

COGENT REASONS WHY

THE

CHATHAM

WAGGON.

Adopted by the Government of the Dominion of Canada as the STANDARD WAGGON, should command your preference :—

The intrinsic cost and value of it is at least \$10 more than any other waggon made in Canada, and any unprejudiced practical man will tell you so, and the thousands who now have them in use say so, because it is not only made from the best, carefully selected and thoroughly seasoned timber and best of iron, but the skelins used, made only by us, are superior to any skelin made or used in Canada, and are constructed specially to receive our Climax Truss Rod, which doubles the strength of the axle; the boxing of the hubs are pressed, not wedged in; a guarantee for a year accompanies each waggon, and notwithstanding this additional cost and superiority, the Chatham Waggon can be purchased at no greater price than is charged for inferior waggons. Bear in mind it is the running gear that carries your load, and no amount of fancy painting on the box will make an easy running and great carrier of a poorly constructed waggon.
