 18 accepted for service in the CANADIAN NAVAL PATROLS for defence of the Coast.

Apply to the nearest Naval Recruiting Station, or to the Dept. of the Naval Service OTTAWA

THE CORRECT WAY TO TREAT A COLD

A cough is not a distinct disease, it is the result of inflammation caused by a cold. Therefore, the only way to cure a cough is to allay the inflammation which invades the delicate bronchial tubes. All of the narcotics in the world will not correct the conditions which cause a cough—they simply deaden the senses and afford temporary relief.

Penslar White Pine and Spruce Balsam with Menthol will promptly soothe and heal the inflamed membranes and overcome the nervous irritation. Price, 25c and 50c the bottle.

MORE SUCCESSES FOR THE FRENCH

100 Villages and Hamlets Taken

London, March 19 — The French troops have occupied about twenty additional villages and small towns in their advance on the retreating Germans. They have gone beyond Ham, on the Somme River, and Chauncy on the Oise, which brings them appreciably nearer to the St. Quentin-Laon line.

The official statement of the War Office tonight announcing these gains reads:

"In the course of the day our troops have gone beyond Ham, on the Somme River, and Chauncy, on the Oise. We hold a great number of localities between these two towns.

"Our cavalry, diverging several kilometres north of Ham, captured a convoy which was retiring in the direction of St. Quentin. Our advance reached on this point a depth of thirty-five kilometres (nearly twenty-two miles.)

"South of Chauncy our detachments reached the general line of Ailette-Soissons, which has been entirely cleared. North east of Crouy our advance forces progressed along the road to Haubeuge.

"Today about twenty additional villages and small towns were liberated.

Burned the Villages

"The enemy before his retirement devastated the country. Fruit trees were cut or torn down; fields were overturned by mines which had opened up great craters; numerous villages were completely burned. The inhabitants without shelter or sustenance, were fed by our troops. Roads of communication were cut at several points and all bridges were destroyed.

"In Champagne the artillery fighting became violent in the afternoon in the region of the Butte du Mesnil and west of Auberive.

"On the left bank of the Meuse we recaptured almost all the trench elements which the enemy had entered. The fighting continues."

Belgian Communication.

"There was light cannonading in the direction of Noordschoote; heavier artillery fighting near Het Sas and Steensstraete, where the Belgian guns energetically counter-shelled the German artillery."

Captured Hundred Villages

The French official statement issued today says:

"Last night small detachments of troops which were holding the enemy in close contact continued their forward march without check. To the east of Nesle some of these detachments reached several points on the railroad between Ham and Nesle. To the north of Noyon we have occupied Guiscard, and our patrols have advanced along the national road to St. Quentin.

"No less than 100 villages and hamlets have been taken by us in the course of the past three days.

MANCHURIAN, OTTAWA 50, BARLEY.

(Experimental Farms Note)

This six row barley is a selection made several years ago by the Dominion Cerealist from the old, commercial sort, Mansury which has been favorably known in Canada for a long time and has been successfully grown in very many districts.

As the tests in regard to yield are still in progress, final conclusions cannot be drawn; but it may be stated that the new selection appears to be, for many sections of this country, the most productive barley known, among those sorts which have fairly satisfactory straw. The straw of this barley is of good length and strength, as compared with other popular six-row sorts; but it should be emphasized that even the best barley have a tendency to lodge when sown on rich soil, in sea-

Intense heat-resisting power is the feature of the almost imperishable fire-box linings of our own McClary semi-steel fire-box made in eight pieces—can't warp.

McClary's Kootenay Range

The man who designed the Kootenay knew his job. I know that and that is why it carries my guarantee as well as the makers'.
