One of the most successful and benign combinations ever effected is that of the six medicinal oils of which THOMAS' ECLECTRIC Oir is composed. This matchless compound not only possesses remedial efficacy of the highest order, but, inasmuch as it contains no alcohol, its influence is not weakened by evaporation, which is the case with a great many oils of doubtful efficacy, which have an alcoholic basis. It is an incomparable specific for affections of the throat and lungs, remedies chronic hoarseness and feebleness of the voice, and is a superb remedy for that harrassing, obstinate and consumption-breeding malady—catarrh. Swelling of the neck, tumor, neuralagia, lame back, rheumatism, piles, and other diseases which can be effected by outward treatment, yield to its operation with greater promptitude and certainty than to that of any other remedy, and, when used inwardly, it is equally efficacious. Dysentery, kidney troubles, piles, excoriated nipples are among the complaints which it eradicates. For ulcers, sores, burns, frosted feet, and contusions it is immeasurably the best remedy in use. All medicine dealers sell it. Price, 25 cents.

FINANCE & COMMERCE.

TRUE WITNESS OFFICE, Tuesday, January 29. Financial.

The local financial position remains unchanged; money remains decidedly easy to all who can offer good security. Commercial paper is discounted, as previously reported, at 7 per cent. for first-class, and at 8 for renewals, but the demand for accommodation continues light. There is a comparatively small business being done in loans on good collateral security, at 5 per cen; on call, and 6 on time. Sterling Exchange, which has been much unsettled during the past week, in sympathy with foreign markets, is now very quiet; buyers and sellers are apart, there being about ! differ ence between them, and there is scarcely any business being done. We quote rates at about 81 to 85 premium for round amounts between banks, and 83 over the counter. Gold drafts on New York quiet at 1 prem.

WEEKLY REVIEW OF THE CITY WHOLESALE TRADE.

Tuesday, January 20. Now that the holiday fever has died out, and wholesale grocers and others have completed stock-taking, business in most branches of our wholesale trade is beginning to show signs of life and increased activity, accompanied by a strong upward tendency in values. The iron trade is just now through a period of activity, eclipsing anything of the kind that has been experienced for years. The exportation of leather from this city to Great Britain continues, with healthy effects, and an improvement in the lumber trade is another new feature of this year. The wholesale butter market is becoming more interesting; during the week there have been considerable sales, but stocks here now are too small to permit of many large purchases, and to-day the market is depressed by unfavorable English and American advices, the foreign mar-

kets being generally easier. Breadstuffs in this city are very dull, the elfect of the grain blockade in Chicago just Low being to sender operations here almost impracticable, Spring extra flour sold here to-

day at \$5.921, and strong bakers at \$6.50.

ASHES.—There has been a further decline established this week in prices, pots having sold yesterday at \$1.25 per 100 lbs. Pearls nominal at \$5.50 to \$6; nothing doing in

DRUGS AND CHEMICALS.-This market continues quiet and firm; travellers are placing orders from country dealers fairly well, but prices are unchanged, and, with no activity in any particular line, there is nothing new or special to note. Remittances are reported fairly satisfactory.

DRY GOODS.—The city trade has been somewhat interfered with by the late extraordinary "break" in the weather. Our wholesale dealers, from all we can learn, are well pleased with the success of travellers so far this month, and, as higher prices are certain to be asked for all kinds of goods as the season advances, western buyers have been the more readily induced to purchase. spring trip, anticipating a healthy trade being done. Remittances have improved since our last reference, and, on the whole, the feeling in the trade is better than at the corresponding time last year.

HARDWARE AND IRON .- The iron trade continues excited, and prices remain firm, with a still upward tendency, and a further advance has been reported for some lines of goods. We have to put prices for all kinds of tin plates up another 50c this week, the advance having been warranted by the activity of the demand, and the higher prices in England. Pig iron is also steadily advancing, and country dealers now ordering quite freely, but transactions have to be made without reference to preceding sales; holders, in fact, are reluctant about naming prices, and all offers to sell are quickly taken up. The demand is almost equally active for all kinds o. general hardware. English advices continue favorable to sellers. Pig Box, per ton .—

THE FARMERS' MARKETS. Bonsecours and St. Ann's—Prices at Farmers' Sleighs, etc.

Tuesday, January 20. Tuesday, January 20.

The supplies of farm and garden produce at the city markets to day were not as large as on Friday last, still there was sufficient of everything apparently to meet the wants of buyers, who owing probably to the unfavorable change in the weather were not as numerous as usual. Oats were plentiful on Jacques Cartier Square, and sold at 70c, 73c and 75c per bag. Other kinds of grain were less abundant at unchanged prices. Potatoes were offering at 50c per bag. Beef quarters plentiful and cheap at 4½ to 5½ per lb for hind, and 8½ to 4c for forequarters. Dressed house sold singly at \$6.00 to 7.25, and in lots at \$0.75 and \$6.80. Dressed poultry and game were scarce and dear. Fresh butter and eggs were, of course, scarce, and in good request at our quotations.

The following are the prices, corrected up to date:- VEGETABLES.--Potatoes, 45c to 50c per bag; VEGETABLES.—Potatoes, 45c to 50c per bag; carrots, 25c to 40c per bushel; cholce onions \$1.75 to 2.00 per barrel, or 60c to 70c per bushel; parsnips. 50c per bushel; beets, 35c to 40c per bushel; turnips, 50c per bag and 25c to 40c per bushel; turnips, 50c per bag and 25c to 40c per bushel; celery, 25c to 30c per dozen; cabbage, 15c to 30c per dozen, or 4c per head; American lettuce, \$1.20 per dozen heads; artichokes, 75c per bushel.

a mixed load of cattle and hogs; he sold the short hemlock, 2 to 3 feet, \$3 (0. hogs to Messrs. Head & Price at \$5.20 per cwt, and the cattle, 13 head in all, to butchers at about \$20 each. R J Hopper sold 6 head for \$210; 2 do for \$75; 3 do for \$96; and 3 do for \$98. Jas Eakins sold 20 head, altogether, to different butchers at about 3c per Ib, and he had quite a number of cattle left over form last week, unsold. Several head of cattle were bought up for the Montreal Packing Co., at 2c to 3c. The range of prices paid to-day was from 20 to 3 c, live weight.

AT VIGER MARKET to-day the receipts of live stock comprised about 200 head of cattle, of which 160 head were from the St. Gabriel market, and 10 or 12 sheep and lambs. The quality of the cattle on the whole was very fair, there being a good sprinkling of fat beeves, but the supply offering just now is considerably in excess of the wants of butchers, and accordingly business was dull. Sales were made slowly, and generally at lower prices; dealers complained ot losing money on their stock. The average range of prices paid for cattle was from 24c to 34c per 1b., live weight. Robert Cochrane, Guelph, had a carload under offer, and sold only 3 head to Mr Bourassa at 3c per lb. Wm Roberts sold 8 head out of a carload at about 21c per 1b, or \$22 25 each. Louis Delorme sold 6 out of 11 head, at about \$41 each; W H Reid, Kingston, sold 20 head out of 27 at from \$14 to \$28 each; N Taillefer sold 3 head cattle for \$96; Geo Patterson, Guelph, sold 20 head at \$32 each, and P H Dardis, Morrisburg, 16 out of 28 head at from \$17 to \$34 each. There was a good lot of cattle yet to be sold at noon Lambs brought from \$4 to \$5 each, and a few ewes changed hands at \$4 each.

Montreal Horse Market.

Montreal Harse Markef.

SATURDAY, January 17.

There has been a good enquiry in this market for horses for shipment during the week ending to-day, and accordingly a considerably larger business has been done than during any single week for a considerable time past. The week's shipments comprise 156 horses, at a total cost of \$11,69550, against only 61 horses valued at \$1,965.50 for last week. There have been a good many American buyers staying at the American House during the week, but some of them complained to us on the market to-day that the offerings this week comprised the poorest lot of horses they have seen here for three months. They state that they want good, large-sized "drivers," and good heavy "workers," but that these classes do not appear to be in this Province at the present time; one American dealer stated to-day that he went out to St. Johns yesterday to look at some horses, but that he found them even poorer on the whole, than those offering here. Afr. Baker, of Boston, also stated that he found it much slower work filling his orders now than for some time past; he had only secured 6 borses since the beginning of the week, and these were scarcely up to his standard. Sellers, on the other hand, argue that this complaint about the poor quality of horses offering has become chronic, and buyers resort to it with a view to furthering their own annotal interests in buving and selling, and they complain to the sales made as an evidence of the value of their stock, Some six carlonds have been shipped from these yards to different parts of the States of Maine. Pennsylvania. New York and Mass., during the week, and the stables are now full of horses, rendering buyers now in the market. A few days agoidf. Denn, of Boston, bought at these yards a figh black mare, weighing 1,180, for \$160; also a for horse this week, however, was about \$75. There had been a better demand for horses for local purposes SATURDAY, January 17.

during the week. On the Corporation market a pair of bay carriage horses, 7 years old, weighing 1,150 pounds each, were sold for \$225. At the weekly auction sale yesterday very inferior stock was offered, for which there was no demand scarcely, and no sales of any importance

mand scarcely, and no sales of any impossions were made.
Following is the list of shipments from this city to the United States, entered at the office of the American Consul here during the week:
January 12—19 horses at \$1,100; 20 do at \$1,827.50; 14 do at \$1,151.50; 7 do at \$532. January 13—17 horses at \$1,244; 17 do at \$1,149; 20 do at \$1,720; 20 do at \$1,644.50. January 14—22 horses at \$1,277.

New York Live Stock Market.

New York Live Stock Market.

Trade in horned cattle was slow in New York last Wednesday; the herds due did not arrive on time, and at 1 p.m, several carloa is were unsold; values are also weak; quality coarse to good. Including a good a fair proportion of fair quality beeves. At Sixtleth street Yards prices prices were 8½ to 10½ per 1b, weights 5½ to 10½ cwt. At Harsimus Cove Yards prices ranged from 7c to 10½ per 1b, weights 5½ to 10½ cwt. From 5½ to 57 1b has been allowed net; general sales on 5½ lb net. Milch cows slow of sale at \$35 to 50 per head, calves included. Meal fed-calves sold at 3c to 4½ per lb; lean veals at 5c per lb; fair quality yeals, 7c to 8½ per lb. The demand for sheep and lambs was fair, but not brisk; prices were unchanged. Sheep sold at 4½ to 6½ per lb; lambs, 6c to 7½ per lb; mixed flocks, \$5.85 to 6.75 per cwt; cwes, \$5.30 to 5.3½ per cwt; bucks, 4c to 4½ per lb. Quality as above reported poor to choice; in the aggregate fair to good. Live logs held on sale; city dressed opened in moderate demand at 6½ to 6½c per lb, extreme weights included; general sales at 6½ to 6½c per lb.

Canada lambs were in good demand, and sold as high as 7½ c per lb. as high as 73c per lb.

Montreal Hay Market.

Montreal Hay Market.

SATERDAY, January 17.

Large quantities of hay have Leen brought to the city markets during this week from the surrounding country districts, the greater part of it, however, having been teamed across the river, on the ice. The total receipts of hay and straw at the College street market during the week are estimated at between 800 and 900 loads, the great bulk of the offerings being hay. Yesterday (Friday) the market was nearly glutted, there being upwards of 40 loads on the square. The demand has been only fair, and prices are easier, the best Timothy hay now selling at \$8 per 100 bundles, (a fail of \$60 on the price last saturday) and common hay is sold freely at \$4.50 to \$6.50 per 100 bundles, as to quality. We learn that several American buyers have recently been buying up the good hay held by farmers throughout the Eastern Townships, and shipping it from \$£. Joins to Bosion. Straw is not much enquired for in this market, and prices rule nominal at \$2 to 4 per 100 bundles. The demand for pressed hay and straw is reported dull; prices are steady at \$3 to 10 per ton for hay, and \$5 to 7 do for straw, as to quality. There is a ready sale for orts for feeding purposes, however, at 35c per bushel of 32 lbs.

London Grocery Market.

London, January 16.—In Mincing Lane this week the markets were inanimate and speculation inconsiderable. The home and export demand, was slow, but quotations exhibit little alteration. Pientation Ceylon Coffee advanced is to 2s per cw., but common kinds were unchanged. A telegram from Brazil yesterday gave a firmer tone to business here and holders are not sellers at the recent low quotations. The shipments to Europe from July 1 to the erd of December were about 26,100 tons less than during the corresponding period of the previous year. The future descination of the large stocks at Rio and Santos will, therefore, have an important effect on this market. A few transactions are reported in low Brown Sugar at about last quotations. West India refining kinds continue firm; but Crystalized, of which the supply, is still very ample, barely supported the previous rates. The official returns from France, showing a decrease of 50,000 tons in the production of beet sugar in December, as compared with the same time in 1878, caused more inquiry for Austrian. Refined here aven in the Unyde Vailey has been quiet Paris loaves were dearer. In the Tea market there has been a continuance of the demand for Common Congou. Black Pepper was rather quiet, but White was firm, with a good demand for spot and to arrive. The rice market was inactive, new Burmah for spring shipment was rather casier. For Saltpetre to arrive lower rates were accepted, were accepted,

Failures in 1879.

Failures in 1879.

The figures presented by Dun, Wiman & Co's. Mercantile Agency show a healthy condition of business. According to the statistics presented in the Annual Circular, it appears that the mercantile failures in the States for 1879 were 6,653 in number, compared with 10,478 in 1878, a decrease of 3.82). But it is in the amount of the liabilities that the decrease is the most marked. In 1875 the indebtedness was 231 millions of dollars, while in 1879 the liabilities were only 93 millions. The following table gives the failures and liabilities since 1872:—

Finance, Commmerce and Trade. -The lumber market is said to be booming, especially for deals. The Montmorenci cut of next season, 500,000 Quebec standard, and several other large lots, have lately been sold at good prices.

-Last week's circular of the Liverpool Cotton Brokers' Association says: "Cotton was dull early in the week at rather easier prices. Since Tuesday there has been renewed activity, with considerable business at hardening rates, and quotations show an ad vance. American was in good demand, and after fluctuations, quotations are 1-16d higher. Sea Island continues in moderate demand and quotations are unchanged. Futures were quiet throughout the week. The final rates

show an advance of 1-32d." -A leading Liverpool grain circular says: · The wheat markets have been uniformly dull at a reduction of sixpence to a shilling per quarter on both English and foreign descriptions. There has been a better inquiry, at somewhat easier prices, for cargoes of American red off coast, chiefly for the Continent. All sorts of wheat on passage are difficult of sale at lower prices. At the Liverpool market to-day business in wheat continues limited, and sellers accept a penny to twopence

decline. Flour was sixpence per sack cheaper. The transactions in corn were very limited at a half-penny reduction."

A Virtue Little Known.

All women glory in a fine complexion, and many men who are not at all conceited are proud of a clean and healthy looking skin. It is an established fact that Cod Liver Oil not only ourse consumption, alleviates dyspepsia and saves the sickly little ones, but the constant use of it renders the skin soft and blooming, and at the same time wonderfully improves the general stamina of the system. Scott's Emulsion of Pure Cod Liver dil with Hypophesphites of Lime and Soda possess all these virtues at the same time the oil is deprived entirely of its nauseous properties.

ONLY A LITTLE ACCIDENT.-Extract from an impetuous young lady's letter to another young lady-"You remember Hannah, Mr. Robinson' cook, who took the wine, don't you? Well, such an awful thing happened the other day Poor Mr. Boodles, who got married again lately, brought his new wife with him -such a strange-looking person, and Maud said that she was Mrs. Robinson's cook, and we all thought so all the evening, and let her see it too. And all the while it was not she, only some ones just exactly like her, and rather more common." Extract from reply-" You were probably not aware when you wrote to me that the wife of poor Mr. Boodles, as you call him, is My Aunt Marx."
