Entertain Topsail Fold.

Dear Sir,—Kindly allow me space in your valuable paper to give a brief account of the musical entertainment given by the L.O.A. Band, of Topsail on Wednesday, the 11th instant. The doors opened at 7 p.m. and in a very short time the spacious hall was filled to its capacity, and great and many surprises were meted out to the attentive tho' very excited audience. There were several selections from the Band and, although a number of the members of the Band are new to their work, having had only about two weeks' practice, their rendering of the different items would be hard to beat. Mention must also be made of the newly organized S.S. Jazz Band. It was the hit of the evening and was greatly applauded and encored. Professor Shakaleg, who had charge of this body of foreign (?) musicians in introducing his band said that a number of his performers had travelled extensively for their education, and although all were very elderly gentlemen they were by no means less active than the smartest youths of Topsail. This fact was plainly demonstrated by Professor Plank-emp-down who delighted all with a sample of his step-dancing. Professor Cloutem, in a ringing baritone, simply raised the "et that has" in fact, any peo- dered where he did get it, and are still guessing. Professor Chin-waggin' was next in order. This venerable gentleman, we were told, came all the way from Russia, and although only a month in the country (?) has adapted himself well to the language. He showed this in his recitation of "The Slide Trombone." Then an old gentleman from Switzerland (?) delighted all with a Trombone solo. Aff- playing several jazzy airs, this "ed group went on their way re- amid applause and laughter from well pleased audience. Mr. G. Fowler, our local comedian, was there with his latest hit, "The Boarding House." He had the sympathy of the whole audience when he told of the treatment which caused him to grow so thin after only two weeks' boarding with "Mrs. Leech."

The delighted voices of Mrs. W. Hibbs and Miss N. Fowler were heard to great advantage in solos. We also had a visit from an aspirant to the Municipal (?) Council in the person of Mr. A. Allen. There are great changes in store if Mr. Allen is made councillor. Great praise is due Mr. H. Noseworthy who is ever untiring in his efforts and seems to be in his element when fingering some musical instrument, very often instruments of his own invention and design. His Vocal and Classical Solos were very pleasing to the ear, while his instrumental selections could not be outdone. I may say that the concert was a complete success and several requests for its repetition have been made. Thanking you, Mr. Editor, in anticipation of publication. Yours truly, ONE OF THE AUDIENCE. Topsail, Jan. 16, 1922.

MEMBERS OF NEW IRISH CABINET GET CLEAR OF A DANGEROUS CHARACTER.

LONDON, Jan. 13.—The Dublin correspondent of the Morning Post telegraphs the following to his paper: "The shipment to the United States of Daniel Breen, who appears to have been hanging around the Dail Eireann with a hand of thugs, threatening to enter and shoot up the entire assembly if it ratified the treaty suggests that Michael Collins and Richard Mulcahy are alive to the necessities of the case." There has been no previous intimation that Daniel Breen was to be deported from Ireland. A London despatch in October, 1920, identified Breen as commandant of the Third Tipperary Brigade of the Irish Republican Army. The British authorities in Ireland were said to have offered a reward of 1,000 pounds for his capture in connection with the murder of a Major Smyth, and he was also accused of killing two constables and perpetrating a series of other outrages.

The Wail of a Pessimist.

Editor Evening Telegram.
Dear Sir,—Regarding letter of recent date that appeared in your columns, signed "Topsy-turvy," I wish to say that if this little colony had a few more like "Topsy-turvy" the people would not be so downtrodden and oppressed by taxes. The duty placed by the present Government of Newfoundland on goods coming into this colony is outrageous. Duty between Canada and the U.S.A. is only 25 cents on a dollar, here it is over 66 per cent. Since the present Government gained control the duty has been raised to a considerable degree. Instead of Premier Squires taking numerous trips away on a "wild goose chase," trying to make a hero of himself, it would be of better credit to him to remain here and cut down the taxes of this little colony. He must think people here are "too green to burn," when he announces to the press that he held a conference with American Senators on tariff matters. He means that he held a conference with the Private Secretaries of American Senators. Truly Premier Squires overestimated his position and that of this little colony. Why the exports of fish and its products from this colony are "not a drop in the bucket" to America. They can obtain all the fish they want right in their own country and elsewhere than a small place like Newfoundland could export in a hundred years. So the idea that the U.S.A. would suit her tariff laws to Newfoundland desires at the request of Premier Squires is laughable. This colony is too small and its exports too insignificant to have any weight in questions with the great nation of America, and its Premier is not a big enough man to "cut any ice" in America. American Senators have matters of too great importance on hand to give any time to matters that are of no interest or importance to the U.S.A. and will still live in Newfoundland. Premier Squires can, he had better do something for the people who elected him in his own little colony, where the people are oppressed by the duty imposed upon them by his government on foreign goods. Yours truly, NOT TOO GREEN TO BURN. Jan. 16, 1922.

AGE BRINGS WISDOM.
When I was young I plied my tongue with thoughtlessness, wild as a band; I worked by steam, there was no theme I wouldn't take a stand on. I lectured loud to every crowd, I thundered and created; I sprinkled words until the birds were scared, and emigrated. I'd criticise the learned and wise, and roast the useful voter; I yipped and yelled as though propelled by twin six V-type motor. I knew it all; with splendid gull the public I instructed; I thought this land would soon be canned, unless by me conducted. The people groaned, the people honed to end me and my chatter, and, seeing red, they wished my head were served upon a platter. And in my walks, quite often, rocks would spout my Sunday behavior; and maddened skates would leave their gates and chase me with a cleaver. And, wearied hicks defaced with bricks the map that nature gave me, and in a sweat the village yet with liniments would leave me. Youth disappears, and passing years bring wisdom to a critter; I hear the boys kick up their noise, and I send forth no twitter. In peace I sit and gently knit, my time-worn thumbs. I twiddle, and they who prance and yell and dance must pay the guys who fiddle.

Astronomical Mystery.
TAKES SHAPE OF HORSE'S HEAD.
Extraordinary interest was aroused when, in June, a Dutch scientist announced the discovery of an immense and mysterious dark object in the sky in the great nebula of Orion, a constellation which is prominent in the southern sky this month between 9 p.m. and midnight. This discovery verified a prediction made by Sir Richard Gregory last year that the next important discoveries in astronomy would be connected with invisible objects in space, which are more numerous than the stars nightly visible. This particular object will be seen to have the shape of a horse's head. It is said to be about 140,000,000,000 miles in length and is composed of a vast conglomeration of dust. A good binocular will suffice to show it.

TO-DAY'S MESSAGES.

LABOR DEMANDED.
DUBLIN, Jan. 18.
A group of unemployed occupied the hall and rotunda of Dublin Hospital building to-day, and said they would not leave until the city authorities provided other negotiations.
FIND THE CENTRE.
MOSCOW, Jan. 18.
Soviet Minister of War, Trotsky, said to-day that the coming General Economic Conference would be a failure unless United States enters it with a heavy hand and makes possible a finding of the center of the world's political equilibrium.
SKATING RECORDS.
ST. JOHN, N.B., Jan. 18.
In the Canadian national outdoor meet here to-day, Charles Jewraw of Lake Placid, New York, won the 220 yards event in 1:04 seconds, clipping 1/4 of a second from the Canadian record. Roy McWhirter, Chicago, skated one mile in 3:08 1/2 minutes.
ACUTE LABOR SITUATION.
SYDNEY, N.S., Jan. 18.
Approximately 450 miners went on strike at No. 14 Colliery, near Waterford, this morning, because of trouble between drivers and management, similar to that which tied up No. 9 at Glace Bay, and No. 1 at Dominion. Five hundred miners at Glace Bay are still idle, although they voted to return to work last night, pending investigation. Company Headquarters say mine would have been idle to-day, anyway, on account of a lack of orders. Dominion No. 1 is working again.
WILL BE RE-DEFINED.
WASHINGTON, Jan. 18.
The American proposal, to re-define the open door policy in China, and create an International Board to examine both existing and future concessions, which appear to conflict with the open door principle, was adopted in Parliament to-day by the Far-Eastern Committee of the Washington Conference on motion of Sir Robert Borden, Canadian delegate.
PURCHASERS WARNED.
OTTAWA, Jan. 18.
Secretary of State Copp, to-day, issued a notification to investors not to purchase Canadian securities owned in Germany before the ratification of peace, and now being offered for sale in Canada and United States at greatly reduced prices. The view is taken that such transactions are illegal, and contrary to the Peace Treaty. Large volumes of Canadian Pacific Railway Securities are being offered, but purchasers of these securities, says Mr. Copp, acquire no property or title that could be recognized, either by the Canadian Government or Canadian Pacific Railway, and purchasers are throwing money away. It was suggested to Mr. Copp that the Treaty might be changed or otherwise pre-war conditions established, as to these securities, so that purchasers would have something to deal with. "That is purely visionary," said Mr. Copp.

PRINCE HALF WAY.

MADRAS, Jan. 18.
Marking the half way date of his tour, the Prince of Wales to-day started on his long journey through Central India.
MINERS IDLE.
SYDNEY, N.S., Jan. 18.
Owing to unauthorized strikes, growing out of recent wage cuts, 1,580 mines of Cape Breton are idle. Only a small portion are on strike, operations being tied up by the walkout of a small but important class of miners.
TRAGEDIES OF STORM.
VIGO, Spain, Jan. 18.
Twenty deaths are reported as the result of a terrific storm, which broke over this region Tuesday night. Most

of those perished by the capsizing of small boats. The wharves of Vigo were damaged, preventing discharging vessels to-day.
WE HAD IT HERE.
SYDNEY, N.S., Jan. 19.
The worst blizzard of the season was raging over Cape Breton last night.
PONTIFF HAS SEVERE FEVER.
ROME, Jan. 19.
Reports from the bedside of Pope Benedict, who is suffering from an attack of grippe, stated this morning that there was no change in his condition since yesterday. The Pontiff had quite a severe fever yesterday, but so far as is known, grave symptoms have not made their appearance.
N.F. RECEIVED A FEW.
LONDON, Jan. 19.
All records in creating peerages have been broken by the present administration, according to the new issue of Debut, the standard work of reference concerning the British aristocracy. In six years ninety-four Peers, 235 Baronets and 2,018 Knights have been created.
RESUMED FIGHTING.
ATHENS, Jan. 19.
Scattered fighting along the battle-front in Asia Minor was reported in an official statement, relative to operations there, which was issued last night. The front has been very quiet for several weeks.
WILL BE COMMANDEERED.
MEXICO CITY, Jan. 19.
All bake shops in Mexico City will be taken over forcibly by the Bakers' Syndicate on January 26, if the demands which caused the present strike of bakers, here, are not met before that time. An announcement to this effect was issued last night, at the end of the first day of the strike, which left Mexico City short of bread rations.
FOUND THE LIQUID.
NEW YORK, Jan. 19.
When the motor schooner, Bertha A. was run down by the steamer Sheaf Leaf, and was forced to put into quarantine late yesterday, Federal officers claim they found 1,900 packages of assorted liquor, worth \$150,000 in her hold, and evidence that the little craft had been engaged in extensive rum-running operations.
PLAUSIBLE ARGUMENT.
SOFIA, Jan. 19.
Anarchy is feared in Bulgaria, if, in obedience to orders of the Allied

Council of Ambassadors, Count Siska's once proud and formidable army is disbanded. The little state would thus be reduced to such a condition of military unimportance that her frontiers would be endangered and the internal order of the country menaced, it is declared by Constantine Tomoff, Minister of War. The Council's order gave Bulgaria a month in which to comply with their edict to disarm completely. "If Bulgaria should have the misfortune to have internal riots or disorders, arising from lack of bread, or from other causes," said the War Minister, "the country might be plunged into revolution, and there would be no forces to repress order. How are we to repress raids, which are constantly occurring along our boundary," he asked.

Ice Harvesting Begins.
Ice-men are now engaged making their annual harvest. Mr. George Summers has a team of men cutting from Long Pond for Mr. E. J. Horwood. The ice is nearly 12 inches thick and exceptionally clear, there being no slob. The past two days teams with drays were engaged pulling the ice to the storehouses, but after the snowfall of last night catamarans will be used. Mr. Horwood will stow between six and seven hundred tons.

COME AT LAST—Jack Frost has made his appearance at last. Some were ready for him and had Foot Warmers, others were not and had cold feet. Get a Foot Warmer to-day from STEELE'S, and have a restful night.

Shipping Notes.
S.S. Sackem is due from Halifax tomorrow.
The Furness Withy Co. had not received any word of the Digby up to press hour, and it is believed the ship is too far off for communication, and will not likely make port before tomorrow.

S.S. Meigle is sailing to-morrow for North Sydney taking foreign mails.
S.S. Susu reports being storm bound at Bay Roberts.

Side Talks

A WISE WOMAN.
A dear old friend of mine is about to enter an old folk's home. She is to have a pleasant room, she is to go back to the town where she was brought up and where several of her oldest friends still live, she is to be freed from the struggle to make both ends meet by her work, to task which rising prices, hard times, and her own lessening strength made a losing struggle.
And I am thankful to add that she is very happy over it.
Her attitude makes me admire that woman ever more than I always have, and that is saying a good deal.
Not One Atom of False Pride.
She comes from a fine family, I doubt if one of them ever went to an old folks home before, but she has not one atom of false pride.
Taking What Belongs to Her.
She is not accepting charity (of course the home is not wholly supported by what those who enter turn over to it), she is merely taking what is her right—help from others just as she gave help to others.
I heard of a case the other day of a woman who could not get a job in her regular line of work and who, rather than take a housework job, (which she was perfectly able to handle) let her mother go to the almshouse. That's the opposite of this state of mind. That woman had every reason to be ashamed, far more than if she had taken a housework position.
I have always claimed that I should not be ashamed to go to the poorhouse provided that I had not been afraid to do my duty to those who needed my help, had worked hard, and saved

Crime & Criminals

The Jurisprudence of Crime—Medical, Biological, Psychological, Practical, by Charles Mercier, M.D., F.R.C.S.
The most sensible book yet written on this subject. An outspoken, fearless work, which seems to clear away much of the "hot air" that has obscured so long the plain truth about "Crimes and Criminals."
Dr. Mercier stands as the exponent of common sense and recognized science applied to the study of Criminology.
By special arrangement with the publisher we are enabled to offer the 10th edition for only \$1.75, by mail \$1.80.

RECOGNITION.

The care of the teeth is now recognized as a necessity. In fact the large hospitals all over the world examine the patients' teeth and where it is possible put them in good condition before attempting a surgical operation. Experience has shown that the patient has a better chance for recovery with a clean healthy mouth than without it. This ought to convince the most skeptical that care of the teeth is requisite to health.

what I should. Then if some misfortune landed me in the poorhouse I should not blame myself, and hence would not need to be ashamed.

We Can't Always Predict.
I do not say I should like it, and perhaps if it happened I should feel shame, too. Our feelings are not always governed by reason. But I don't think I would have any reason to.
And I don't think anyone who accepts help in time of need ought to feel any sense of shame provided that when they were able they had done all they could to help themselves. In fact, I think there are times when it is very wrong not to accept help and to accept it cheerfully.

"Faddy" Appetites
