

wrote to his dear scholar Timothy, and he remembered the mother and grandmother. [Read 2 Tim. 1. 5, 6, 15.] In Rom. 13. 10, we read again of love. You see we begin with Jesus and end with love. Let us look at the list and copy it, and look at it sometimes this week and remember all we can of the lessons from this blessed Bible—God's word, which was so dear to Timothy and to his mother, and his grandmother; also to Paul's grandfathers, and to your father and mother and grandparents. A long time ago a good man wrote some verses about the Bible, because he was very glad that we have it to read. We will repeat some of the lines, one line at a time—

"O Word of God!
O Wisdom from on high,
O Truth unchanged, unchanging,
O Light of our dark sky,
We praise Thee for the radiance
That from the hallowed page,
A lantern to our footsteps
Shines on from age to age."

NATURE WORK. Review some of the topics for nature talks, naming them and encouraging the children to tell what they learned about them. During the quarter we have spoken of grain, sea shells, crabs, iron, lead, copper, air, wind, electricity, also buds and blossoms of spring flowers, mentioning their colors and form. We have talked of clouds and their colors, also of horses, fountains, and fruits of summer, with a study of the shape, color, and perfume of roses. All the topics mentioned above have been connected with either the Bible lesson or the season.

The **HAND WORK** suggested during the quarter may be reviewed, allowing the little people to choose what they would like to do, but have them connect their choice of work with some idea which they were taught to see that it illustrates. The larger boys and girls of the class may choose the name of one person in the list of names, and write out some little story concerning him or her.

SCIENCE AT HOME WITH MOTHER. Consider the far-reaching influence of a little service for and with the children. The portion of the Review which refers to Paul, Timothy, and their relatives, with the teachings which were not forgotten, is fertile for home conversation and example. Teach the Holy Scriptures to the children, and by and by the sacred words and your example will be life and strength to them when future responsibilities are present duties.

Whisper Songs for June.

TENTH LESSON.

"My heart is God's little garden,
And the fruit I shall bear each day
Are the deeds he shall see me doing
And the words he shall hear me say."

ELEVENTH LESSON.

The Bible is God's own garden
Into which his children may go
To gather flowers of love and grace
That are blooming for all below.

TWELFTH LESSON.

Christ looks with a tender pity
On one who is tempted to sin,
O, may I work with the Master,
And help him the victory to win.
