CAMPBELLTON, NEW BRUNSWICK TUESDAY, MAY 31st, 1910

There are over one hundred and twenty-five automobiles owned in this town. That's a sign of progress.

One of the candidates for the mayoralty of Prince Rupert is named Stork. It is thought to be a bird of good omen.

Some people never realize how dangerous it is to leave things lying about. An Iowa paper says that a woman fell on her birthday and broke her leg.

Overwork, says a hygienist, creates fatigue, stunts growth, invites disease, causes individual and social degeneration. Moreover, it interferes with going to the ball games or the bowling alleys.

In the Irish constabulary there are complaints of unfavorable conditions. Perhaps we gain indirectly from this, for some of the most active gardians are now in the constabulary.

Since January 10, of the present year, no less a sum than \$21,744,552 of British capital has been invested in Canada. The British investor has ample faith in our ability to pay, and why should he not have.

The Canadian bank statement for the past month shows that the people are patronizing the savings banks more intensively than ever. It is one of the signs that give the lie to the statement that Canadians are travelling at too fast a pace.

State of Ohio, City of Toledo, Lucas County, ss.

Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State of Ohio, and that said firm will pay to the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY Sworn to before me and subscribed to my presence this 5th day of December, A. D. 1886.

A. W. GLEASON, Notary Public

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonial free.

F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

95c CHAIR. Baby's High Chair at 95c. Fine glass finish, durable, attractive, complete with tray, 95c at FURNITURE STORE, east end.

"Keep troth" was the motto of the Seventh. The motto of the Seventh is "Keep troth" with the achievement of the Seventh.

KING'S BIRTHDAY, JUNE 3, IS A PUBLIC DAY Must be so observed in Canada Unless Action is Taken.

OTTAWA, May 27.—The King's Birthday, June 3rd, under the bill of exchange act, a statutory holiday and calling action by the Governor-General-in-Council, must be so observed in Canada. No action has yet been taken by the council.

Hon. L. P. Brodeur was at work in his office in the west block this morning for the first time since January 1. The organization of the new naval department will be announced next week.

HAVE YOU BEEN STUNG? Some people have recently been badly "stung" by getting substituted for Zam-Buk. When they have asked for a box of Zam-Buk, the dealer has produced some like on which he makes more profit, and talked about "Just as good and cheaper," or "One of my own, and I know what's in it," or "Really, the same thing at half the price," etc. etc. When tested, this cheap substitute has, of course, failed to do anything like what Zam-Buk does, but the buyer has, nevertheless, parted with his money! You will have to get Zam-Buk eventually! Do not waste money on useless substitutes. The name "Zam-Buk" is protected by law. See it on every pack before buying. If your local dealer should be out of stock, write, "Zam-Buk, Toronto," we will mail it by return.

Just arrived today floor oil cloth, linoleum, stair oil cloth, straw matting, linen suitings, lace curtains, etc., at MOORE'S BROS.

### BOYS' CAMPS

There is more fun in a camp for boys than can be imagined by a person that has never seen one. The camp conducted by the Maritime Committee of the Y. M. C. A. have become so popular that it is now necessary to run them in two sections. The Directors chosen are men who are interested in the development of boys and want to see them have a wholesome good time. These men with their able assistants insure a perfect outing to the boys.

Boys from all parts of the province are invited to attend either section of the Maritime Boys' Camp. Section one will be held August 2-17 at Robertson's Point, N. B. The boys gather at St. John and Pictou and go into camp by one of the river boats. The tents are on a high point and look out over Grand Lake. In the distance can be seen the village of Chipman. Here a new building stands Sentinel Rock. It is an ideal place for a camp.

Rev. G. A. Lawson is to be the Director of this camp, and Mr. Moore the boys' Work Secretary of the St. John Y. M. C. A. will assist him. Both of these are old campers and they know how to make good fun of the boys. They will give instruction in all sorts of water sports.

Section two of the Maritime Boys' Camp is held at Big Cove, N. S., near New Glasgow, July 15th to 29th. This camp is under the direction of Rev. W. F. Fisher who has been the leader of the camp for two years. He knows how to make everyone have a good time. No boys are allowed to be backward in the camp he leads. Every fellow has got to have a good time or he feels that the camp is not a success.

The site at Big Cove is ravined off by that at Robertson's Point. Here, too, the tents stand on a high hill and look out over the water. In this case the water is dotted with islands and the view is out towards Northumberland Strait. The camp has everything needed for good wholesome enjoyment. Boats and a chute-the-chute are there for the water sports, and there is an athletic field for the land games.

The Maritime Boys' Camp holds for two weeks and the cost is eight dollars. This covers everything in camp—food, tent space, boats, and all. Boys may attend whether members of the Y. M. C. A. or not. The age requirement is that only boys of or between thirteen and seventeen years of age will be accepted.

Kissing may be a dreadful pest, but will those who put it down at any cost please show us how much healthier some nations are where the form of greeting consists in each one shaking his own hand and then looking cross-eyed at the other? Unless these things can be shown it is going to be hard to break the kissing nations of the habit.

WHY NOT TRY IT? In many cities on the country roads the split log or king drag has been used with great success. Why not try it on Campbellton's roads? It certainly could not make them any worse and when the mud is soft is the time to use the drag.

MECHANICS TO MEET A meeting of the Campbellton mechanics is called for tonight at 9 o'clock to discuss matters of importance. All are asked to attend.

BALMORAL Balmoral, May 26.—Nature is thoroughly awaking and the improvements on farms, yards, houses, etc., the eye of the spectator can now gaze on a scene of comfort and happiness all over our beautiful parish. Other improvements will be made this week to prepare for the solemn procession which will take place Sunday, 28th inst.

Mr. Joe LaPage is now occupying his new store and dwelling house, which is one more attraction added to the parish. Mr. Daniel McEwen of Campbellton spent a few days in Balmoral. Miss Annie Porter spent last Friday and Saturday in Balmoral and Campbellton.

We are pleased to see Mr. Amable LaPage recovering from a slight attack of pleurisy.

A sewing circle has been organized and the ladies meet every Sunday to do all sorts of fancy work for the bazaar which we expect to make a success of in every respect. It will very likely be the last one. All the ladies of the circle are requested to attend.

Our young men are mostly all back from the drives and it is gratifying to know that they return from Campbellton with their minds unimpaired and their purse in the proper condition. A tighter grasp on the purse means improvements for Balmoral.

GOOD FISHING The fishing at Pritchard's Lake has been unusually good for some time and many have been enjoying the fishing there.

His Friend Said "If They Don't Help or Cure You I Will Stand The Price."

Liver Complaint Cured. Mr. J. B. Rutk, Orangeville, Ont., writes: "I had been troubled with Liver Complaint and Liver Pimples for many years. I tried many different remedies but obtained little or no benefit. A friend advised me to try your Pills, and I did so. I had tried many 'cure alls' that I was tired paying out money for things giving me no benefit. He said, 'If they don't help, or cure you, I will stand the price.' So seeing his faith in the Pills, I bought two vials, and I was not deceived, for they were the best I ever used. They gave relief which has had a more lasting effect than any medicine I have ever used, and the beauty about them is, they are small and easy to take. I believe them to be the best medicine for Liver Trouble there is to be found."

Price 25 cents a vial or 5 for \$1.00, at all dealers, or will be sent direct by mail on receipt of price.

The T. Milburn Co., Limited, Toronto, Ont.

### CLAIMS TO HAVE MADE A GREAT DISCOVERY

Dr. Lange of Scranton, Pa., Says He Can Turn the Base of Metals into Silver and Gold.

SCRANTON, Pa.—Dr. F. W. Lange, a reputable and wealthy physician of this city, today corroborated the report that he had fulfilled the chemists' dream of a process that he has discovered a simple chemical process of transmitting the base of metals into the finest of silver and gold. Consequently he anticipates a quick drop in prices of the two standard of money.

Fumes from Dr. Lange's transmitting furnace in his laboratory brought death to Chas. Dickinson, the New York banker, who had come here to witness the operation, and who before he died, according to Dr. Lange, pleaded all his financial aids necessary. It was Dickinson's death which attracted attention to the Scranton laboratory.

My discovery is one which upsets all scientific theories," says Dr. Lange in a statement which was made public today.

"I have developed a process sought for ages, which will revolutionize the world. In short, I have discovered a means of increasing an atom of silver by the introduction of base metals to 100 times its size and weight, the result being still pure silver or equal if not greater fineness."

"For four years I carried the secret. It was so great and so wonderful that I did not dare to believe it myself. Night and day for years I demonstrated over and over and over in my laboratory the wonderful process. I spent thousands of dollars in the experiment. I have taken base metals of four different kinds and successfully transmuted them into silver of the utmost purity, and the product passed successfully the sharpest scrutiny of the best assayer and analysts. I even sent specimens of the transmuted metal to the United States mint, and the report came back that substance was pure silver."

"My explanation of the process is on the theory of evolution. I believe that evolution pertains to the inorganic as well as the organic things of this earth. After four years of experimentation I decided to give the world the benefit of my discovery. I did not have money enough to exploit it properly and I inserted Mr. Dickinson. He came here to witness the test. It was entirely successful. Mr. Dickinson was elated. He jumped to his feet and in a moment looking into the furnace. The metallic masses made him slightly ill, aggravating a weakened condition of his lungs. He developed pneumonia and died a few days later."

How Amateite is Made Amateite is made of two layers of Coal Tar Pitch—the greatest waterproofing material known. Alternating with these two layers of pitch are two layers of coal-tar-treated wood foil to give it tensile strength.

On top of these four layers is a real mineral surface—five layers of protection. The mineral surface is permanent, fireproof, and absolutely requires no painting.

It Needs No Painting Roofings that require painting are a worry and an expense. Every year or two you have to climb up and give them a coating with some special compound sold by the manufacturers, or you are pretty sure to have a leaky roof.

Amateite on Lumber sheds of B. F. Harris & Sons, Brandon, N. B.

## The Ideal Beverage

ASK FOR Labatt's A Pale Ale, palatable, full of the virtues of malt and hops, and is sparkling condition, is the ideal beverage.

Now, when chemists announce its purity, and judges its merit, one need look no further.
