## Grippe Epidemic

### Again Sweeping Over Canada with Unusual Virulence.

The Most Violent Attack Since 1890, Leaving Behind a Host of After Effects that Make Life Miserable.—Prompt and Effective means should be taken to Strengthen the System.

La grippe, now sweeping over this country in one of its periodic epidemics, is one of the most treacherous and difficult diseases with which medical science has to cope. It is its after effects that it is particularly disastrous, and these assume many forms, prominent among which may be mentioned heart weakness, bronchitis and lung troubles, nervous prostration, alternate chills and fever, a feeling of constant lassitude and an indisposition to either mental or physical exertion. Often the sufferer does not recover from the after effects of the grippe for months, and in cases of previously enfeebled constitutions and among those of advancing age, the number of cases terminating fatally is appalling.

Even after a mild attack of the grippe it is imperative that the system should be thoroughly toned up, the nerves strengthened and the blood enriched. Dr. Williams' Pink Pills is the only medicine that can be depended upon for promptness and thoroughness in this emergency. These pills are a true blood feeder, bringing to the vital fluid the constituents that give it richness, robustness and strength, thus driving out disease and acting as a tonic and brace to the whole system.

Mr. Harry Dag, a well known farmer living near Kings, bears testimony to

the great value of Dr. Williams' Pink Pills in removing the after effect of the grippe. The disease left him a victim to cold chills, violent headaches, dizziness and severe palpitation of the heart. Mr. Dag says:—I finally went to Boston, and consulted a doctor, who stated that the trouble was likely to develop into consumption. I was under his care for about three months, but was gradually growing weaker and unable to do any work. At this stage one of my neighbors advised me to give Dr. Williams' Pink Pills a trial, and as my case was critical I determined to give them a fair trial, and purchased a dozen boxes. Before the third was used there was good evidence that they were helping me, and before the dozen boxes were used I was as strong and vigorous as I had ever been, and I can heartily recommend Dr. Williams' Pink Pills for the manifold troubles that follow an attack of the grippe.

If you have suffered from an attack of the grippe procure a supply of Dr. Williams' Pink Pills at once, and they will put you right. Insist upon getting the genuine, as imitations never cured any one. If your dealer does not keep them, send direct to the Dr. Williams' Medicine Co., Brockville, Ont., and they will be mailed postpaid, at 50c. a box or six boxes for \$2.50.

## Well Made and Makes Well

Hood's Sarsaparilla is prepared by experienced pharmacists of today, who have brought to the production of this great medicine the best results of medical research. Hood's Sarsaparilla is a modern medicine, containing just those vegetable ingredients which were seemingly intended by Nature herself for the alleviation of human ills. It purifies and enriches the blood, tones the stomach and digestive organs and creates an appetite; it absolutely cures all scrofula eruptions, boils, pimples, sores, salt rheum, and every form of skin disease; cures liver complaint, kidney troubles, stricities and builds up the nervous system. It entirely overcomes that tired feeling, giving strength and energy in place of weakness and languor. It wards off malaria, typhoid fever, and by purifying the blood it keeps the whole system healthy.
