FALL WHEAT DAMAGED

Continued Thawing and Freezing Hurtful to Crops

From Our Own Correspondent.
SPARTA, April 30.—The higher temperature and this week's showers have brightened the appearance of the landscape. The dead, sodden look will soon have passed away. The woods are already bright with flowers and the throbbing of the new life of the springtime is everywhere apparent. Fall wheat and clover have been seriously damaged by the long continued thawing and freezing. The past season has been remarkable for the encroachments of the waters of the streams and lake at unaccustomed places. The Catfish has cut the roadway so badly at Rush Creek that the municipal authorities are considering the advisability of extending the road straight south from the Jamestown hilltop to the lake road.

Rev. S. R. MacVitty preached at Aylmer Sunday morning. Rev. Mr. Gundy, of Orwell, occupied the pulpit at the Methodist church Sunday evening.

Mrs. E. N. Yarwood has arrived home from Detroit, where she has been visiting relatives.

Miss Emma Glon visited relatives at St. Thomas and Yarmouth Centre last week.

WALLACEBURG

A real estate deal was consummated yesterday when the Hotel Empire passed into the hands of Mr. W. Holman, of London, who has purchased the property from Mr. P. W. Glaab, the late proprietor, who will continue to reside in Wallaceburg.

Capt. Somers represented Knox Church congregation at the meeting of the Chatham Presbytery being held in Chatham today. Messrs. Dr. Campbell and J. R. Murphy were appointed to the meeting of the Sarnia Presbytery with reference to the call extended to Rev. J. A. Stewart, of Oil Springs, who is a member of the Sarnia Presbytery, and who has received a unanimous call to Knox Church.

The lady Macabees held a needle social in their hall Tuesday evening, April 30, which was well attended.

Mrs. (Capt.) A. J. O'Flynn has returned to Wallaceburg, her husband having taken command of the steamer Amazon.

Mr. and Mrs. Geo. Sherron and family, of Rossland, B. C., have returned to town to visit Mr. Sherron's father, who is critically ill.

Chas. Nightingale has purchased the Allen, Nightingale, of the corner of Elizabeth and William streets.

The young ladies of Wallaceburg give an informal dance in Stonehouse's auditorium to-morrow evening.

Mr. D. T. Hepburn, of the Dominion Park, Wingham, was in town over Sunday.

Mr. Wm. Acheson, of Goderich, is at present visiting his daughter, Mrs. J. C. Greig.

Spring has brought its usual quota of contagious diseases. Mumps is somewhat rampant in the present season, and a few cases of measles are also reported.

Mr. S. G. Holly, of New Hamburg, district deputy grand master for South Huron district, will pay his official visit to Britannia Masonic Lodge at their regular meeting next Monday night. The local brethren are sparing no effort to make his visit a most enjoyable one, and expect a large representation from outside lodges.

FINE FEELING OF VICTOR.

ROME, April 30.—King Edward, while passing outside of Rome on his way to London to-day, was met by King Victor Emmanuel at a country station. Their majesties remained in conversation for about 15 minutes. The courteous action of the Italian King in leaving Rome to say good-bye to the British ruler is considered the further evidence of the cordial feelings existing between the two kings and as a desire to emphasize the good relations between those two countries.

NOW HE HAS TWO WIVES.

GRAND RAPIDS, Mich., April 30.—Through an order by Judge Perkins setting aside a divorce granted Adin E. Gage, of this city, from Flora E. Gage, of Jackson, Gage becomes possessor of two wives, having been married to Grace Mohr, of Grand Lake, yesterday. The divorce was set aside because a copy of the bill of complaint had not been served on the defendant.

TO MAKE WHOLESALE ARRESTS.

WARSAW, Russian Poland, April 30.—The employees of the street railroads, the printers and bakers and factory employees have decided to stop work on May Day and the authorities are taking energetic steps to forestall expected disorders. The police are making wholesale arrests of socialists, and detachments of Cossacks will patrol the streets day and night until there is no further danger of trouble.

CANADIAN RIVER RECEDES.

OKLAHOMA CITY, Okla., April 30.—The North Canadian River and Lightning Creek are receding rapidly, and the flood situation in this vicinity was greatly improved to-day. But one person remains unaccounted for, forty families on Capitol Hill, across from Oklahoma City, are homeless. The loss is estimated at \$100,000.

MINERS' STRIKE IN JAPAN.

TOKIO, April 30.—Serious disorders have broken out at the coal mines near Horanai, in the Hokkaido province, where 2,000 miners have struck work. The strikers burned the office buildings and a large number of residences. Sharp collisions occurred between the strikers and police, and numbers on both sides were injured.

EATING ROTTEN FOOD.

ST. PETERSBURG, April 30.—Reports from the famine provinces show that sickness is spreading rapidly, and that the mortality among the children is heavy. In Kazan and Ufa the sufferers are eating food unfit for consumption.

ADOPT RECRUITING BILL.

ST. PETERSBURG, April 30.—The lower house of parliament to-day adopted the government's recruiting bill by 192 to 129 votes.

Have you ever seen the Hiplintman & Co. Ionic Design Piano? It is conceded to be the most artistic and classical piano made in Canada, and best value in pianos ever offered. Please call and examine same in our warehouses, 217 Dundas, corner Clarence.

OXFORD MASONS AT A MERRY FESTIVAL

Notable Gathering of Brethren at Woodstock—Charter Members of Oxford Lodge

From Our Own Correspondent.
WOODSTOCK, April 30.—Oxford Lodge, No. 78, A. F. & M., celebrated its semi-centennial last night by a big banquet, following the working of the first degree by the past district deputy grand masters of the district. The gathering was a notable one, including as it did members of the craft from various places in Wilson district, together with a number of Grand Lodge officers. Woodstock is an important Masonic centre, there being about 300 members of the two lodges, King Solomon and Oxford Lodge. Most of the members turned out to tonight's gathering, and these, together with many visitors present, made a fore-gathering of craftsmen which has not before been equalled in the city. Oxford Lodge received its birth in a small lodge started in West Oxford back in the forties. King Solomon Lodge obtained its charter from this small body, and a few years after, in 1857, Oxford Lodge received its charter. As was pointed out by the worshipful master, H. Sykes, at the banquet last night all of the charter members of the lodge are dead.

A feature of the proceedings was the presence of Oxford's oldest past master, Mr. H. P. Brown, ex-county treasurer, who is an enthusiastic Mason at 55 years of age. The charter members of the lodge were George W. Whitehead, Ralph A. Woodcock, Joseph A. Hamilton, Chas. H. Whitehead, John Greig, Jordan Charles, John Turquand, John Andrews, and others. Among the visiting Grand Lodge officers present were: R. W. Bro. A. T. Freed, D. G. M.; Mr. W. Bro. E. T. Malone, K. C., grand treasurer; Mr. Bro. Hugh Murray, grand secretary; R. W. Bro. J. W. Dutton, D. D. G. M.; and Bro. Aubrey White, of the crown lands department.

Woodstock lost an estimable young man in the person of Mr. Warren Long, aged 31 years. Deceased was at one time one of Woodstock's most popular singers, he having occupied several positions in several of the choirs in the city. He had been living in Detroit of late years, where he was local manager for the American Radiator Co. Death was the result of a growth on the brain. He leaves a wife and one child.

The Canada Furniture Manufacturers, Limited, have let the contract for the construction of a new building in connection with their plant to cost \$30,000. Work will be commenced about the middle of May.

MOVES SLOWLY

Continued from Page One.

matter, that they have come on a "fool's errand."

Irritation is also aroused over the matter of the two sections into which the conference has fallen. One section, as a writer here graphically puts it, "ready and willing to trust to the floodtide of the imperialistic ideal, the other 'like the cat' I the adage, letting I dare not, wait upon I would."

The formation of a colonial council as a permanent body, independent of English party politics, those mentors of successive and ever-changing secretaries of state for the colonies, was one of the suggestions, put out of joint the nose of the colonial office. Hence the colonial office wants to sit down and think before committing itself to the recommendation that this, the fourth colonial conference, the fourth advisory meeting of the great firm of "John Bull & Co.," shall call such a body into existence.

Again, the fact that Canada and Newfoundland have so far sent forward no subjects for discussion, while New Zealand, Cape Colony and Australia have sent forward already many proposals, make it plain to the minds of some that what is called here the moving forward of the colonial conference into a definite and recognized place in the scheme of empire, is earnestly desired by those members of the conference who have submitted propositions, and not looked upon as essential by those sections who have not submitted propositions.

It is noted here as being a striking commentary on the two sections of the conference that the section which wants to "sit down and think" is also the section which objected to the public having a presentation through the press, while on the other hand the section that wishes to move forward, wishes to do so in the full light of public opinion. It is even hinted that the one policy is the outcome of the other. And the inference is taken that the one party feels itself in opposition to public opinion, while the other is sure that the tide of public opinion is with it. That the virile section is proud of its virility, while the inert section is not so much ashamed of its inertia as it is ashamed that its inertia should be found out.

Newspaper comment goes even further. It accuses the hangers-back along the lines of the imperial ideal of having, when they spoke in public, when they voted those savage and "silver tongued" utterances of the Guildhall banquet, those courtesy speeches of the ceremony of the inaugural, committed themselves very much more than they are prepared to make good in the seclusion and privacy of Downing Street, into whose grave and official precincts no newspaper scribe may penetrate. These commentators claim that if the public could get to the bedrock of the inertia which has so far manifested itself in the conference it "would be found that the strength of the resistance to advancing lies in a craven party spirit, and this, too, amongst those who protest, loudly, that the conference is being made the sport of parties." Claim that such an examination would reveal the fact that those "resisting advance" are not afraid that by advancing they are going beyond the desires of their peoples, but are afraid that they are going beyond the desires of the governing party." Claim that it would, in event of proper investigation, be made manifest that the registers of advancement "could trust the spirit of their peoples, but they are afraid to face the resent-

LARDER LAKE

THE GOLDEN NORTH

GOLDEN OPPORTUNITY

The cry is now, "On to Larder Lake!"

A great stampede has set in!

Thousands are on the way! They are now beating the northern trails!

What will undoubtedly prove to be the greatest stampede that has ever been known into a new gold country is now on!

The Larder Lake district is believed to be the richest gold country ever known, and it is just now being opened up. Soon will commence the most tremendous outpouring of gold known to civilization since the days that King Solomon's mines paved the floors and walled his temple with that precious metal!

People of Toronto, People of Ontario, People of Canada—do you realize the great mineral wealth and riches that are now being opened up in Northern Ontario right before our very eyes? Do you understand that you have the richest and most wonderful gold and silver camps, rapidly developing, and that the values are increasing tremendously from day to day?

Do you realize that investments of a hundred or a thousand will grow rapidly into hundreds and thousands and millions of dollars? The over-conservative and skeptical will smile—they will laugh at these predictions, some will even consider this a joke—but remember COBALT, if you please, two or three years ago! Then it was a "vision," it was a "dream," "a flash of the pan," a "bubble," somebody was "crazy," but now it is different. Those crazy men are now classed among the smartest and keenest business men of the day. The actual value of a few mines are worth at the present date more than one hundred millions of dollars. These are facts.

Larder Lake is the opportunity of a lifetime!

Are you going to let this golden opportunity pass?

Are you going to get in now, in time, at Larder Lake?

You can now get in at ground-floor prices on inside properties, make big profits and lots of money. Or will you wait three or four months or a year, and then fall all over yourself in an irresistible desire to get in anywhere or at any price?

Don't wait! Be wise! Act NOW! NOW IS THE TIME! Here is an opportunity that excels that which you had two or three years ago at Cobalt. Perhaps you will say, as you did then: "How do we know they have got any silver up there?" Perhaps you say now: "How do you know there is any gold at Larder Lake?"

We say to you: Do not be so skeptical that you lose faith and confidence in all mankind.

Do you imagine for a moment that men will endure the blast, the snows and frosts of the Northern winters for fun or pleasure?

Do you think there is any fun in living, cooking and sleeping day after day, night after night, weeks and months, upon the ice and snows of the frozen North?

Do you think there is any great pleasure in a man trudging along unbroken trails with a pack of 30 to 50 pounds on his back when the air is clear, full of frost, and so cold and still that the creaking of every step upon the snow can be heard for a mile away?

All the last winter men at Larder Lake have had to go to the railway station, some 12 to 15 miles away, to obtain the necessities of life. They would shoulder a pack weighing from 30 to 50 pounds and carry it back to their tent on their snow-covered gold claims.

We ask again, Can there be any pleasure in this? Is there pleasure or fun in frozen faces, frozen hands or frozen feet? If you think there is, you are certainly entitled to another think.

No, no! The thousands of strong men who braved the north winds last winter around Larder Lake, who lived in their little tents upon the claims they staked, and watched and guarded as they would their lives, knew full well the treasures they were guarding! This endurance was not for pleasure, but for gold, Gold, GOLD!

Many a tired sleeper in those cold tent houses had bright and happy dreams of the future—days of happiness and plenty that were sure to come to their wives and children, sweethearts, fathers and mothers, sisters and brothers all from the gold he had found! The gold he was guarding. Gold—pure, virgin gold! Gold that had never been bartered or used as exchange—gold that had never bought man's honor or woman's virtue. UNTAINTED GOLD.

The hardships that have been endured by the prospectors of the Larder Lake district should impress the most skeptical that there must be something there worth while.

We were loath to believe at first. But we have gone further. We have had our own mining engineer making examinations. We have made personal observations and can say without fear of contradiction that the gold discoveries around Larder Lake in Northern Ontario are indeed the most wonderful imaginable. The profits from investments in that district will amount to hundreds of millions.

NOW is the accepted time to place money there. Values are already increasing at a remarkable rate. In our estimates of Larder Lake gold district we have not taken the items from the newspaper or hearsay reports as our basis; we have sent our own engineers and have gone there ourselves and made personal investigations. We are satisfied beyond question, from our engineers' reports and our own personal observation, that the reports from that country are not exaggerated. The discoveries and conditions are as reported. Millions upon millions of gold will be produced from that district, and the outpour of the precious metal will astound the world. All business and trades of Canada, especially Ontario, will be greatly benefited therefrom and thereby. Toronto will be benefited, even more so than were St. Paul, Minneapolis, Winnipeg, Seattle and Vancouver benefited by the opening up of the great gold fields of the Klondike and Alaska. It remains to be seen, however, whether the investing public and people of Ontario and

Canada grasp the situation and take advantage of this exceptional opportunity—truly a golden opportunity—to reap the millions upon millions of honest, legitimate profits that only await the employment of their capital.

The wise, alert investor will reap the quickest and greatest returns.

Northern Ontario is immensely rich in gold and silver—probably the richest in the world. It is just now being opened up. It is now in its infancy. You can now, as the saying goes, invest your money and get in on the ground floor. We hereby extend to investors an invitation to join us and participate in the profits and benefits that are sure to come to all who become interested in the Blue Bell Gold Mines, Limited. This Company owns, free of indebtedness, and with no incumbrance of any kind, 27 well-selected gold claims of this wonderful district. These claims were staked by miners—men who know a gold claim when they see it. Being identified with the Cobalt district, they were in the neighborhood of Cobalt and New Liskeard when the first strike was made. They had the pick of the district. They took their time and prospecting, and selected with care the best there was in the field. Every claim has brought a fine showing of values. Assays showing values running as high as \$15,000 to the ton have been taken right from the surface, or you might say the very grass roots. The titles are perfect, the samples and specimens taken from the various claims show not only high values in gold, but also high values in silver and copper.

The men identified with the Blue Bell Gold Mines, Limited, have been identified with the rise and success of Cobalt. They would not be identified with any proposition that was not legitimate, straightforward, honest and upright in every particular.

Proposition Plainly Stated

The Underwriters' Syndicate will consist of and include all investors who join with Law & Company in subscribing for the 2,600 shares at Ten Cents per share.

No application to the Underwriters' Syndicate will be accepted for less than one membership (1,000 shares), which will cost \$200.

As soon as the Underwriters' Syndicate is closed, which will be on or before May 15, 1907, The Blue Bell Gold Mines, Limited, will at once place upon the market, through Law & Company, the first allotment of the Treasury shares of the Company at 50 cents per share.

Law & Company will advertise the Blue Bell shares throughout the provinces of Canada and the United States in their customary vigorous manner by display advertising, they have already closed contracts with their advertising agents for large display advertising for this special flotation. This includes all the principal daily newspapers of Canada—73 in number—and 221 in the United States.

Shares will be issued proportionately share for share from the Underwriters' and Treasury shares at the price of Fifty Cents per share until all members of the syndicate have received the return of their investment therein.

Law & Company will receive the usual brokerage flotation commission of 25 per cent. for all shares sold by them, whether it be Underwriters' Syndicate shares or Treasury shares.

All moneys due the Company from shares sold out of the Treasury will be placed to the Company's credit with their Bankers.

All moneys due the Underwriters' Syndicate from shares sold out of syndicate shares will be deposited with The Trusts and Guarantee Company, 14 King St. W., Toronto, Ont., and will be divided proportionately and in accordance with the membership interest therein.

Each member of the Underwriters' Syndicate will be upon identically the same basis.

There will be no favors shown over one another. The large investor will have no advantage over the small. The only difference will be that the larger investor will make the larger amount of profit according to the amount invested.

The Underwriters' Syndicate will be conducted upon a sound, straightforward, business principle, and every representation made herein will be fully carried out.

The Underwriters' Syndicate proposition is simply this:

Those who join us will be interested with the Organizers and Promoters in a ground-floor proposition, and will actually be the original first sellers of shares to the stock-buying public, realizing therefrom big profits. The Blue Bell Company will install twelve stamp mills and all additional machinery without delay. The Company expects to be sending out gold and paying dividends within three or four months.

Our engineers advise us that they believe the Company will be able to ship out gold in quantities to pay dividends sufficient to make the shares of the Company go to Ten Dollars per share.

It should be borne in mind that the Blue Bell occupies the same relative position at Larder Lake that Nissouri does at Cobalt. Its properties are in the very heart of the district, are of large acreage, and very rich in gold and silver.

Blue Bell will undoubtedly be the greatest shipper this summer from Larder Lake.

In conclusion, we desire to say to our friends and clients: "Join us in this ground-floor proposition: it is a good one, and we believe it will make you lots of money." Our advice is—TAKE AS MANY MEMBERSHIPS AS YOU POSSIBLY CAN.
