the first degree and a second charge of covery.

The defendant was in the employ of Mean. Hamilton H. Salmonds & Brandt, 153 Front street, New York, as bookkeeper. About three weeks before the 12th of October of last year he applied for his holidays, and asked for a day over the limit allowed him, when he is alleged to have robbed the firm of \$9,000 by stealing cheques and cashing them, forging cheques, and a robbery of certain moneys. He is supposed to have been driven into crime through an inordinate passion for gambling, speculating on horses, and the like.

Shith's Falls, July Si.—Charles Luckey, who was found not guilty of the murder of his father near this place last spring, will be again tried at the Fall Assizes for the murder of his mother and sister, who were murdered at the same time. Detective Greer is still at work on the case, interest in which has been revived by the statements of a man who says that on the day the Luckey family was cremated he was on his way to Irish Creek to take the train for the States. He took a short out across the Luckey farm and passed close by the house. When just beside it he says he saw a young-looking man rush from the house in pursuit of a girl, who was running away screaning at the top of het voice. A short distance from the house, he says, the man overtook her, struck her down with a skeelyard, and dragged her back into the house.

Daring Burglars Caught,

MONTHEAL, July 31.—For several weeks past a series of daring burglaries have taken place in the city, but the police could not do anything. After watching all week they caught two old penitentiary birds named John Kane and Stephen Tisdale, who had several hiding places, and were found with a quantity of silverware on them. A little before 8 o'clock this morning the two thieves were seen to leave a house near Cathedral street with a bundle each. The bundles were found to contain silverware, silks, pipes, etc. Some of the things were found to have been stolen from a house in Drummond street.

pair after a hard struggle, in which Prince
got roughly handled. They were making
a systematic job, filling their pockets with
a carefully selected to of goods. They
were taken to Clinton and committed for
trial.

OTTAWA, July 31.—Some interesting facts have come to light regarding the surveys of the Huron Indians reserve at Lorette, Quebec, which will probably be a matter for a Parliamentary enquiry. It has been found that through the questionable manner in which these surveys have been conducted and the bungling of officials or those responsible, the country has had to pay thousands of dollars to indemnify those who have claimed damages from the Indian Department.

Germans Claim that Eussis Has overreached Herself.

BLRIN, July 31.—It is generally held
here that the tariff war that has been started between Russia and Germany is more
likely to cause damage to the former
country than the lather. It seems that
Russia in applying her maximum tariff on
German products was mainly influenced by
the unfavorable early reports regarding
the harvest prospects in Germany. These
reports, it is said, led Russia to believe
that Germany, desiring Russian grain,
etc., would not retailate for the imposition
by Russia of the highest tariff on imported
German products. In this belief, however, she was disappointed, as the prompt
action of the federal council in raising the
German tariff on Russian products fity
per cent. shows that Germany is not so dependent upon Russian creaks.

BRITAIN'S HAND IN THE DEAL

Pans, July 31.—Prince Vadhana, Siamese Minister, went to the Foreign Office on Saturday to communicate to M. Develle, Minister of Foreign Affairs, Siam's decision to accept the terms of France's ultimatum. He was received by M. Reverle, Chief Secretary, who without waiting for the prince to speak of his mission, informed him that M. Develle would be unable to receive him as with the departure of M. Pavie from Bangkok all diplomatic intercourse between France and Siam had been stopped. M. Reverle was proceeding to express his regress when Prince Vadhana exclaimed: "But I bring a flag of truce. We accept the ultimatum."

a flag of truce. We scoept the ultimatum."

M. Reverle did not wait to hear more. He bolted into M. Develle's presence shouting:

"Siam accepts the ultimatum." He then explained that Prince Vadhana had brought the news and was waiting outside. M. Develle at once received the Prince with exceptional cordialty. The Prince with exceptional cordialty. The Prince repeated that Siam accepted the ultimatum, and expressed the hope that diplomatic relations would be resumed. After his departure M. Develle telephoned the news to Premier Dupuy who summoned a Cabinet Council. On this short notice but five ministers could be found. Therefore after an informal discussion of Siam's surrender the meeting adjourned until to-morrow when President Carnot will confer with the ministers either in Parls or in Marly-Le-Roi. The blockade doubtless will be raised immediately, although for the precent the gunboats now off the Siamese coast will be left in the Gulf of Siam.

ese coast will be left in the Gulf of Siam.

Bangkok, July 31.—The Cabinet council at which the decision to grant all demands of France's ultimatum was made was called at the royal palace on Saturday morning. The king presided. His two brothers and all the Ministers were present. After sitting several hours the council approved the views of the peace party. Instructions were then telegraphed to Prince Vadhana, Siamese Minister in Paris, that the Government accepted the ultimatum regardless of all reservations previously formulated. Capt. Jones. British Minister in Bangkok, was notified immediately of the council's decision.

Paris, July 31:—This semi-official statement was given to the press: "The Siamese Government having reconsidered its former attitude now accepts all conditions of France's ultimatum, without perserve. The acceptance gives complete satisfaction to France and all who were not desirous of making the Siamese difficulty the occasion of fresh colonial enterprise."

culty the occasion of fresh colonial enterprise."

After referring to the Cabinet meeting and the one called for to-day the statement closes with the words: "The French Government, desiring tog twe proofs of its goodwill to Siam, probably will not raise further objections in the affair."

Another semi-official statement denies the truth of the rumor that M, Develle and M. Delcase, Under Secretary of State for the Colonies, have resigned. The public will find proof in the Siamese affairs, says the statement, that Great Britain has not intervened and does not intend to do so. The Jour accepts this last statement only with a grain of salt. It says that something has been done behind the scenes, and the French are likely to awake soon to the fact that Great Britain, after all, has got the better of them in the diplomatic negotiations. The Jour ascribes the sudden softening of the tone of the British press to private assurances from British press to private assurances from the colonies and the State would be given.

Difficulties Foreshadowed.

Parts, July 31.—The meeting of ministers to consider Siam's unreserved acceptance of France's ultimatum was held at the Elysee between 5 and 7 o'dopk last evening. President Caract came from Marly-le-Roit to preside. After deciding to accept Siam's concession of the French damands, the ministers deferred further definite action until measures should have been taken to guarantee Siam's fulfilment of the French demands. They took steps, however, to inform M. Pavie, French Minister resident, now at Koh-Si-Chang, of Siam's acceptance of the ultimatum and the consequent action of to-day's council. The conference of the ministers was prolonged by a discussion of the steps which might be necessary in settling the boundary question between France and Great Britain. A certain amount of difficulty is expected to embarrass this part of the negotiations, Another cabinet council will be held on Tuesday.

BARKOK, July 31.—While the Government of Siam accepted without reservations France's ultimatum it received previous assurance that the kingdom would not be diminished until after the consideration by all the powers concepted of France's demand for the territory between the 18th and 28th parallels. It is somewhat remarkable that before Prince Vadhana, Siamese Minister in Paris, could have received his instructions to accept the ultimatum, Great Britain's refusal to recognize the blockade had become known in this city.

The blockade is still maintained by the Forfait, Lutin, Inconstante, Comete and Lion. The British warships Palias and Swift remain at the Menam bar, inside the blockade limits. The British warships, Linnet and the German warship Wolf are at anohor in the river off Bangkot. The British Government mail was allowed to pass, but mercantile correspondence with Siamese firms has been cut off.
