The Week's Literature.

"Men of the Movement." This is the title of a very handsome work issued by the Templar of Hamilton, Ont., containing 30 magnificent photogravures of national prohibition leaders, accompanied by fac simile autographs and biographical sketches. The subjects were selected by an election in which 12,000 votes were cast. The book will be highly prized by temperance workers, and commands the admiration of every lover of art. Twenty-five cents to W. Buchanan, Hamilton, will bring anyone a copy free by mail, or five copies

This week's Literary Digest contains many notable articles. It is invaluable to all busy men, who desire to read the best in every department of literature. Funk & Wagnalls Company, publishers, 18 and 20 Astor Place, New York.

The May Arena closes the ninth volume of this magazine, prominent among the progressive and reformative reviews. "The First Step in the Land Question," by Louis First Step in the Land Question," by Louis F. Post, the eminent single-tax leader; "The Philosophy of Mutualism," by Prof. Frank Parsons, of the Boston University Law School; "Emergency Measures for Maintaining Self-Respected Manhood," by the editor of the Arena. The saloon evil is also discussed in a symposium. One of the strongest papers on heredity that has appeared in recent years is found in this issue from the pen of Helen H. Gardner. Rev. M. J. Savage appears in a very thoughtful paper on the "Religion of Lowell's Poems;" a fine portrait of Lowell appears as a frontispiece. Dr. James R. Cocke contributes a striking paper on "The Power of the Mind in the Cure of Diseases." A strong feature of this number is a brief character sketch by Stephen Crane entitled "An Ominous Baby." Stephen Jarvis' series of brilliant papers on "The Ascent of Life" closes with this issue. Boston: Arena Publishing

The articles on "Bible Lands" in current numbers of the Methodist Magazine | Europe before settling down in their home Bible reader. The copiously illustrated labor. article in the May number describes the tour over the historic plains of Esdraelon. "The White City Through a Camera," is continued, fully illustrated with fine photogravures by Mr. W. H. Massey. An article which will be read with great interest is a "Character-Sketch of Lady Henry Somerset," one of the noblest women of modern times, by W. T. Stead, editor of the Review of Reviews. Also a very practical paper on "What Is It To Be a Christian? by Lady Henry Somerset. Among the short papers is one on "How to Provide Work for the Unemployed," by Rev. Dr. Galbraith. Toronto: Wm. Briggs, pub-

Harper's Magazine for May is out, a number especially strong in fiction. "Trilby," of course, is the most important story. The other stories are by R. C. V. Meyers, Grace King, Marion Wilcox, Richard Allen, and L. Clarkson. Miss Anna C. Brackett tells of life in Charleston "befo' de wah;" Mr. W. D. Howelis tells of his first visit to New England-for he isn't a born New Englander; there are poems by Thos. Bailey Aldrich and Charlotte Fiske Bates; a historical sketch by Edgar S. Maclay, and a popularly treated scientific article on the Coming of Spring, by Mr. Harrington of the Weather Bureau.

St. Nicholas, for young folks, which has already given its readers so much good things this year, follows the first chapter of Howard Pyle's new serial story, which began in April, with a serial story by Molly Elliot Seawell, beginning with the May number. It is a tale of the early days of the American navy, and its title is "Deca-tur and Somers." New York: The Century Company.

+++ Mrs. Elizabeth Stuart Phelps Ward has written for the May Forum an article discussing the question, "Is Faith in a Future Life Declining," based largely on the evidence given by the letters she has received about "Gates Ajar," during the twenty years or more since it was pub-

A California story by Bret Harte appears with illustrations in McClure's Magazine for May. Flammarion, the French astronomer, as seen in his Paris home and amidst his daily tasks, is the subject of an article by R. H. Sherard in McClure's Magazine for May. The article is fully illustrated.

The womanly side of Queen Victoria is pictured exceedingly well and appropriately, too, in this the month of her 75th birthday-in an article on "The Womanly Side of Victoria," which Arthur Warren contributes to the May issue of the Ladies' Home Journal. Among the pictures in the article, those showing the Queen at breakfast and in her pony carriage, are in-teresting and new. This is only one of the many original interesting features of this excellent monthly. Philadelphia: Curtis Publishing Company.

Whatever question there may be as to the propriety of using the word "living" in Littell's Living Age, there can be none as to the use of the "age." A work which has entered upon its 201st volume, as be troubled with dyspepsia, which gradu-Littell's did on the 7th of the month, has a ally became more and more distressing. I right which none can dispute to speak with used various domestic remedies and applied the authority of "age." It is a splendid to my family physician, but received no

periodical, too. Boston: Littell & Co. The complete novel in the May number of Lippincott's is "The Autobiography of a Professional Beauty," by Elizabeth Phipps Train, whose hand is light, but firm and sure. Gilbert Parker's serial story, "The Trespasser," reaches its fifteenth chapter, and will be concluded in another number. 'Her Concert," by Dorothy E. Nelson, records a pathetic incident in the life of a reduced gentlewoman, "How I Gained an Income," by "A Bread-Winner," records an experience with a lesson that should be useful to many. Champion Bissell writes of "Fitz James O'Brien and His Time." In "Genius at Home" Anne Hollingsworth Wharton claims that the great have not been more happy in their domestic relations than ordinary people and gives examples. In "Talks with the Trade" certain "Rudiments" of the literary art and business are

There are several contributions to the May Atlantic worthy of more than common note. One of them, "From Blomidon to Smoky," is the first of a series of four articles by the late Frank Bolles. T. C. Mendenhall, in his article, "The Henry," on the newly-chosen term of electrical measurement, gives the American scientist Joseph Henry his rank with the great electricians of the world. Gilbert Parker, the young Anglo-Canadian, whose stories are coming more and more into notice, contributes a tragic tale of the Hudson Bay Company, "Three Commandments in the Vulgar Tongue." Mrs. Deland's serial, "Philip and His Wife," proceeds, in company with attractive papers of literature, art and travel; and the gayety of the number is considerably ennanced by the appearance in the last of Sir Edward Strachey's "Talks at a Country House" of some hitherto unpublished rhymes by the delightful "Edward Lear of the "Nonsense Verses." Houghton, Mifflin & Co., Boston.

Andrew Cook, merchant tailor, who had been ill for some time past, died Monday afternoon at the early age of 37 years. The Oddfellows of Sarnia and Daughters of Rebecca will attend divine service in the Congregational Church next Sabbath,

Since the cold weather set in last fall a great deal of work has been done on Bayview Park. The carriage drive has been completed and there is now a continuous drive of over two miles around and through the park. A building has been erected in which arrangements have been made for supplying hot and cold water for excursionists and picnic parties, and a supply of boats will be on hand as soon as the season opens. On the athletic grounds the horse and bicycle tracks are being fixed up after the winter, and the ball field will soon be demanding attention.

A Total Wreck With Kidney Discase-All the Symptoms of Bright's Disease Present-Dodd's Kidney Pills Make Him Perfectly Well Again.

LEAMINGTON, April 23 .- Sherman Buchanan, a farmer living near here, recently passed through a terrible ordeal. He was attacked by kidney disease, which made him a total wreck. He suffered agonizing pains and his digestive organs were seriously impaired. All the symptoms of Bright's disease were present. After several doctors had treated him ineffectually, Mr. Buchanan used several boxes of Dodd's Kidney Pills and they cured him. Dodd's was the first kidney remedy in pill form ever offered the public. Its wonderful success in curing all forms of kidney disease has led to the introduction of numerous cheap and worthless imitations. Purchasers, for their own safety, should insist on getting Dodd's Kidney Pills. Sold in large boxes; price, 50 cents, or six boxes for \$2 50. To be had of all dealers.

Breach of Promise-\$750 Damages. TORONTO, April 26 .- The breach of promise case at the assizes here was concluded to-day, when the jury awarded Mrs. Annie Bailey, the widow ho was suing Thomas Ware, \$750 dan ges. She asked for \$5,000.

Perfect health is seldom found, for impure blood is so general. Hood's Sarsaparilla really does purify the blood and restore health. When a man is locked up for being full it

benefit. By this time my trouble assumed the form of dropsy. I was unable to use any food whatever except boiled milk and bread; my limbs were swollen to twice their natural size; all hopes of my recovery were given up, and I quite expected death within a few weeks. Northrop & Lyman's VEGETABLE DISCOVERY having been recommended to me, I tried a bottle with but little hope of relief; and now, after using eight bottles, my Dyspepsia and Dropsy are cured. Although now 79 years of age I can enjoy my meals as well as ever, and my general health is good. I am well-known in this section of Canada, having lived here 57 years; and you have liberty to use my name in recommendation of your VEGETABLE DISCOVERY, which has done such wonders in my case.
