THE HOME

WALL DECORATIONS.

As to walls, nothing is better than a painted wall. Fading this, a plain color paper should be chosen. When one has become accustomed to plain walls, patterned wall papers will never be used again.

LITTLE THINGS.

A good-bye kiss is a little thing. With your hand on the door to go. But it takes the venom out of the sting. Of a thoughtless word or a cruel fling.

'Tis a little thing to say, "You are kind. I love you, my dear," each night. But it seeps a thrill through the heart, I find.

DEADLY POISON IN BOOKS. One day a gentleman in India went into his library and took down a book from the shelves.

GRADED. With shining morning faces To school they gayly go; Three happy merry youngsters Are Tom and Jim and Joe.

HELPFUL HINTS. It is not generally known that sour may be used in connection with sweet milk, especially in chocolate loaf cakes, where it seems to lend a richer mahogany color to the cake.

THINGS THE COOK SHOULD NOT DO.

Don't put croquettes in lard until a blue smoke rises from it, to show it is absolutely boiling. Too low a temperature means greasy, indigestible frying.

Don't attempt to fry anything until the lard is first tested on a piece of stale bread. If it turns a clear golden brown at once, you are safe in beginning.

Don't neglect to save your cuttings from steaks, chops, roasts and other meats. They make the nicest possible frying mediums.

Don't fail to remember that for the blackened, burned frying pan there is one remedy—to buy a new one. If you cannot afford it, buy it anyway, and learn to be more careful in the future.

Don't have but one frying pan and use it indiscriminately for browned onions with a "soupçon" of garlic and a delicate fritter or omelette. Every housekeeper should own at least three—small, medium and large—with an extra one thrown in that may be kept exclusively for what "The Music Master" would call "vegetable limburgers."

will be as soft and silky as when new. If the water in which windows are washed is blue they will retain their brilliancy longer and polish easier.

The coarseness of cake is frequently due to its standing too long before being placed in the oven. When removing fruit stains with boiling water have the water fall from a distance of at least three feet, as the force that is thus secured is a great help in removing the stain.

The temperance wave which swept over the South last year has reached the West. "sworn off" and "sworn out," but its character has been entirely changed. Instead of being a moral wave, it has been transformed by the busy westerners into a strictly business proposition.

When sweeping stand with the broom rather behind you, partly facing it—the brush farther back than the tip of the handle. Used in this way the dust will not rise higher than the brush.
