### Electricity as Applied by the Owen Electric Belt and Appliances

Is now recognized as the greatest boon offered to suffering humanity. IT HAS, DOES, AND WILL effect cures in seemingly hopeless cases where every other known means has failed. We give the most positive proof that rheumatism and nervous diseases cannot exist where it is thus applied. It is nature's remedy. By its steady, soothing current, that is easily felt, it will cure:

Rheumatism	Liver Complaint
Sciatica	Female Complaints
General Debility	Impotency
Lumbago	Kidney Diseases
Nervous Diseases	Urinary Diseases
Dyspepsia	Lame Back
Sexual Weakness	Varicocele

### RHEUMATISM

It is certainly not pleasant to be compelled to refer to the indisputable fact that medical science has utterly failed to afford relief in rheumatic cases. We venture the assertion that although electricity has only been in use as a remedial agent for a few years, it has cured more cases of Rheumatism than all other means combined. Some of our leading physicians, recognizing this fact, are availing themselves of this most potent of nature's forces.

### To Restore Manhood and Womanhood

As man has not yet discovered all of Nature's laws for right living, it follows that everyone has committed more or less errors which have left visible blemishes. To erase these evidences of past errors, there is nothing known to medical science that will compare with Electricity as applied by the Owen Electric Body Battery. Rest assured any doctor who would try to accomplish this by any kind of drugs is practicing a most dangerous form of charlatanry.

### We Challenge the World

to show an Electric Belt where the current is under the control of the patient as completely as this. We can use the same belt on an infant that we would on a giant, by simply reducing the number of cells. Other belts have been in the market for five or ten years longer, but to-day there are more Owen Belts manufactured than all other makes combined.

### Beware of Imitations and Cheap Belts

Our Trade Mark is the portrait of Dr. A. Owen, embossed in gold upon every Belt and Appliance manufactured by The Owen Electric Belt and Appliance Co.

## Primary Recitations

WITH EXPLANATORY NOTES AND

## Lessons in Primary Elocution

A collection of appropriate recitations for young children not further advanced than the First Reader, and lessons in elocution suited to their capacity.

The selections have been made with great care from the best of similar works, and there is nothing in child-literature published that is better calculated to assist in accomplishing the end sought, viz.: the cultivation of a more perfect elocution and the foundation of a literary taste among the little ones. The lessons in elocution are particularly well adapted for children of the primary classes, and include exercises in breathing, voice development, and distinct articulation. They are suitable for home practice as well as school, and every child should be thoroughly and systematically trained in them.

Sir Morell Mackenzie in "The Hygiene of the Speaking Voice" says: "As to commencing the education of speaking (which, of course, includes the reading) voice, it can hardly be begun too soon." This book aims to aid the teacher in making this beginning.

## Practical Problems

IN ARITHMETIC.

For First, Second and Third Classes.

By JAMES WHITE, Public School Teacher

EDMONTON, ONT.

This book has been prepared specially to suit the convenience of Public School Teachers. It contains about 700 Practical Problems suitable for First, Second and Third Classes in Public Schools. It is very carefully graded, and each principle required to be taught is introduced in logical order. It receives the hearty approval of Teachers and Inspectors.

### Read their Opinions.

From ALLAN EMBURY, Esq., Inspector, Peel.

I have examined this little book of Arithmetic Problems, and can give it an unqualified endorsement. The questions are carefully graded, and are especially suited to the wants of our over-worked teachers who have not always the time to devote to the preparation of exercises upon the various subjects of the school curriculum. The questions are not stated in the form of propositions; but their statement is incidental, leaving the inner connection of the problems to be discovered by the pupil himself; and in this important feature lies their special adaptability as an educational force. I heartily recommend this book to all teachers wishing to economize time and labor in their preparation for ordinary school work.

From E. TROUGHT, Esq., Teacher, Member County Board of Examiners, Inglewood.

I have examined with some care Practical Problems in Arithmetic for First, Second and Third Classes, by Mr. White, Edmonton. Without the slightest hesitation I say that they are the best I have ever seen—the best in selection, the best in grading, and above all, the best for developing the reasoning powers of the child, and for exercising his ingenuity. A special feature of the grading is that principles which have been introduced are being constantly made use of in the succeeding problems which are in their turn introducing new principles, so that the whole work may be said to be one unconscious review. It is a great boon to Teachers.
