SIX-HOURS BATTLE TO RESCUE SEVEN

Gallant Life-Saving Feat Off the Coast of Long Island.

New York, Aug. 18.—Long Island lifesavers, after a six hours' battle, added yesterday another victory against the sea to their long list of remarkable rescues when they brought safely to land the captain and crew—seven souls in all—from the three-masted schooner Arlington of Boston, which went ashore early in the morning in the driving rain and fog off Long Beach on the south shore of Long Island.

The eighth member of the crew, Madden Pierson, a Swede, who had put off from the schooner on a raft, was swept out to sea, but later was driven ashore, exhausted, more than five miles to the south, near Rockaway Beach.

The rescue from the schooner was witnessed by cheering guests of the Nassau Hotel at Long Beach and by hundreds of cottagers. The hotel was indirectly responsible for the vessel's plight, for Capt. Ira Small, having lost his bearings, mistook the glimmering lights in the structure for those of a liner, and thus misled ran aground. The schooner, heavily laden with anthracite, bound from this port to Mayport, Fla., struck a sandbar three hundred yards off shore, while the rain made the dim early morning light more impenetrable. Pounded by a thirty-foot sea, while a terrific easterly gale was blowing, she began to yield immediately.

Boats and life preservers went with the first crash and the tall masts, which bent to the gale, seemed an unsafe shelter to the captain. He and the crew accordingly climbed out on the slender bowsprit, where they were discovered an hour later by the beach patrol.

The lifesavers of the Long Beach and Point lookout stations worked frantically, but in vain, trying to shoot a line to the seven. After six futile attempts, however, they succeeded in getting a surf boat through the breakers to the lee of the wreck. Then, while four of the lifesavers tugged at the oars to keep the surf boat in position, a line was thrown to the men on the bowsprit above and all were swung to safety. The aged Mexican cook of the schooner, unable to climb from his position, had to be pushed overboard after a line had been tied about his body.

Five minutes after the rescue had been accomplished the ship's masts fell with a great crash, one across the bowsprit the sailors had just left. No one was seriously injured.

The Arlington, according to Captain Small, will be a total loss.

CARTWRIGHT AT BANFF.

Ottawa, Aug. 18.—Sir Richard Cartwright has gone to Banff for a few weeks for his health.

HARRIMAN STOCKS HAD A WILD DAY

Wall Street Hears He Has Control of the New York Central.

New York, Aug. 18.—E. H. Harriman's home-coming at this time is awaited with interest in view of the recent reports on Wall street that he had obtained an option on a controlling interest in the New York Central lines which would give him an ocean-to-ocean route, and mean the realization of the plan that he has long cherished.

That this is the reason for his return is but speculation, for no statement has been made to that effect at the Union Pacific offices here or by Mr. Harriman's associates. It was even said at the Union Pacific offices today that no word had been received of his contemplated departure from Cherbourg tomorrow. The coincidence of the financier's return at a time when the New York Central rumor cropped out strongest, however, is interpreted by Wall street gossip to mean that he will exercise the option upon his arrival here, covering about $50,000,000 worth of stock formerly controlled for the most part by the Vanderbilt interests.

Because of the conflicting reports concerning Mr. Harriman today—reports that he would start for home this week, reports that he would not, and reports on his health—the so-called Harriman stocks fluctuated wildly, and the market generally was unsettled. Union Pacific broke from 215⅜ to 210¾, but late in the afternoon, when the report of his home-coming was confirmed, Union Pacific rallied, and there was a general recovery in sympathy.

New York Central remained steady throughout.

Paris, Aug. 17.—E. H. Harriman arrived here today by automobile and proceeded immediately to the home of James Stillman. According to his friends the health of Mr. Harriman has been greatly improved during his sojourn in Europe. Arrangements have been made for Mr. Harriman to sail from Cherbourg tomorrow on the North German Lloyd steamship Kaiser Wilhelm II.

WEST WANTS HELP.

Winnipeg, Aug. 18.—The west is seriously worried over the labor situation as there is a general impression that the harvest hands this year will not be nearly up to the demand. The first excursion load has been eagerly snatched up and there is a cry from all parts of the west for more help.

The harvest has come on with a rush, and is about ten days earlier than was expected. Saskatchewan is particularly crying for men. At points on the Arcola line farmers are offering as much as $3 a day and board, without obtaining the required help.

The great heat of the last ten days has brought harvesting on with a rush with the result that cutting has started at scores of places in Southern Saskatchewan at least a week earlier than was anticipated, so that no labor is available.

LOST BOTH LEGS.

Port Colborne, Aug. 18.—An Italian, working at the cement works here, fell off a moveable derrick yesterday morning, and had both legs cut off above the knees. He was removed at once to the Welland Hospital.

INGERSOLL ENDS BIG CELEBRATION

London Horses Win in Speeding Races—Results of the Marathon.

Ingersoll, Aug. 17. — At the Old Boys' reunion the ten-mile Marathon, open, under sanction of the C. A. A. U., was the big sports feature of this morning's programme. The race was run from Richardson's corner, Thames street, to Putnam, and return, a measured course of ten miles. Some of the best Marathoners of Ontario were enrolled and the contest proved a close one.

R. Phinn, of Hamilton, finished first, in 56 minutes 37 2-5 seconds, which is exceptionally fast time over a wet, muddy course, such as the one this morning, after yesterday's freshet. Phinn finished fresh and with a fairly substantial margin. Claude Pearce, of Toronto, was a good second; John Pepper, of Stratford, was third; Norman McDougall, of Porter's Hill, fourth; G. S. Keane, of Woodstock, fifth; Sam Wade, Ingersoll, seventh; Peter Isaac, of Woodstock, came eighth.

G. S. Keane, of Woodstock, gets the special prize awarded to the first Oxford County man to finish.

Sam Wade lands the special for the first local runner to finish. Isaac, the fast Indian runners from Woodstock, ran a dead heat with Ferguson, of Toronto, for seventh place, up to fifty yards of the goal, when the Toronto man pulled ahead.

A prospect of clear weather being bulletined by the weather man this morning, the round of celebration was again put in motion at an early hour today.

The several visiting bands enlivened things before 9 o'clock. Shortly after that hour the Oxford Old Boys, with the Detroit band, assembled in the auditorium of the town hall, where a business and social hour was indulged in by all present. A godly representation of the Oxford Old Boys was in attendance. At 9 o'clock the five-mile boys' Marathon was run from Thames street in front of the Catholic Church. The run was two and a half miles west and return. The race was fast throughout. Five lads started and four finished, practically together up to the last hundred yards or so, when C. Trench broke away and finished with a fine burst of speed. His time was 28:44 minutes, which is exceptionally good when one considers the heavy going.

The finish was made as follows: 1 C. Trench, 2 E. Jones, 3 J. Loughrey, 4 D. McGregor, 5 K. Wright.

Each runner gets a prize.

The feature of teh afternoon's sports was the horse races, for two purses of $200 each. In the 2:34 pace or 2:30 trot, Dan Patchen, owned by Dr. Grey, of St. Thomas, took first money, winning the three heats.

Wilhelmina, owned by J. Horne, of London, landed first money in the 2:20 pace or 2:16 trot, winning out in the three events.

Dr. H., owned by Robert Reid, of Ingersoll, was entered in the 2:20 pace and took the lead in the third event, but before a half mile was run he dropped into second, finishing in fifth place. Dr. H., however, came in second in the first two events and won second money for the three events.

The results of the races were as follows:

2:35 pace, 2:30 trot; purse $200:

Dan Patchen, Dr. Grey, St. Thomas	1	1	1
Dr. Mc., Dr. McLaughlin, Belmont	2	2	2
Geordie C., George Campbell London	3	3	3
Molly A., W. Booth, Courtland	5	4	4
Wm. J., Jas. Beattie, Welland	4	5	5

Time—2:34¼, 2:35, 2:34¼.

2:20 pace, 2:16 trot; purse $200:

Wilhelmina, T. Horne, London	1	1	1
Dr. H., R. H. Reid, London	2	2	5
Edward the King, W. A. Davis, Yarmouth Centre	3	2	2
Flora Mae, T. A. Campbell, Ridgetown	4	5	3
Sandy Points, James Baker	5	4	4

Time—2:22½, 2:25, 2:26.

The races concluded the third afternoon's programme of sports, and on account of the rain that set in for all night by all appearances, the race concluded Ingersoll's old home week celebration, which was, in every way a decided success.

WAGING A WAR OVER A PEACE

Queer Situation in Nova Scotia Where Strike Settlement Is Asserted and Denied.

Glace Bay, N. S., Aug. 18.—In the absence of stirring events within the strike scene, a heated controversy is being waged on the question of settlement. The newspapers friendly to the Dominion Coal Company and P. W. A. are vigorously attacking the reports that a preliminary conference has been held looking towards the settlement, while the papers friendly to the U. M. W. are just as vigorously emphasizing the significance of the conference held in Sydney on Friday last. The reported interview with President James Ross, in which he states that the company will never recognize the U. M. W. is used as a reason for the efforts of settlement.

The attitude of these papers is being condemned by the Coal Company's officials, who wish to see a better feeling between the strikers and the company. They fear that the statements published in these papers will only develop a feeling of resentment among the strike leaders, and that an honorable compromise will be an impossibility. Appeals are being made to religious prejudice, and reports in papers taking an impartial stand are being distorted to arouse this prejudice to the detriment of the strikers. Anything in the form of news that would help the strikers is being purposely omitted from these papers, and strike headquarters are never visited to obtain the strike leaders' views of the situation.

POPE PIUS WELL.

Rome, Aug. 17.—All rumors as to the illness of the Pope are groundless. His holiness is enjoying perfect health.

NOT ENOUGH COTTON FOR WORLD'S SPINNERS

Terrific Heat Greatly Reduced Crops and Prices Will Rise.

Ottawa, Aug. 18.—That the world is on the eve of an era of dear cotton is the word brought to Ottawa by Mr. R. W. Withycomb, cotton broker of New York, who is passing through Ottawa on his way to the west. In the course of an interview he said:

"During the past month I have been extensively over the cotton belt and from my personal observations and interviews which I have had with reliable people of wide experience, I would say that at the present time the cotton crop is bordering closely on disastrous failure. That is to say, the production of cotton this year will not come anywhere near what will be required by the spinners of the world. The effect of the heat has been simply withering, and if we get 11,500,000 to 12,000,000 bales this year we will be doing well. The consumption this year should be 12,500,000 or 13,000,000 bales, and with only about 1,500,000 carried over on Sept. 1, you can figure out for yourself what this means.

"What is more, the spinner need not expect a well-matured staple.

"In my opinion, the mills that are waiting for the movement of the new crop to bring about materially lower prices are going to be sadly mistaken this year. New warehouses have been erected all over the south during the past few months, and the banks are full of cheap money. The farmers are better off financially, and better organized than ever before, and you will find that the chalk-marks on the blackboards of the New York and Liverpool cotton exchanges, instead of governing prices as formerly, will be governed by what the farmer demands. The cotton planter of the south is gradually awakening to the fact that he has the practical monopoly of the raw material of the world, and objects to being dictated to by New York and Liverpool. He is just beginning to realize his own power.

"In my opinion the spinners would do well to cover themselves materially on every material decline, and the thrifty housewife will now take advantage of present prices, for they will certainly be much higher next year."

HATPINS LIKE SWORDS

Paris Police Begin War on Murderous Ornaments.

Paris, Aug. 18. — Official war has begun against the murderous hatpins worn by women. With the advent of the big hat it has become fashionable for a woman to go about the streets with her head bristling on all sides with hatpin weapons of many designs.

Sometimes the pins are nearly a foot and a half long, and are like thin-bladed swords. As a result there have been numerous accidents. In the crowds about the railway stations and in the shops hundreds of persons have been wounded by hatpins, some seriously.

A few days ago a civil engineer riding in an omnibus lost an eye as the result of a woman's sudden toss of her head. Last week a salesgirl in a department store was dangerously wounded during a bargain rush. A babe in arms, killed accidentally with one of these murderous ornaments, is the latest victim.

The Paris press has begun to make war on the dangerous pins, with the result that the police have taken up the matter and are considering a measure to regulate the lngth.

Since June 1 the police have recorded more than 50 accidents due to the pins.

PRACTICE FLIGHTS

Entrants for the Rheims Contest Are Preparing.

Rheims, France, Aug. 18.—Leaning heavily on a cane and suffering from a bruise on his right leg, sustained when his aeroplane fell during a practice spin yesterday, Glenn H. Curtiss, the American aviator, today superintended the repairs to his damaged machine and had the satisfaction of seeing it entirely restored and ready for flight. Mr. Curtiss is eager to start immediately with the trials, in preparation for the races, which begin next Sunday.

The eagerness of Mr. Curtiss to resume his tuning up trips was all the greater when he saw a number of the French entrants for the aviation week races perfecting themselves in practice flights. M. Tissandier flew for three minutes and was followed immediately by M. Leyfleur, also, in a Wright biplane, who rose in the air without the use of a derrick and spun around the field for twelve minutes.

A small army of workmen was busy repairing the damage done by the storm of last night, and the wrecked aeroplane and balloon sheds were completely restored. The storm was responsible for slight injuries to about two hundred workmen.

NEW TEXT BOOKS

A Revised Edition of High School Books Is Planned.

Toronto, Aug. 18.—The department of education has arranged for five new or revised editions of high school text books, which will be issued in time for the opening of the schools, and a second writing books for the public schools.

The new books are:

For public schools—Ontario writing course, 5 cents.

For high schools—Ontario school bookkeeping, new, price reduced from 60 to 30 cents.

High school German grammar, new edition, $1 to 70 cents.

High school arithmetic, new edition, from 60 cents to 40 cents.

Ontario high school chemistry, new book, from 50 cents to 40 cents.

Ontario high school labratory manual in chemistry, new, 20 cents.

In every case improvement has been secured, and with it a reduction in price over the old books.

Contracts for these books have already been signed, and the work of publishing is being proceeded with rapidly.

Of the high school books the chemistry of Professor A. P. Knight that sold for 50 cents will be replaced by a book published by the MacMillan Company, and the price will be cut to 40 cents. A new book in chemistry, a manual, will be issued by the same firm to sell at 20 cents, and this has been authorized as well.

A new style of book for the public schools will be the Ontario writing course. This will be a book filled with exercises and will have no blank pages for copying as the other writing books. The new one is intended for the teachers to lend to the pupils to give additional exercises to those contained in the head lines to each page of the copy books, and thus allow greater choice and freedom of movement. These books will contain 48 pages of four lines each, thus giving eight times the exercises of the copy books which contain 24 pages of one line to a page. The price will be five cents.

WEDNESDAY PROBS: FINE AND COOL.

SMALLMAN & INGRAM LIMITED

DUNDAS AND RICHMOND STREETS.

Odd Lots---Lace Curtains

This is a gathering together of broken lines. Some three, some two and some only single pairs. Others are sample Curtains, and slightly soiled from showing. MAIN FLOOR—WEST AISLE.

STORE CLOSES AT FIVE O'CLOCK.

FORT WILLIAM RIOTERS

Seven of the Eight Prisoners Committed to Stand Trial.

Fort William, Aug. 18. — The first bunch of men to come up for trial in connection with the riot of Thursday last appeared yesterday before Magistrate Palling for preliminary hearing. Out of eight prisoners, seven were committed to stand trial for participating in the riots, and the case against the others was held over, as a witness wanted was not present.

Mayor Pellettier, Chief of Police Dodds and his force, and in a lesser degree the military officers, were made the subject of some severe criticisms at a meeting of the Trades and Labor Council, held to consider the situation resulting from the strike of dock laborers at Fort William. The police were freely accused of bullying the strikers most unnecessarily, of interfering unlawfully at a peaceful meeting of men held to consider the situation, at which every man was compelled to submit to a search, as if a criminal of the worst sort, and from which five were taken under arrest.

Fred Ury, leading labor man of the district, said that Mayor Pellettier induced the men to return to work by causing them to believe that they would get the wages they demanded, until an award was made by the board of conciliation.

Resolutions were passed strongly objecting to the use of the militia in disputes between companies and men, and calling upon the department of labor to investigate the conditions at the coal docks, despite the fact that the men had returned to work.

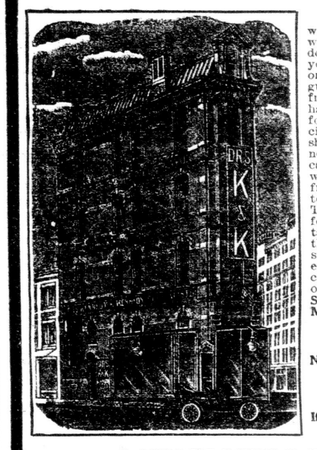
POINTERS FROM MACDONALD.

Montreal, Aug. 18.—The Ontario Government is looking to Macdonald College at St. Anne de Bellevue for suggestions along the lines of agricultural education. It has sent its chief architect, Mr. F. R. Heakes, down to inspect the buildings at Macdonald College and to report with a view to improvements at Guelph. This is distinctly a feather in Macdonall's cap, as Guelph has in its turn been a pioneer in many lies of agricultural education and has sent graduates all over America to teach other communities how to make the most of their agricultural resources. Mr. Heakes' special mission is to study the chemical laboratories at Macdonald, which are regarded as the best-equipped in Canada, if not on the continent.

MEN-WE CAN CURE YOU

FINEST MEDICAL INSTITUTE IN AMERICA

OWNED AND OCCUPIED BY DRS. K. & K.



YOUNG OR MIDDLE-AGED MEN who need the services of expert specialists why waste your money in treating with doctors you know nothing of, why waste your money with worthless electric belts or drug store nostrums, when you can get guaranteed, reliable, successful treatment from these Master Specialists. Drs. K. & K. have treated patients throughout Canada for over 20 years and are responsible financially. They accept only curable cases and should your case prove incurable it need not cost you a cent. If you are unable to call at our office for a personal examination we will send a Question List for you to fill up from which we can diagnose your case and tell you whether you are curable or not. Then we will prescribe specific remedies for your individual case which you can take at home. We have no cure-all remedy that we send to everybody alike as most specialists do, but we prescribe the remedies required for each individual case to complete a cure. That's one of the secrets of our wonderful success when others fail. Send for our Free Booklet on Diseases of Men (Illustrated.)

CURES GUARANTEED OR NO PAY

We Guarantee to Cure

Nervous Debility, Blood Diseases, Varicose Veins, Kidney, Bladder and Urinary Diseases

CONSULTATION FREE

INJUNCTION SUSTAINED

Montreal Reformers Win a Point Against the Grafters.

Montreal, Aug. 18. — Judge Guerin yesterday afternoon rendered judgment in the superior court, maintaining the injunction asked for to restrain the execution of contracts recently awarded by the city council for over a million dollars' worth of city paving.

The contract was awarded to the highest tenderer in spite of the fact that the guarantee was no better than that of others.

The contracts were not put through without a bitter fight in the council. Immediately after an injunction restraining the execution of the contracts was taken out by the citizens' committee.

POTTERSBURG WILL HAVE NEAT SURPLUS

Civic Holiday Committee Report That All Is Well.

A meeting of the Pottersburg Civic Holiday demonstration committee was held in Mr. John McClurg's office. After all outstanding accounts were paid the committee will have a nice little balance to carry over for next year's demonstration, which will be held on next year's Civic Holiday.

The committee beg to thank the following friends who helped to make their first endeavor such a success: Mr. David Girvin, for the use of his beautiful grounds; R. Tremain, W. J. Barnes, Carling Brewing Company, John Labatt, Joseph Hamilton, Coates, Burns & Wanless, London Shoe Company, R. C. Struthers, A. M. Smith, C. H. Ward, W. J. Wray, Smith, Son & Clarke, B. C. McCann, A. Morphy, W. Lashbrook, J. Tune & Son, R. J. Young, Elliott & Marr, Chas. Hunt, E. Rechnitzer, Walter Thomson & Son, T. McCormick & Co., D. S. Perrin & Co., Graham Bros., John Mills, Ed. Gufflemont, Charles Sumner, S. Stevely, Hobbs Hardware Company, Thomas Rowe, W. T. Strong, M. Larsen, St Johns and many other kind friends.

THOS. H. LASHBROOK, President.
JOHN McCLURG, Secretary-Treasurer.

WHITNEY ON SOUTH AFRICA.

Toronto, Aug. 18. — Sir James Whitney made the following statement when asked his opinion of the significance of the South African constitution bill, which was given its second reading in the British House of Commons last evening:

"I think it is a remarkable occurrence from every point of view.

"I think it will have momentous consequences with reference to the future of the British Empire and the British peoples.

"I have every confidence that the result of the establishment of responsible government in South Africa will be great good to the people materially affected, and I look upon it as another evidence of the capacity of the British people for self-government."

KICK SMASHED HEAD.

Chatham, Aug. 18.—Harold Pedge, aged 19, an English immigrant employed on Archie McDermid's farm, was kicked on the head while hitching up a horse, the blow smashing his skull so that he died soon after.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c. at all dealers or EDMANSON, BATES & Co., Toronto.

DR. CHASE'S OINTMENT.
