national institutions, which have given Great Britain such preeminence among the nations of the earth.

Loyalty has ever been a distinguishing feature of Wesleyun Methodism; and we beg to inform your Excellency, that the same sentiments which influence the Connexion at home, do in like manner influence the Societies established by them in Her Majesty's transatlantic possessions.

rence and detestation, that we heard of the recent Rebellion in has been pleased to crown Her Majesty's arms with success, thereby crushing the hopes of the unprincipled leaders of so foul and treasonable an attempt, and, happily, restoring peace to those distracted provinces.

That the Most High, who ruleth over the kingdoms of men, may over shield our gracious Sovereign with his Almighty arm, and clothe her enemies with shame—that she may long continue to earthly for an heavenly Crown, and bequeath an imperishable name, to the memory and love of future generations, is the pray er of Your Excellency's

Most obedient humble Servants.

Signed on behalf of the meeting,

RICHARD KNIGHT,

Chairman of the District.

His Excellency received the deputation most graciously, although suffering from recent indisposition, and in a short Speach complimented the Body represented by those before him-upon the loyalty and zeal and usefulness which was well known always to have been the characteristic of the connexion both at home and abroad.

From the observations of the Quebec Mercury, given in a former column, it is apparent that the arrangements recently made by Binney; Nile, Vaughan, St. John, N. B., 3 days-tea and 400 the Post Office, relative to the communication between Halifax and Quebec, have occasioned much satisfaction. We notice this with pleasure, but it should not be forgotten that some credit is due to the Post-master General of this Province, for his strenuous exertions, having personally inspected part of the route, during a very early and juclement period of the late spring, to accomplish so desirable an undertaking.-Rec.

ONCE FOR ALL .-- The stories put forth by certain proflighte and ruffian editors, about the 'ostentatious parading of whites and blacks, arm-in-arm, through Chesnut-street, Philadelphia, etc. etc. are purely fabulous, and coined for the basest of purposes." Nevertheless, he who would refuse to walk with a colored brother gives evidence that he is a murderer in his heart .-- Liberator.
