OFFICIAL.

LONDON, Dec. 13. The Governor, Newfoundland:

General French reports sixteen of our aeroplanes raided the store depot at Miramont aerodrome heavily. Considerable damage is believed to have been done. Bombardment of the enemy lines continues with good results. A small successful bombing attack near Neuve Chapelle destroyed an enemy machine gun, and inflicted numerous casualties. Our casualties are one officer and four men wounded.

In the Black Sea Russian torpedo boats sank two Turkish gunboats. Italians have captured the strong point of Guidicasse and the Concel valleys.

The press bureau announce that in Serbia a tenth division, after sustaining violent attacks by overwhelming numbers have retired with our allies from Lake Doiran westward to Vardar. The successful withdrawal was due to the gallant conduct of the troops, especially the Munster and Dublin Fusiliers, and the Connaught Rangers. We lost fifteen hundred men and eight field guns.

BONAR LAW.

THE WAY OPEN TO ALLIES.

LONDON, Dec. 13. The actual withdrawal of the Greek army from the path of the Allied forces which are retreating on Salonika is said to have been effected. A Reuters despatch filed at Athens yesterday says: As a result of an agreement between the Greek General Staff and the Allied Generals, a division of the Greek army which have been stationed at Langana has been withdrawn to Serres, about fifty miles northeast of Salonika. The zone between Salonika and Dolran has been left free for the movements of the Allied troops. Allied military authorities to-day took over portion of the Customs House at Salonika.

CANNONADING REPORTED IN DIRECTION OF YPRES.

NEW YORK, Dec. 13. A News Agency despatch from London says: Uninterrupted cannonading has been going on with great violence for 24 hours in the direction of Ypres.

GERMAN PLANS.

PETROGRAD, Dec. 13. Germans in Persia are seeking to divert the attention of the Russian army of the Caucasus, according to the Russian Invalid, and cause it to scatter its forces over a large front in order to allow the Turks to throw part of their troops into the Mesopotamia campaign to save Bagdad. The Reich expresses the belief that the plan of the Germans to force the Dvinsk River, while it is frozen over, is not practicable, as the winter is extremely rigorous, with heavy snow which hampers the movement of motor vehicles, and prevents the transport of sufficient munitions.

GERMANS EXPLODE MINE.

PARIS, Dec. 13. (Official.) In Champagne to the south of the knoll at Le Mesnil, the Germans exploded a mine before one of our trenches. We occupied the crater. There were no important developments on the rest of the front.

BRITISH STEAMER SUNK.

LONDON, Dec. 13. The British steamer Pinegrove has been sunk. The crew was saved. She was 2,847 tons.

BULGARIAN TROOPS PREPARING TO CROSS GREEK FRONTIER.

SALONIKA, Dec. 13. The newspaper L'Opinion asserts that Bulgarian troops are preparing

to cross the Greek frontier and that Greek troops are moving towards the threatened point, apparently with the object of disputing the Bulgarian invasion.

EARL GLASGOW DEAD.

LONDON, Dec. 13. David Boyle Glasgow, seventh Earl of Glasgow, died to-day.

Acid Stomachs Are Dangerous.

Common Sense Advice by a Distinguished Specialist. "Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach, and leading to probably nine-tenths of the cases of stomach trouble from which people suffer. Ordinary medicines and medicinal treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The acid must be neutralized, and its formation prevented, and the best thing for this purpose is a teaspoonful of bisulphated magnesia, a simple antacid, taken in a little warm or cold water after eating, which not only neutralizes the acid, but also prevents the fermentation from which acidity is developed. Foods which ordinarily cause distress may be eaten with impunity if the meal is followed with a little bisulphated magnesia, which can be obtained from any druggist, and should always be kept handy.

Domestic Loan for the Colony

THREE MILLION DOLLARS. Editor Evening Telegram. Dear Sir,—If the Minister of Finance were to place a prospectus before the people of the country asking for \$3,000,000 how would it be received?

Are the different political parties of the Island united at the present time, to use their influence and support the Government to carry a proposal of this kind out, if the loan were made a popular one. Whether you call it a war loan or a general loan, the purpose of the Government cleaning up outstanding liabilities that must have been undertaken before the war is a matter of name.

My only object, Mr. Editor, in writing this letter is to show our people how a loan of this kind works out, and the special financial benefit they would get taking up a loan in their own country.

What a Three Million Dollar Loan floated in this Colony would mean to the people of this Country, based on the same lines as laid down by the Dominion Government's Loan.

One Hundred Million Dollars—\$100,000,000—97½% per cent. Security—The Dominion of Canada. Newfoundland Loan—\$5,000,000—raised in the Colony. Security—The Colony of Newfoundland.

What your money is worth if you deposit at three per cent. with the same security:—
On Deposit . . . \$3,000,000 . . . 3% \$90,000
New Loan . . . \$3,000,000 . . . 5% 150,000
Profit to buyers of New Loan, 97½% money go to London, or go out of the \$2,925,000 will buy \$3,000,000. \$75,000 profit.

\$3,000,000 Seventy-five Thousand Dollars divided among the buyers of the New Loan. Why should this money go to London or go out of the country when the people of Newfoundland have the money? I am not in the secrets of the Government, nor yet have I the slightest idea what their intentions are about a Loan, or whether it is required or not. I have simply put in plain figures the meaning of a Three Million Dollar Loan for this country, based on the same lines as that which has been offered, and fully taken up in Canada, and why if a Loan is required for Newfoundland the same should not be done and offered to the people of the Colony—the investment would be a safe 5 per cent. the loan for your security. Have confidence and unity.

The question is not one of Patriotic Loyalty to your Country, but a proposal based on purely a sound financial investment.
Yours truly,
JOHN ANDERSON.

Trouble on Board Ford Peace "Ark."

Malcontents Have Doubts About the Success of the Trip

On Board the Peace Ship Qscar II, by wireless to Cape Race, N.F., Dec. 9.—The peace ship is threatening already to baffle its name. Internal strife has broken out and bids fair to become serious.

The Rev. Chas. F. Aked of San Francisco, formerly pastor of John D. Rockefeller's church in New York, has taken the leadership of a band of insurrectionists who are beginning to entertain doubts for the success of the trip. These malcontents demand to be shown, in plain terms, what the peace party expects to accomplish and what grounds it has for so thinking. They insist on seeing the documents which Mme. Rosika Schimmmer asserts she has with her to show

that belligerents on both sides are willing to hear peace proposals and that unofficial representatives of the warring nations will attend the Ford pacifist conference on the other side. Mme Schwimmer, for her part, is defying the malcontents. She claims that the documents which she has are of a confidential nature and refuses to allow them to be read. Mr. Ford now declares that he will not content himself with ending the war in Europe. He is planning to end industrial warfare as well. As yet he has not told what his plans for this accomplishment are.

Message From Capt. Timewell.

The following message was received last night by His Excellency the Governor from Capt. Timewell of the London Record Office:

Your telegrams Dec. 7th, 8th, 10th, 12th: There has been forwarded to Battalion early in October (1) a supply of tobacco, (2) 999 parcels each containing a shirt, socks, mufflers and sundries, (3) in bulk, 1,142 mufflers and 1,182 mittens.

In middle of November (1) 1,000 parcels each containing vest, pants, socks, and sundries, (2) 204 puddings, (3) 172 cases of provisions, also (4) various personal parcels.

Association sending full report by next mail. War Office states that ample supplies of warm clothing are available and should be issued.

Have telegraphed to O.C. Commanding Battalion, but some delay in receipt of reply may be expected. TIMEWELL.

Calls the King a Puppet, Socialist Lands in Jail.

St. John Anarchist During a Speech Utters Treason.

St. John, N.B., Dec. 7.—Wilfrid Gribble, leader among local socialists, was arrested to-night on a warrant which alleges that during the course of a speech on Sunday night in Socialists Hall, Union Street, he said: "The King of England is a puppet." The matter was brought to the attention of the authorities in a letter addressed to Mayor Prink yesterday morning by George H. Worden. At the opening of the session of the common council this afternoon the Mayor said he wanted to make a few remarks. He read the oath of allegiance, laying emphasis on that portion

which obliges one to speak respectfully of the Sovereign. Following, he read Mr. Worden's letter.

Mr. Worden said that he attended the Socialists meeting on Sunday night in the hall. He heard Mr. Gribble admit that he had served three months in a prison in England for making remarks "against recruiting." He stated too, that the speaker said: "The King of England is a puppet."

Purely Personal

As regards habits of living, that, of course, is purely a personal matter with each of us.

But some folks go on for years wondering what causes their nervousness, heart flutter, biliousness, headache and various other ailments.

A frequent, though often unsuspected cause, is tea or coffee drinking. This, because both tea and coffee contain a powerful, habit-forming drug, caffeine, (from 1½ to 3 grains to the average cup) which, taken regularly, finally drifts many into ill health.

Think it over.

Of course, it's your own affair. If you can go on drinking tea or coffee and feel no evil effects, why—bless your heart, keep it up—but there are hundreds of thousands who have quit tea and coffee and now use

POSTUM
—the pure food-drink.

They know from the better health that follows, that freedom from the drug, caffeine, in tea and coffee makes life brighter and happier.

Postum is made of wheat and a bit of wholesome molasses—has a rich, snappy flavour and some genuine nourishment. It contains no caffeine or other harmful element.

Postum comes in two forms. The original Postum Cereal requires boiling; Instant Postum is soluble. A level teaspoonful in a cup of boiling water makes a delicious drink—instantly. Cost per cup is about the same for both kinds.

Personally, the change to Postum is a little thing to do. The benefit is great.
