A plant is now in operation on Long Island for the purification of polluted oysters. That is to say, oysters taken from the waters of a questionable location are so treated so that they purify themselves.

Cronyn Memorial Church
Scene of Pretty Wedding

Miss Lorna Dean, Daughter of Col. and Mrs. E. C. Dean,
Marries James R. Curry of St. John, N. B.

Cronyn Memorial Church was the scene of a charming wedding this afternoon when Lorna, daughter of Col. E. C. Dean and Mrs. Dean, was married to James R. Curry of St. John, N. B., son of Dr. and Mrs. M. A. Curry of Halifax. Rev. Quintin Warner performed the ceremony.

The church was decorated with white chrysanthemums, palms and ferns, with clusters of mums marking the guest pews. Promptly at 3 o'clock the pretty young bride entered the church with her father, who gave her in marriage. She wore an exquisite gown of ivory brocade satin, with long side panels caught at the girle with orange blossoms. The court train of silver cloth, lined with pink, fell from the shoulders. Here it was held with pearl ornaments. Her veil of tulle was becomingly arranged with orange blossoms, and she carried a shower bouquet of Sweetheart roses. Silver shoes completed her cost.

Miss Helen Holmes of Toronto, a cousin of the groom, acted as bridesmaid, and wore a graceful frock of turquoise blue georgette, with touches of silver, and a wide-brimmed hat of the same shade, faced with silver. She wore silver shoes and carried an arm bouquet of pink roses. Mr. Herbert Dean, brother of the bride, was best man, and Mr. Tom Murphy acted as usher. The wedding music was played by Mr. Clarence Gilmore.

A reception at the home of the bride's parents, on Wellington street north, followed the ceremony. The rooms were arranged with white mums, ferns and palms, and a buffet supper was served from a table adorned with white roses.

Mrs. Dean, who received with the bride and groom, wore a gown of black crepe with touches of red, and a corsage of Richmond roses. Her hat was of gray, and she wore gray shoes. Dr. and Mrs. Curry of Halifax also received with Col. and Mrs. Dean. Mrs. Curry wore a gray georgette gown with Egyptian brocade trimmings, and a smart black hat with gold hat.

Mr. and Mrs. Curry left early in the evening on a honeymoon which will be spent in the United States, before going on to their home in St. John. The bride traveled in a dark brown velvet suit, with a sable fur, and brown shoes and a becoming brown and gold hat.

Among the guests from out of town were: Dr. and Mrs. M. A. Curry, of St. John, N. B.; Mrs. H. R. Puddington, of St. John; Miss Lora Reynier, of Boston; Mr. and Mrs. H. A. Holmes, Toronto; Miss Florence Puddington, Toronto; Mrs. John H. Thomson, Toronto; Jack Nash, Toronto; Miss Winifred Tobin, Toronto; Miss Marjorie Tobin, Woodstock, and Mrs. A. P. Lomas, Montreal.

WHEN A NEW TRIBE IS DISCOVERED.

Occasionally a new tribe is discovered that has lived for ages untouched by the diseases of civilized races, which destroy them as soon as they take on civilized habits. Why does an ancient race perish from tuberculosis, cancer, kidney, and other diseases, under the influence of civilization? The answer is the white man's food, robbed of its growth and repair substances, destroys the "protective" elements of the blood, lessening resistance to disease.

One serious defect of civilization is the failure to think about our foods. If we did, we would know that if we refine out of our most important food stuffs the grains, their "protective substances," decay, disease, and premature deaths must follow. Yet we do that in making white flour, refined cereals, polished rice, white sugar, etc.

Our blood must be alkaline or we perish. Foods must keep it alkaline, yet it is their alkalis we remove when we refine out of the grains the brown flour, "which makes acid blood." Acid blood lowers resistance, strains vital organs, and permits disease germs to destroy the body.

Roman Meal is the only alkaline cereal which corrects the acids of "Excess Acid," which makes acid blood. It restores the alkaline growth and repair elements in making flour white, and gives in favor everything you buy from a grocer.
