NO USE FOR OUR FARMERS.

SIR RICHARD CARTWRIGHT AND HIS FRIENDS THE GRITS HAVE A SUPREME CONTEMPT FOR THEM.

A Few Facts and Figures That Will Convince Thinkers That Their Interests Would be Unsafe in the Hands of Laurier's Incompetents.

A French Liberal editor, who was seized with an unusual fit of frankness, told us last March how Tarte and the hungry crew of French Grit boodlers stood "with their ladies ready to get at the soup that Laurier will give them when he shall have attained power."

The truth was in that sentence. But Mr. Laurier won't be handing out soup when the elections are over. He'll be in it himself. Nine out of ten of the French Liberals hate the Conservatives because they are the Loyalist party. Listen to what the French Canadian editor of La Patrie, Laurier's organ in Montreal says: Hatred of England and everything British sticks out in it; in this Good Grit editorial:—

"Everybody has noticed that Joseph Chamberlain, who pretends to be the entire English Government, has sent a cablegram to Sir Charles Tupper congratulating him upon becoming Prime Minister.

"Mr. Chamberlain has reason to be satisfied, because Sir Charles is his creature and his factotum, and it is he who has bought for our Government a million and a half of rifles that Chamberlain has on hand. Sir Charles is here to represent and protect the interests of England, not those of Canada, bear in mind.

"Sir Charles' mission is to lead Canada to Imperialism, the policy of fortifications and guns, simply on account of England.

"Now you know why Chamberlain is satisfied that Sir Charles is Prime Minister."

It is pleasing to be able to say that half a dozen prominent French Conservative newspapers have resented bitterly this attack on Britain.

Once upon a time Sir Richard Cartwright paid his compliments to the farmers of Canada.

"The best way to treat the farmers," said he, "is to let them compete with the world. If they can't do that successfully, they deserve nothing at our hands."

What did that mean? It meant. Let the Canadian market be flooded with Yankee produce.

At the present moment these are the ruling prices:—

	Toronto.	Chicago.
Wheat, red, from farmers' wagon, per bush	80c	64c cash
Rye	58—60c	36c
Oats	27c	18½c
Barley	34c	30—33½c
Butter, per lb	13—15c	9—13c
Eggs, per doz	10—11c	7½—9½c
Potatoes, per bush	17—20c	12—15c
Sheep, per head	$4.75—$5.25	$2.50—$3.80
Lambs	$4.50—$5.00	$3.75—$5.00
Fat cattle, per lb	3½c	2½—4c
Hogs, per cwt	$3.95—$4.00	$3.05—$3.60
Veal, per lb	6½—8c	5½—6c

What does the Liberal financial critic say in answer to this? Probably he holds the same opinion as he did in 1893 when he made the speech above referred to. The great farming class of Canada knows better. In North Waterloo, Ont., the Grits have put up as their candidate E. W. B. Snider. Only a few short months ago Mr. Laurier, who had sat in the House of Commons and had applauded Sir Richard Cartwright's remarks, sat on the same platform with Candidate Snider, and heard him say that the Protective tariff, otherwise the National Policy, could not be dispensed with. There are too many hard-headed Canadians living in Waterloo to allow Mr. Snider's giving them any such rot as Cartwright inflicted upon the House of Commons. The trouble is that Snider is a Protectionist. He can no more be a Protectionist and a Liberal than he can be walking and standing still at the same time.

Probably Sir Richard and Mr. Laurier would like to read Snider out of the Grit ranks. He preached what they consider a damnable heresy—Protection for the Country, and the Country for Canadians.

"The Yankee producer is glad to get fifteen cents a bushel for his potatoes," the patriotic Liberals cry. "Why should our farmer get, as he does get, five cents more? Down with the tariff! What's good enough for the Americans is good enough for our people."

Yes, the policy of the Government is responsible for it all. The Liberals are going to change the state of things—they say. But the farmers of Canada are going to take care that Laurier, Cartwright, Tarte, Pacaud and the Quebec Mercierites won't get a chance to ruin the country. The Liberals ask the farmer to vote for them, to abandon his pre-emption on the Canadian market, and to receive the sheriff with joy while the Yankee farmer fattens on the spoil.

"The sheriff!" says somebody. Yes. So the United States consular agents say. In their reports to the Washington authorities the American Consular agents stationed in Canada united in saying that free trade would render it impossible for the Canadian farmer to come down to the American scale of prices. Now, these Consular agents ought to know whereof they speak. They are salaried experts. They had no fish to fry. They were instructed by their Government to enquire into the probable effect of free trade with Canada. And they reported as above. They saw, as the farmers of New York, Pennsylvania, Ohio, and Michigan, see, that there is a market ready for them in Canada whenever our tariff walls shall have been thrown down.

And it is the dream of Laurier's life to throw them down. "We want Free Trade," he said at Winnipeg, and has said a hundred times. He has said another thing that is quite true. It is "I am not a business man." The Liberal leader never said a truer word. And so, by his own admission, being a lawyer and not an authority on business matters, how comes it that he should attempt to advise the farmers on their affairs? The answer is easy. Laurier and Cartwright and the rest of the aggregation of incompetents that head the so-called Liberal party, needed a cry. Anything would do, so long as it was a campaign cry. They have it, and they are welcome to it. When they find their own candidates repudiating it they will decide that it would have been better had they clung to their old policy of: "No Policy Except to Get at The Treasury."

To dream of eating beans is a forerunner of troubles and quarrels with your acquaintances.

Children Cry for Pitcher's Castoria.

TWENTY YEARS AGO.

In the bad days of Seventy-six—
Remembered to this hour—
A dreary time had Canada,
And the Liberals in power.

The free trade fad had then full swing,
"The fly sat on the wheel;"
Then men lacked work, and women wept,
Full often lacked a meal;

Soup kitchens got in their sad work—
That cuts—like prick of steel;
Said C——t, of the artisans:
"'Tis good to make them squeal;"

"Let them go work out in the fields,
Hew wood, or water draw;
We have no use for factories here."
And he guffed a loud guffaw.

The lawyers and the assignees
Alone were getting rich,
While the business men of Canada
Were down in the last ditch.

But little work was to be got;
'Twas scrambled for—and then
The day's pay was just fifty cents—
Brown sugar sold for ten.

Then hungry children cried for bread,
Then all to care a prey.
Turned gray the hair of many a head
That should not have turned gray.

When closed-up factories met the view,
And want at every turn.
The country made the dumping ground
Of wares the Yankees spurn.

The merchant princes, who built up
Our cities—where are they?
Harassed and worn—with care o'erborne—
Lost fortunes in a day.

Our Liberal rulers—throned in state—
With calm, superior air,
Approached, that they should legislate
To make the tariff fair.

That Canada be given to do
At home, Canadian work;
Nor made to pay for it abroad
To Yankee or to Turk.

"You know not what you ask," said they;
"We're flies upon the wheel,
We can do nothing. Go your way,
For vain is your appeal."

This is no fancy picturing,
Drawn by a youth at play.
'Tis what was done in seventy-six,
And would be done to-day.

Remember well, and every hour,
That this will be the tune
The Grits will play—if sent to power
The twenty-third of June.

W. H. BROWN.

THE "PROTECTION" POLICY.

When asked what does Protection mean
One may this answer give:
'Tis pay for work, and work for pay,
To live and to let live,
The land to till, the mine to drill,
The forest to remove;
With all industrial wheels at work,
Our country to improve;
When each to other, hand to hand,
Will true protectors be;
One grows the grain, one makes the goods,
Another fells the tree.

Chorus—

Then we'll all as true Canadians
Together stand or fall.
Let us each other then protect,
And heaven protect us all.

With righteous cause and justest laws,
Resources past compare,
We then should get of immigrants
Who want to work full share;
And here to every one who came,
While doing no one harm,
We'd give them all protection for
Mill, forest, mine and farm.
And then by giving work to all
In every relation,
We'd make this Canada of ours
A progressive nation.

Chorus—

Then we'll all as true Canadians, etc.

It matters not how rich the soil
Of prairie, hill or plain;
No country yet grew truly great
By only growing grain,
So with the farmer we should have
Also the artisan,
And find all sorts of work to do
For every lab'ring man
Then when the stranger reaches here
We give him not a stone;
Of old, 'twas told, it was not meet
To live by bread alone.

Chorus—

Then we'll all as true Canadians, etc.

Some may have their finer theories
But when all facts you scan
'Tis pay for work at home's the way
To help the lab'ring man.
In helping him we're helping all,
For on his labor rests
The progress that our country makes
To meet all our behests.
With wages sure, few need be poor,
We'd prosper on all hands,
And then we may in honest way
Get labor from all lands.

Chorus—

Then we'll all as true Canadians
Together stand or fall.
Let us each other then protect
And heaven protect us all.

LIEUT. PEARY.

HALIFAX, June 16.—Lieut. Peary, who returned from St. John's, Nfld., on the steamer 'Portia,' is now on his way to New York, having completed arrangements for a steamer to take him North this summer. The vessel is the whaler 'Hope,' of St. John's, Captain John Bartlett, Lieut. Peary will sail from Sydney, C. B., the middle of next month and to be absent two years. This expedition, it is said, will include a survey of Hudson's Straits. The Dominion Government is sending an engineer with Lieut. Peary for the purpose of securing more definite data than now exists concerning this important waterway. Hudson Strait, as the entrance to Hudson Bay, would be a very important connection in case the construction of the Hudson Bay Railway were undertaken.

HAD HE KNOWN.

WITH DR. AGNEW'S CURE FOR THE HEART AT HAND, DEATH FROM HEART DISEASE IS IMPOSSIBLE—WONDERS OF THIS WORLD-FAMED PHYSICIAN'S CATARRHAL POWDER.

Success has followed all of Dr. Agnew's specifics. With all the emphasis possible this is the case with his Cure for the Heart. Its effectiveness is marvellous. The very paroxysms of death may seem to have seized the patient, and yet relief is secured with the taking of a single dose, and the continuation of the use of the remedy soon cures the worst case of heart disease. George Crites, customs officer, Cornwall, Ont., says: 'I was troubled with severe heart complaint for several years. The slightest excitement fatigued me. I was under doctor's care for over six months, being unable to attend to my business. No relief came to me, and it was only after I had scarcely dared to hope for cure that I used Dr. Agnew's Cure for the Heart, and in a comparatively short time it removed the disease altogether.'

With careful, innate conservatism, yet recognizing its benefits, the Rev. John Scott, D. D., Presbyterian minister of Hamilton, is only one of the many leading clergymen in Canada who, having used Dr. Agnew's Catarrhal Powder, has freely testified over his own signature as to its unquestioned benefits. It may be only a cold in the head, or the case may be a more aggravated phase of catarrh, that has baffled other remedies, but this simple and pleasant remedy will give relief in 10 minutes, and entirely remove the difficulty. Sample bottle and Blower sent by S. G. Detchon, 44 Church st., Toronto, on receipt of 10c in silver or stamps.—Sold by E. Lee Street.

AGAINST FREE SILVER.

CLEVELAND DOES NOT BELIEVE THE DEMOCRATS WILL FAVOR IT.

NEW YORK, June 17.—The Washington correspondent of the Herald sent in the following interview with President Cleveland. I have made no figures as to the probable action of delegates already chosen, or to be chosen, to the democratic National convention but I refuse to believe that when the time arrives for deliberate action there will be engrafted upon our democratic creed a demand for the free, unlimited, independent coinage of silver. I cannot believe this because I know the democratic party is neither unpatriotic nor foolish, and because it seems so clear to me that such a course will inflict a very great injury upon every interest of our country which it has been the mission of democracy to advance, and will result in lasting disaster to our party organization. There is little hope that as a means of success this free silver proposition after its thorough discussion during a political campaign will attract a majority of voters of the country. It must be that many of these illustrations influencing those now relying upon this alleged panacea for their ills will be dispelled before the time comes for them to cast the ballots which will express their sober second thoughts. The adoption by the democracy of this proposition would I believe give to our opponents an advantage both in the present and future which they do not deserve.

THREE TRUE FRIENDS

WHO KEEP EVERY PROMISE—RHEUMATISM BANISHED; KIDNEY DISEASE TAKES WINGS; DREADED INDIGESTION NOT KNOWN—THE GREAT SOUTH AMERICAN REMEDIES.

We can get at the heart of this matter by letting other people tell the truth of what these wonderful South American Remedies can do, and have done. John Marshall, of Varney, county of Grey, suffered as only those can suffer who have been troubled with sciatica. A relative suggested that he try South American Rheumatic Cure, which promised so much. Result—Inside of three days he was able to walk a distance of nearly 4 miles to Durham for the purpose of procuring another bottle of this remedy. He continued its use, and to-day he testifies that he knows nothing more of the troubles of this painful phase of rheumatism.

Some disease consists of the gathering of solids and hardened substances in the system. The troubles cannot be permanently removed, except as these particles are dissolved. A powder or pill will not do this. South American Kidney Cure possesses the particular elements that get at the seat of this disease. John G. Nickel, one of the best known farmers in Wallace township, suffered from kidney complaint, carrying with it awful pains. Nothing did him any good, until he tried South American Kidney Cure. His words are: 'After taking only two doses the pain was entirely gone, and I have never been bothered with it since. I feel as well as I ever did. Let anyone write me to Shipley Post Office and I will gladly give them particulars of my case.'

If the world looks blue to anyone it is to the dyspeptic. For ten years David Reid, Chesley, Ont., suffered much from liver complaint and dyspepsia. He says: 'At times my liver was so tender I could not bear it pressed or touched from the outside. I tried a great many remedies without any benefit; was compelled to drop my work, and as a final resort was influenced to try South American Nervine. Before I had taken half a bottle I was able to go to work again.'—Sold by E. Lee Street.

THE FORESTERS.

MONTREAL, June 16.—The High Court of the Canadian Order of Foresters is holding its Convention in this city. There are a large number of delegates present from all parts of Canada. The business session was opened this afternoon, the High Chief Ranger, C. E. Butler, of Gananoque, in the chair. An address of welcome was presented on behalf of the Quebec Brethren and was responded to by the High Chief Ranger. The reports of the High Chief officers were then presented and were of a very encouraging nature. At this evening's session Mayor Wilson-Smith attended and officially welcomed the delegates to Montreal. The Convention will continue in session for some days.

PACIFIC CABLE CONFERENCE.

LONDON, June 16.—Sir Donald A. Smith despite the fatigue from the meetings and festivities of the Congress of Chambers of Commerce, none of which he has missed, has gone to Glasgow, where he represents Canada at the Kelvin celebration.
