

Thorold Cement

Replaces Timber, Brick and other costly materials in the construction of modern stock barns, fine residences, etc. There are hundreds of magnificent and costly structures in the Dominion built during the last fifty years with **Thorold Cement**, all in a state of perfect preservation. The cost of erecting structures with **Thorold Cement** is considerably below that of other materials.

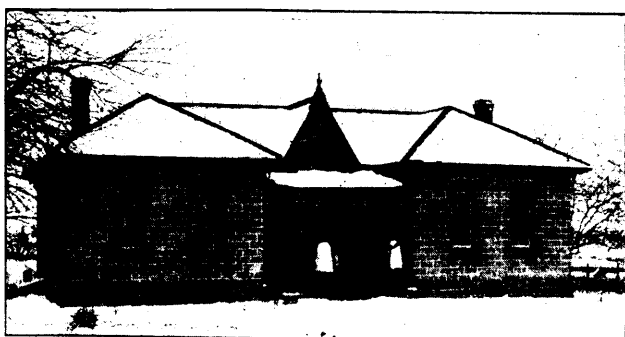

Concrete Store of R. Anderson, Hardware Merchant, Atwood, Ont.

Built from foundation to roof in 1898 with Thorold Cement.

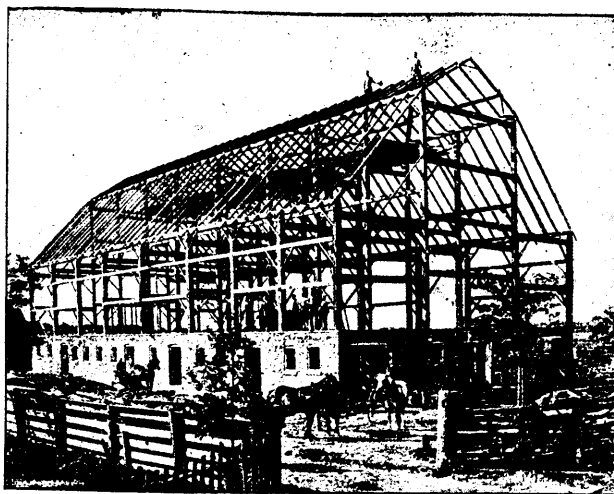

Barn of Wm. Patton, South Cayuga, Ont.

Size of Basement Walls, 36x60x9 feet. Built with Thorold Cement.

Concrete Residence of Joseph Harris, near Kerwood, Ont.

Built with Thorold Cement in 1896.

Barn of Beswetherick Bros., near Hagersville, Ont.

Size, 60x100 feet. Floors for horses and cattle were put in this barn with Thorold Cement.

If you contemplate the building of a House, Barn, Hen House, Pig Pens, Cement Floors, etc., etc., write us your requirements and we will cheerfully furnish full information and estimates. Pamphlet sent free on application.

Estate of JOHN BATTLE

Thorold, Ontario
