## The North British and Mercantile

We take from the Review published i Lincoln's Inn Field, London, the following article on the above prosperous Company : cantile Insurance Company for 1878 has been issued, and was laid before the annual meeting held at Edinburgh on the 4th inst. The

annuities, and the accumulations and annual consult, in the framing of measures, the pubproduce thereof, shall belong to the life delic, without a thought of private, interest, or lice, without a thought of private, interest, or lice nent, free from any liability to the fire trument. And in like manner that all income intensions, and the annual income that all forms of the inauguration of the new tariff was country. Under a out shed are piled up two so concouncing that the Office can afford to do this and be in the very front rank both as a Fire and Life office under separate heads. It is important to remember that after deduction of all the Life funds the cash assets available for fire losses exceed £1,500,000 sterling of uncalled capital, altogether £3,150,000 sterling.

The work of the session might be said to be mentioned, the session might be said to be mentioned, the separators and "Michigan" to concerning the Pacific Railway which Dr. Tupper brought down last week.

As might be expected, with the majority of Cossets' horserakes, about thirteen in all, the power they desired to be whealed. There is no design as those shown at the last, i.x.line the work of the session might be said to be mentioned, and "separators" and "Michigan" to concerning the Pacific Railway which Dr.

Tupper brought down last week.

As might be expected, with the majority of Cossets' horserakes, about thirteen in all, the power they desired the work of the session might be said to be mentioned, and "separators" and "Michigan" the session might be said to be mentioned, and "separators" and "Michigan" the session might be said to be mentioned, and "separators" and "Michigan" the session might be said to be mentioned, and "separators" and "Michigan" the session might be said to be mentioned, and "separators" and "Michigan" the session might be said to be mentioned, and "separators" and "Michigan" the session might be said to be

capital, which will thus beraised from £250, the pressure of those "Curvilinear Christophila and the pressure of those "Curvilinear Christophila and the pressure of the best labor-saving agricultural than manner proposed being in the great Bunster, and De Cosmos machines and implements. always a temptation to divide present profits at once, but the directors of the North British and Mercantile have never taken this wiew. Whatever profits are made, are devoted (subject to a reasonable dividend) to Bute Inlet route is 300 miles longer than the John Henry Newman, of England. His se-ficial effect on the soil, and made it fit for efore, seeing the retention of this £100,000 in the Reserve funds instead of bethe commercial sagacity which has guided the company to its present prosperous and powerful condition. They will also observe that 652,000,000; for the Burrard Inlet \$41,000, loved; Trinity elected him an honorary Fellow last year, when for the first time, since tention. The great enemy to the plant is the the company to its present prosperous and powerful condition. They will also observe that £57,047. 14s. 3d. is 'carried forward as undivided profit. It will not escape notice that interest alone on the cash assets of the that interest alone on the cash assets of the Pacific Railway it would seem that the admitted, after criticising the man in his all them with a powder of unslacked lime, and the limit of the lim

safer than it was, would be inaccurate, for ever, few and far between, and we must only congratulate the managers on the results of their labours, and hold the company up as an example to be followed, and as a refuge where inexperienced assurers may fold their wings

number of seals taken will reach very nearly 500,000, while the proportion of old seals brought home is greater than usual. Against this, however there is a decrease in the value of oil, and a consequent lessening of the profit to the crews. Indeed, neither merchant nor man will add very much to his annual earning by the spring's work, although no one can complain respecting the general success. Had the prices of former years been maintained, the results would have been wonderful cures. You can buy a Sample been maintained, the results would have been most satisfactory, but under present circumstances the value of the good catch is marteially prejudiced by lessened price.

and not a Druggist but will tell you of its wonderful cures. You can buy a Sample by the stances the value of the good catch is marteially prejudiced by lessened price.

The exodus of negroes from certain quarters of the South to the North, on account of outrages committed upon them by brutal planters, and inability to obtain their wages, has resulted in an application on the part of some of the whites for a supply of Chinese laborers. The ultimate result of an influx of Chinese cheap labor, governed by companies which would enforce contracts for labor and lefend the laborer, would ultimately result in a largely increased production of cotton, and The exodus of negroes from certain qua

Drunkenness in Sweden and Norway i cured in the following manner:—The drunk and is put in prison, and his only nourish ment is bread soaked in wine. During the day the food is not so acceptable. Aft liquor that the unhappy man is compel absolute abstinence. After leaving prison his drankenness is radically cured, with at occasional exception, and the odor of liquo produces an invincible repulsion.

The capital of the proposed new French cable between France and America consist of 42,000,000 francs in shares of 500 frances in shares of 500 frances of 42,000,000 francy in a superscript of the definite organization was made March 27, 1879. The president is M. Pouyer Quertier, and the New York holders are represented by Mr. E. I. de Brugiere an General Z. C. Dens. Seven lines will be expensed as tablished, and the cables will be made and laid by Siemens Brothers.
