My Hives are the Cheapest and Best in use.

My New and Latest Improved Hives will soon be ready for the market. It contains the usual size and number of Jono frames I now manufacture ten different kinds and sizes of Smokers, and they are the most handsome, cheapest and best in use.

My New Honey Knife puts all others to shame, and is the finest and best that is in use.

My Latest Improved Honey Extractor has valuable improvements that no others have. It is the cheapest, strongest, lightest running, and best and most durable in America.

My Comb Foundation is made on an improved Dunham machine and from clarified wax, and is better manufactured than any other. I will make up wax into comb foundation cheaper and better than others.

My New Silk-Bees Yells are made larger than any previous ones, the material having been ordered direct from the manufacturer, specially designed for bee yells. They have no equal.

I am the only one in America who manufactures Perforated Metal for raising comb honey, preventing swarming, controlling fertilization, etc.

My Latest Improved Wax Extractor suits all others out. I challenge any others in America.

Honey Tins and Pails.

My honey cans are cheaper and superior to any others in the Dominion, as I am the only one who has machinery and dies to manufacture these new and improved self-wearing cans and pails. They can also be used for sealing fruit.

In a short time my new Honey Labels will be ready. They will be lithographed on nice different sizes, blending all the colors, making a handsome varnished chrome label, finer than a thing yet made so that each person can have his own name on them. The price will be wonderfully low.
