INTEREST MARKS BOTH DEBATES

Lively Sessions in Legislature Yesterday-Amendment fo Railway Resolution Adopted.

(Wednesday's Daily.)

'This Government and this Legislature, Mr. Speaker, have gone a very considerable length during its short tenure of office n demonstrating the fact that

they are in favor of the prin ple of government ownership of public utilities, and, sir, the government is prepared to go still further when the needs of the people of this province require it. . . When we have these matters properly considered and have some definite plan worked out that will commend itself to the good sense of the Legislature as well as the people of this province; when the Government have such endorsement it will be ready for action and will not be long in delivering the goods. But, sir, it is not going to be cajoled or stampeded into enacting abortive legislation with respect to railways or anything else by members opposite who are not charged with the responsibility of managing the affairs of the province."-Hon, Mr. Cushing's speech on A. J. Robertson's

railway resolution. Yesterday's debate in the Legisla ture was one of the most interesting of the session. Two resolutions came up for discussion in the afternoon, law act. But the Chinaman escaped. ways tried to be just to these people realized the truth that these people eivilization and barbarism: that they played a very important part in the history of this country, and made its ettlement and development poss without bloodshed or delay. So I ask you to remember this when you have to do with the half-breeds, and treat them with some portion of the goodness shown by them to the first set-Against Mixed Marriages.

In the evening again, Father Lacombe spoke, the main topic of his address being mixed marriages. He admonished his congregation not to endanger their faith by contracting arriages outside the church, for during his years of missionary work he d seen so many of such marriages cases of smallpox have been reported and in religious indifference, and children who grew up without proper
