Dusting, Cleaning and Polishing
All at One Time

THE old way to clean a hardwood floor was to dust it, then clean it, then oil and polish it. A half-day's back-breaking work—and even then the result was not always satisfactory.

Now the new way—with the O-Cedar Polish Mop—you dust, clean and polish all at once. Easy, quick and satisfactory. No stooping or bending. No hard rubbing. You simply pass the mop over the floor—all the dust and dirt is collected and held and the floor is given a hard, durable, lasting polish. A few minutes easy work add the result is always satisfactory.

O-Cedar Polish Mop

For cleaning and dusting everywhere—not only the floor, but the tops of doors, the ends and bottoms, etc. Everywhere, all the hard-to-get-to places. You don't have to move the beds and heavy furniture, you can reach under them easily, for the handle of the mop is 54 inches long.

Try it at Our Risk

The price of the O-Cedar Polish Mop is only \$1.50, and every cent of your money will be refunded if, after two days' trial, you do not find it satisfactory in every respect. We know you will find it the most satisfactory household article you ever used.

A. E. ALEXANDER & SON,

GREAT LUMBER MILL IS NOW COMPLETE

Plant of Mr. A. E. Hammond is One of the Largest in Maine—Very Large Capacity

The Bangor Commercial says: An important development in the lumber manufacturing industry of Maine has just taken place in Van Buren in the completion of the large mill by A. E. Hammond, who was formerly at the head of the Van Buren Lumber Co. Mr. Hammond sold his holdings in that company to the Stearns, Cutler Co., which owns and operates large mills in St. John, N. B., Van Buren and Ashland and began last season on the erection of the plant which is now completed.

The new mill is located at Allandale, a mile and a half from the Van Buren post office on Violette stream, a tributary to the St. John river. The stream was dammed at a point just below the mill site, making a wide pond which extends about four miles up stream and affords a large storage for logs.

The main mill is 210 feet long by 60 feet wide, and the engine room is 25 feet wide and 45 feet deep, and a small detached pump-house that is 12 feet square. A well equipped machine shop has been built, this building being 25 by 50 feet.

The shingle shed is 200 feet long and there is a storehouse 90 feet wide. The loading platform is 300 feet long and 50 feet wide.

The entire equipment of the plant is new and modern in every particular, and was selected after thorough investigation in some of the largest plants of the country to determine the best to be used for the purpose. The boilers at the plant, which is run by steam are of 600 horse-power capacity and the engines at 550 h. p.

An intimation of the size and importance of the plant on the northern boundary of the state of Maine may be had from the figures which give the annual capacity in product of the mill. These figures were furnished by Mr. Hammond. It will turn out annually 15,000,000 feet of long lumber, 20,000,000 shingles, 7,500,000 laths and 1,000,000 clap-boards.

The Ladies of Campbellton May Now Have Beautiful Hair—All First-class Curglets Sell SALVIA and Guarantee it to Grow Hair, or Refund Your Money.

Your druggist is backed up by the manufacturers of SALVIA, the Great Hair Grower. It is guaranteed to grow hair. SALVIA destroys dandruff in ten days.

The roots of the hair are so nourished and fed that a new crop of hair springs up, to the amazement and delight of the user. The hair is made soft and fluffy. Like all American preparations SALVIA is daintily perfumed. It is hard to find an actress who does not use SALVIA continually. Ladies of society and influence use no other.

SALVIA is a non-sticky preparation, and is the ladies' favorite. A large green bottle, 50c. Sold at Whites Drug Store.

THE IMPROVIDENT WASTE OF WATER

Needless Consumption in North American Cities Equals Hundred Gallons Daily

That the per capita consumption of water in most cities of North America is inordinately high, can be shown by a comparison with centres of population in Europe. The tables below give figures taken from representative cities on both sides of the Atlantic, and furnish a good basis for such a comparison.

	Im. gals. per head per day
St. John, N. B.	200
Vancouver	160
Montreal	120
Ottawa	190
Toronto	95
Hamilton	98
New York	100
Buffalo	270
Chicago	190
Philadelphia	175
Average	159.8
Vienna, Austria	14
Ascher, Germany	24
Basel, Switzerland	40
Copenhagen, Denmark	26
Hamburg, Germany	40
London, England	36
Liverpool, England	36
Glasgow, Scotland	72
Newcastle-on-Tyne, Eng.	33
Hull, England	38
Nuneaton, England	18
Stirling, Scotland	53
Riga, Russia	21
Manchester, England	42
Deventer, England	40
Average	35.5

It will be seen from the above that the average consumption per head in America is between three and four times what it is in Europe. This tremendous difference can only be accounted for by assuming that the greater portion of the water consumed in New World cities is simply wasted. A consumption of 50 gallons per head per day ought to be ample for all purposes, and would still be about 43 per cent greater than the European average. Taking the American average as 150 gallons, we see that cities on this side of the Atlantic are using 100 gallons per head per day more than is necessary.

F. E. Neale Has Returned From England After Completing New Arrangements

Mr. F. E. Neale returned on Friday after his trip to England in connection with the deal shipping business formerly carried on by the firm of Frank Harrison & Co.

This Old Gentleman Cured of Rheumatism

By One Box of GIN PILLS

YARMOUTH, N.S.

"I have been bothered with Rheumatism for the past year and have taken a good many different kinds of medicine and found no relief for it.

One day a friend advised me to try GIN PILLS, and after taking one box of them, I felt like a new man. I thought I would write you a few lines to let you know how thankful I am for the relief they gave me, and would advise all sufferers from Rheumatism to try GIN PILLS."

Wm. Conroy

Don't bother with liniments and so-called "blood purifiers." They won't help your kidneys—and Rheumatism is caused by weak, strained or irritated kidneys. The only possible way to cure Rheumatism is to cure the kidneys. GIN PILLS will do this as nothing else will.

Take GIN PILLS NOW and be free from Rheumatism this winter. See a box—6 for \$2.50—and money promptly refunded if you are not satisfied.

Order from us if your dealer does not handle GIN PILLS. Sample box sent free. National Drug and Chemical Co. of Canada, Limited, Toronto. 173

PARCEL POST SYSTEM NOW IN OPERATION

For First Three Months The Weight Limit Will be Six Pounds

At midnight Monday the new parcel post system came into effect.

For the first three months the limit of weight will be 6 pounds. After the three months organization period is over the limit of weight will be increased to 11 pounds. The general limit of size is 30 inches long with one foot depth or width, but parcels may be accepted up to 3 feet 6 inches in length provided the combined length and girth do not exceed six feet. The range of articles is provided for in a general way as follows: Farm and factory products, merchandise of all descriptions, such as dry goods, groceries, hardware, confectionery, stationery, seeds, rattings, bulbs, roots, bedding, plants, sections for grafts, and all other matter not included in first class, and not excluded from the mails by the general prohibitory regulations with respect to objectionable matters.

During the first three months 5 cents additional will be charged on each parcel mailed for local delivery where the letter-carrier system is in operation.

The rates on parcels addressed to any post office within 20 miles of place of mailing are: 1 lb., 5c.; 2 lbs., 6c.; 3 lbs., 7c.; 4 lbs., 8c.; 5 lbs., 10c.; 6 lbs., 12c.; 7 lbs., 14c.; 8 lbs., 16c.; 9 lbs., 18c.; 10 lbs., 20c.; 11 lbs., 22c. To any post office beyond 20 miles, but within the Maritime Provinces, which are considered one zone, the charges from 1 lb. up to 11 lbs., run as follows: 10, 14, 18, 22, 26, 30, 34, 38, 42, 46, 50 cents. The 20 mile zone includes into the province of Quebec.

To any post office in Quebec the charges on from 1 lb. up to 11 lbs., are as follows: 10, 16, 22, 28, 34, 40, 46, 52, 58, 64 70 cents. To any post office in Ontario the same range of weight from 1 lb. to 11 lbs., runs as follows: 12, 20, 28, 36, 44, 52, 60, 68, 76, 84, 92 cents. To any post office in Manitoba the charges on the range of weights are as follows: 12, 24, 34, 44, 54, 64, 74, 84, 94c., \$1.04 and \$1.14. To any post office in Saskatchewan, Alberta, or British Columbia, the charges are 12, 24, 36, 48, 60, 72, 84 96c., \$1.08, \$1.20, \$1.32.

—SPECIAL TO GRAPHIC SUBSCRIBERS ONLY—

\$3.00 THE EVERYMAN ENCYCLOPAEDIA \$3.00

IN TWELVE VOLUMES

In producing this work, the Publishers have been influenced by a desire to add to the Reference Section of "Everyman's Library" a work which shall be specially adapted for the use of these readers, particular attention having been paid to literary subjects and historical data. All new and recent developments in Science, Arts, and Industries, together with those of Politics and all other branches of thought and action, are fully described in its pages.

The work will be published in Twelve Volumes, of about 640 pages each. The type has been specially arranged so that each page will contain about 900 words, and yet be clear and legible.

The format is uniform with that of "EVERYMAN'S LIBRARY," but the paper is especially opaque, and of a pure colour, which will have the effect of making the comparatively small type unusually clear.

This fine Encyclopaedia is just off the press, and is not a cheap reprint American edition as offered by other papers, but a genuine up-to-date work from the well known English publishing house of J. M. Dent & Co., London. We are offering a limited number to be paid in advance Graphic subscribers at
