HOUSE NUMBERING.

Some time ago The Planet drew attention to the fact that the House Numbering Question has been left in a very unsatisfactory condition by the members of the City Council. At that time it was pointed out with the hearty support of many citizens, that this question is an important one to Chatham, and that it is highly deserving of more active attention from the Council than it is at present receiving. Since that time nothing has been done. Matters are exactly as they were before. The houses are still unnumbered, and many ratepayers are suffering, with no visible signs of future relief.

"There is a unanimous complaint from the business men of Chatham," was the way one of these merchants put it to The Planet yesterday, and the fact as contained in his statement can very easily be verified by short interviews with the merchants along King street alone. Hardly a day passes but some merchant mentions the matter seriously to the press, and still the Council seems to view the matter with indifference.

No time should be lost in the preparation of a proper chart of the city. This would at least give a number of the citizens a chance to do the work themselves. It would also afford an opportunity to some of the merchants to number the houses of their customers, which many of them claim they are willing to do in order to save time and money, which at present is lost to them.

BEAUTIFY THE CITY.

In Brockville a Local Improvement committee has been established in connection with the Board of Trade. The duties of this committee consist in looking after the general appearance of the place, so that visitors will receive pleasant and lasting impressions. The Recorder supports the scheme with the highest words of praise. It says: "This is a step in the right direction, and a procedure that many of the towns and cities have already adopted. The results of the innovation more than justify the outlay. There is no better advancement for any municipality than the possession of well kept lawns, boulevards and streets."

The formation of such a committee in connection with the Board of Trade here is at least worth consideration. Nature has been lavish with Chatham, and it's up to the people to take advantage of the opportunity offered and make the city one of the prettiest on the continent. Visitors to any place note the way in which its streets and lawns are kept and go away with the impression so formed of its people and their progressiveness accordingly.

MRS. MAYBRICK.

The story of Mrs. Maybrick is retold by the Canadian Churchman, for the moral that it points. After relating the successive efforts to secure from the British home secretary a pardon for her, and the refusal of the authorities, who "were convinced of her guilt," to grant it, and her final release on parole on condition of her going to the United States, the Churchman gives the following as her post prison history: "When she left prison Mrs. Maybrick rejoiced to be free again. She said that all she wanted was to have a chance to earn her living. That chance, she now declares, she has never had. She failed to recover some coal property in Virginia, and failed to attract support by delivering lectures or writing a book. One real friend she had, who lived near Brooklyn, who gave her a home. But her one friend died. Mrs. Maybrick now lives alone in a small apartment in New York. Few persons visit her. Persons hurrying past her windows sometimes catch a glimpse of a pale, tired face, framed in thin brown hair, at the window. They think it is the face of a woman who has been ill or who mourns. They are struck with the pallor of it. Curiously the old prison pallor, which had gone from her face in the three years of her freedom, is returning. The pinkness of her cheeks and the evanescent prettiness of her face vanished with the forging of the first of the new links upon the last of the old chain of her misfortune. She said to a reporter, 'Sometimes I think I shall go to the British consul and ask to be sent back to prison, where I shall know that I will be clothed and fed, and have a roof over my head.' What an existence!"

CURIOSITIES OF CANADIAN LAW.
Brookville Times.
A steamboat is not a conveyance.

A hockey player who fatally dented his opponent's skull did not kill him. Men accused of manslaughter are discharged because a law stamp was not on the warrant. An innocent man's life is blasted by a trial for murdering his housekeeper, and an innocent wife's life and fortune are wrecked by a charge of poisoning her husband. These are a few specimens of the action of the law in this country during the past few months or so. Justice in Canada seems to be suffering from brain-storm just now.

YOU MAY BE SICK TO-NIGHT

Without a moment's warning pain springs upon us. At the outset it is instantly cured by Nerviline. Surprising what fifteen drops of this marvelous medicine will do. It's external action is no less certain than its wonderful effect when taken internally. Of course Nerviline is powerful or it couldn't be so penetrating. But not irritating or caustic. There are other pain remedies, but when you use Nerviline you see the difference. That difference is this—others relieve, but Nerviline does cure sprains, strains, swellings, earache, toothache, neuralgia, lumbago, in fact all muscular pains. Large bottles 25c. at all dealers.

Charged With Perjury.

St. Louis, May 9.—H. Clay Pierce, chairman of the board of directors of the Water-Pierces Oil Co., surrendered himself yesterday on the indictment returned against him in Texas, charging perjury in an affidavit to reinstate the company in Texas, from which it had been ousted.

Tug Sunk In Collision.

New York, May 9.—While leaving her dock in the North River yesterday afternoon, the Morgan Line steamer Momus ran into and sank the tug Anna J. Kip. The tug's crew was drowned. The other members of the crew were rescued.

Any shirt will outwear any ordinary shirt that costs the same. One reason is the way we sew the cuffs—"gutter-seamed," edges turned in, flattened, and sewn with fine, tough thread. Won't fray nor crack. Button-holes worked better than by hand—won't ravel. Same idea governs every detail of every shirt—to make it better than seems needful. The great tabernacle at Salt Lake City is completed and comfortably seats 10,000 people.

A good thing is told of President Johnson in Raleigh. While responding in a feeling manner to the welcome given him, he used the expression, "let us, my friends, repair the breaches," and before he could add, "made by war," an old woman exclaimed with perfect delight, "bless the dear man, he has come home again to work at his trade."

A few days ago the proprietor of the Salt Line Works, at Cleithro, England, fired an immense blast. Two tons of gunpowder were placed in the mine and the explosion which followed resulted in the displacement of about 20,000 tons of stone.

A dreadful pestilence is raging in the island of Mauritius. People are dying at the rate of two hundred per day. The disease is the West Indian type of malignant bilious fever. It was first confined to the natives, and is supposed to have originated from unwholesome food. The mortality has spread to the soldiers, and there is a complete panic among the people.

A proposition is on foot to start the gigantic undertaking of running a tunnel under the Atlantic Ocean, in order to connect the new and old worlds together by means of a submarine railway. The most eminent engineers, both in America and Europe, have been consulted, and they have drawn up a report, which is perfectly feasible, and only requires time and money to carry out. While the capital, although stupendous, will be forthcoming, it will require five hundred million English pounds or two billion five hundred million dollars. Plenty of capitalists are ready to engage in this marvelous undertaking, and as soon as the plans are arranged the money will be advanced. The proposed plans are in themselves the wonder of this skillful age of engineering science.

A large concourse of people were present at the station last Thursday to meet the Hon. Sir John A. Macdonald, K. C. B., Premier of Canada, and Hon. John S. Macdonald, Premier of Ontario. The hon. gentlemen were accompanied by the Hon. John Carling, of London, A. P. Macdonald, Esq., of Glenora, candidate for the House of Commons, and N. Currie, Esq., candidate for the Legislature of Ontario for West Middlesex. Excellent discourses were given by the honorable gentlemen and the town was in a roar with excitement. TENACIOUS FORM OF SYSTEM-ATICO CATARRH.

Not an easy thing to cure, and a remedy that makes good deserves the credit. Catarrh cured. Chas. H. Webb, of Woodstock, N. B., who writes: "For a number of years I was troubled with systematic catarrh. It was a very tenacious form of the disease and nothing helped. I used Catarrhose and got relief. To build up my system I used Ferrozone. This cured me." Your catarrh may be chronic, but Catarrhose will drive out catarrh and keep it out. Two sizes, 25c. and \$1.00 at all dealers. Sold under guarantee of satisfaction.

Revolver Accidentally Discharged.

Brockville, May 6.—The eight-year-old daughter of Wm. Donnelly, who lives near Lake Titus, got hold of a revolver in some way and started to show it to her mother. The revolver went off, sending a bullet through the fleshy part of the left hand of the child. The revolver had been left lying on a shelf and was supposed to be empty.

INVALUABLE FOR NURSING MOTHERS.

With nursing comes an unceasing strain on the mother's vitality. The blood is weakened. Nerves are irritable through loss of sleep. Anxiety and care break down even the strongest. Experience teaches that nothing is more helpful than Ferrozone. What an appetite it brings! No blood-former or nerve tonic more potent, no medicine known that so steadily brings back the health, vigor and spirit that mothers require. It's because Ferrozone nourishes, because it supplies the materials for building that it does such permanent good; 50c. per box at all dealers.

Civil Servant Suicides.

Ottawa, May 9.—William H. Butland, electrician in the employ of the Government and living at Janville, a suburb of the capital, hanged himself in a fit of despondency yesterday morning.

ARE YOU NERVOUS?

Nervousness and sleeplessness are usually due to the fact that the nerves are not fed on properly nourishing blood; they are starved nerves. Dr. Pierce's Golden Medical Discovery makes pure, rich blood, and thereby the nerves are properly nourished and all the organs of the body are run as smoothly as machinery which runs in oil. In this way you feel clean, strong and vigorous, and you are good for a whole lot of physical or mental work. Best of all, the strength and increase in vitality and health are lasting. The trouble with most tonics and medicines which have a large boom-bust sale for a short time, is that they are largely composed of alcohol holding the drugs in solution. This alcohol shrinks up the red blood corpuscles, and in the long run greatly injures the system. One may feel exhilarated and better for the time being, yet in the end weakened and with vitality decreased. Dr. Pierce's Golden Medical Discovery contains no alcohol. Every bottle of it bears upon its wrapper the Badge of Honesty, in a full list of all its several ingredients. For the drug-gist to offer you something he claims is "just as good" is to insult your intelligence.

Canadian Peers Without Heirs.

It is a noteworthy and curious fact that of our three Canadian peersages, only one has an heir male to continue it. Lord Strathcona's title will presumably descend one day to his daughter, Mrs. Howard, who will thus add another to the small and select company of peeresses in their own right. Lord Mount Stephen, though he has been twice married, has no children; and the one other Canadian peerage, that of Macdonald of Earncliffe, is now held by the widow of the first Lord Macdonald, and as yet no provision has been made for its inheritance by her only daughter.
