

MISSION AT THE GESU.—A mission for the English speaking portion of our population was commenced at this church, by the Jesuit Fathers on Sunday last. For the occasion, an addition has been made to the ranks of these brave soldiers of the Cross in the persons of several eminent preachers from the United States, members of the Company of Jesus. Their sermons will be delivered throughout the course of the mission in the English language.

On Sunday at High Mass, and at all the other exercises of the mission—the Church of the *Gesu* was densely crowded, but admirable arrangements have been made for the accommodation of the public. We understand that a great many Protestants attend these exercises, and we trust that the seed will fall on good soil—and that by the grace of God, it may bring forth an abundance of fruit for the Lord of the harvest.

SEMINARY OF QUEBEC.—The Hundredth Anniversary of the establishment of the Congregation of the Seminary of Quebec was celebrated on the 6th inst. Mgr. Horan, Bishop of Kingston was present at the ceremony, at which His Grace the Archbishop of the Province presided, whilst High Mass was sung by the first named Prelate. The sermon was pronounced by the Rev. M. Racine, and the music was well executed by the pupils of the establishment.

In an exchange we find the following paragraph strikingly suggestive of the notions of personal liberty, prevalent amongst the members of the political party now in the ascendant in the United States, and known as Republicans.

"A Bill is before the Tennessee Legislature to encourage and protect loyalty, which provides that it shall hereafter be an offence for any person or family to have a picture of Jefferson Davis, or General R. E. Lee in their possession."

It is customary in the U. States to cry out against the oppressive and arbitrary treatment of Fenians by the British Government. How that outcry would be intensified were it to be announced that a Bill had been introduced in the House of Commons making it penal for any Irishman, or Irish family to have in his, or their possession a picture of Stephens, or Emmett!

PLACE-BEGGING.—The *Pays* says—it may perhaps exaggerate a little—that the Government at Ottawa has received 150 applications for one small berth vacant: and that Mr. McDougall the Commissioner of Public Works has received upwards of One Thousand, for situations on the projected Intercolonial Railroad. We fear that it is but too true that the recent changes in our political condition have but increased the number, and given a keener edge to the ravenous appetites, of the swarms of obscene vermin that prey upon the public purse; and suck the life blood from the veins of the body politic, in the shape of salaries, contracts, advertisements, and other well known modes of pilage.

INTERPRETER WANTED.—Speaking of the Union of the B. N. America Colonies, the reasons for, and probable advantages of that measure, the *London Times* in an editorial of the 22nd ult. says:—

"A mild necessity, and that nature itself we call propriety are the causes for a Union for which reasons disappear under the hard process of calculation."

A correspondent of the *Montreal Gazette* much perplexed, and troubled in mind as to what this may mean, calls for an interpretation thereof. We fear that the *Gazette* is unable to solve the enigma.

A telegram from Bombay announced on the 4th inst., that King Theodore had given orders to put to death the English prisoners in his hands. The report however is not well authenticated, and does not command general belief.

ST. NICHOLAS' DAY CELEBRATION AT THE CHRISTIAN BROTHERS' SCHOOLS, TORONTO.

The Feast of St. Nicholas, Patron of the Christian Brothers' Schools, was celebrated in a right worthy manner on Friday, the 6th inst., by the juveniles of our fair city. From early morning they might be seen hastening with important looks to the place of rendezvous, the large schoolhouse on Richmond Street, where a procession being formed consisting of fifteen divisions, each with its appropriate banners headed by their own Band—to the sound of sweet music, they marched to the Cathedral, into which they filed in admirable order.

Here a solemn High Mass in pure Gregorian chant with Deacon and Subdeacon was celebrated by the Very Rev. J. F. Jamot, V.G., the choir being exclusively composed of the children of the schools, the Offertory piece being accompanied by the Band. A former pupil of the Christian Brothers' School, Hector Le maître, a *musicien ne*, ordinary organist of the Cathedral accompanied the Mass.

The Very Rev. Father Jamot addressed the children in a happy and beautiful style a real "Ferverino."

Mass being ended the boys formed themselves into procession and arriving opposite the Episcopal Palace in real military style, drew up in martial array and discoursed beautiful music, amongst other well known pieces, "St. Patrick's Day" and "Vive La Canadienne."

His Lordship, who appeared to be in weak health, yet beaming with joy at the beautiful scene before him, gave them his blessing from the window.

In the course of the afternoon the larger boys of the schools of St. Michael's, St. Paul's, St. Mary's, and St. Patrick's, to the number of about three hundred assembled in the large hall in Richmond Street Schoolhouse, where a grand supper on the most approved temperance principles was got up for the occasion.

It is superfluous to say that the tea, cakes, apples, and candies quickly disappeared under the judicious manipulation of the youngsters whose appetites were sharpened by the days excitement. The excellent Band of the children enlivened the afternoon by lively and appropriate music interspersed by many songs. It was amusing to see the hilarious gravity of these juveniles as they sat discussing, laughing, and eating. The Brothers were all eyes and hands during the banquet waiting on their pupils as mothers on their children.

The cloth being unremoved, for there was little to remove, a few well-timed remarks were addressed to the pupils by the Reverend Fathers Jamot, Rooney, and Donohoe.

The party broke up at an early hour when all ran to their own homes for they were in too high spirits to walk.

Thus closed a happy and pleasant celebration of the Feast of St. Nicholas in Toronto.

The Christian Schools of Toronto were never in a better condition than they are now under the able direction of the pious and energetic Brother Arnold, assisted by a dozen of truly Christian Brothers. Six hundred boys attend their schools.

ST. MARY'S COLLEGE.—An examination of the students in the Commercial Department of St. Mary's College, Beury Street, was held on Friday, under the direction of the Rev. Father Vignon the Rector of the college; the prefect and vice-prefect were also present. The examination was conducted by the Rev. J. H. O'Rourke, and comprised the following subjects: Arithmetic and Book keeping, Geography, History and English Reading. The answers elicited by the questions in most of the subjects evinced both the intelligence of the pupils and the thoroughness of the training to which they had been subjected. Very testing questions in history, and geography were replied to with great promptness and almost uniform accuracy. But that which is and should be the characteristic excellence of such a department, proficiency in arithmetic and kindred subjects, was shown to our full satisfaction. The entries in the books were very neatly made and the problems given out were easily and correctly solved. An address to the Rector read by James McDonough, preceded the examination which was interspersed with creditable recitations by Theodore Tracy, W. Tomlinson and J. McDonough.

THE CHAMBLEY MURDER.—On Saturday Mr. Coroner Jones proceeded to Chambly to investigate the facts connected with the death of Gustave Antoine Franchise, on the first of November last. The body, it appears, had been found by Trefle Charron on the 28th ult., while he was picking up drift-wood, it having been caught on a bank. The body when discovered was stretched on its back, the greater portion being out of the water, although the head and face were covered. As soon as he got the body ashore he gave notice to the authorities and saw it properly deposited in the village of St. Mathias, Col. Blanchard, a magistrate of the district of St. Hyacinthe, had the body identified and also a medical examination made by Dr. Lafontaine of Chambly. Dr. Boyer from Montreal accompanied the Coroner and he and Dr. Lafontaine made a thorough post mortem examination and stated that in their opinion, that death had been caused by violence.

Clemence Baurvais wife of David Demers, said that about two o'clock on the morning of the 2nd of November, she was awakened by a knocking at the door. She got up and called who was there, and being told a friend, she still refused to open the door, until the person insisted and she opened the door sufficiently to see a man, whose appearance so frightened her that she tried to shut the door but he pushed it in and passed her. He then made insulting propositions to her. Her daughter who was in bed got up, caught the man by the throat, and witness with a stick struck him several times, but where she could not tell. As she was striking she pushed him and he fell outside of the door, which she shut on him. She listened in case he might return, as they had been annoyed several times before. Hearing no noise she ventured to look out and saw no one. Seeing something dark on the road she called her husband to go to see what it was, but as he refused she went herself and saw it was a body, which after shaking and turning she saw had no signs of life. Thinking it would be dangerous to leave it there, she, her husband and two daughters carried it to the river and threw it in above the mill. The old man could only go about half way, as he was too drunk and fell on the road. She stated positively that the girl Languedoc who testified against them was not in the house on that night. The confession of the mother was corroborated by that of her daughter Alvin. The other evidence as to where he was last seen before his death has already been given. The jury returned a verdict of murder against Clemence Baurvais, wife of David Demers and against Elizabeth Demers her daughter, implicating David Demers, Alvin Demers, and Marguerite Languedoc dit Lacoste, for being present then and there as accessories.

MURDER NEAR CALABODONIA.—A shocking murder occurred on Monday afternoon in the vicinity of a tavern stand on the Port Dover road, about three miles from Calabodonia. It appears that a party of three or four Indians, from the Grand River Reservation, became involved in a quarrel taken liquor, when an Indian, who had not at first taken part in the fracas, rushed in with his knife and stabbed one of the combatants, a half breed, through the heart, causing his death almost instantly. The murderer took himself off, and up to last night had not been apprehended. He is known by the name of Jim O'neil, and is about 25 years of age. The police authorities here have been notified to keep a look-out for him.

An ice-bridge formed at Three Rivers on the 5th.

OTTAWA, Dec. 4.—The Intercolonial Railroad Bill is printed.

The preamble recites the joint declaration of the Provinces that the construction of the Railway is essential to the consolidation, of the Union—the obligation imposed by the Confederation Act and the Imperial Guarantees Act.

The termini of the Railway are declared to be Riviere du Loup, in Canada, and Truro, in Nova Scotia.

The Railway is declared to be a public work, belonging to the Dominion, and to be made with a gauge of five feet six inches.

The construction of the Railway and management, until completed, to be under four Commissioners appointed by the Governor, and holding office during pleasure.

A Chief Engineer to be appointed, and to have the general superintendence of the work, under instructions from the Commissioners.

Commissioners may appoint a secretary, engineers, surveyors, and the officers required.

Commissioners to have power to explore and survey the country between the termini, and generally exercise powers, and to center the lands, &c., necessary to the construction of the road, and generally all powers conferred upon railway companies by any act which may be passed for the consolidation and regulation, and general clauses relating to Railway companies.

Commissioners to build the Railway by tender and contract after plans and specifications are duly advertised accepting tenders of such contractors as appear possessed of sufficient skill, experience, and resources to carry on the work, they not to be obliged to accept the lowest tender, and to make no contract involving an expense of ten thousand dollars or upwards, unless sanctioned by the Governor in Council.

Contracts to be guarded by such securities and contain provisions for retaining part of the contract money as may appear necessary for the protection of the public, and securing the due performance of the contract.

No money to be paid on contracts except on the certificate of the Chief Engineer that the work had been done, and the certificate to be approved by the Commissioners.

No member of Parliament to hold any office of emolument nor any contract under the Commissioners.

The Governor or a person appointed by him, to have power to inspect the contracts and proceedings of the Commissioners at all times.

The Governor in Council to fix the salaries of the Commissioners and Chief Engineer and approve all other salaries awarded by the Commissioners, subject in all cases to the revision and confirmation of Parliament at its first session.

The Government may suspend the work at any time until the next meeting of Parliament.

Commissioners to be paid by the Receiver-General, all monies required for the progress of the work as may be ordered by the Governor in Council and to furnish quarterly accounts, and whenever required, to the Receiver-General of all expenditures and liabilities.

When any part of the Railway is completed the Government may make arrangements for working it for the period until the end of next ensuing Session of Parliament.

Naval and military forces may pass over the road when required by the commander of the forces or the chief naval officer, under terms to be agreed upon.

QUEBEC, Dec. 4, 1867.—The ship "Stag" foundered in the Gulf. This vessel which was reported as having proceeded all well to sea, foundered in the open channel of Basque Island yesterday, with twelve feet of water in her hold. The crew experiencing great hardship, saved themselves with the aid of boats, and landed on Green Island. They are without clothing, and have telegraphed for assistance.

The "Stag" was loaded at Montreal with grain, and about 300 tons of Government Stores, from this port, principally Refined Rifles intended to be converted into Snider Breech-loaders.

She took her departure from Quebec on Saturday morning, notwithstanding the hazardous condition of navigation, and on Sunday night, got ashore on Bare Island, and surrounded with ice; the weather at this time was intensely cold, the thermometer being 12 degrees below zero; a severe gale was blowing, accompanied with snow. She floated off successfully on Monday, and proceeded until off Basque Island when she foundered. There is insurance on the vessel and cargo in the New York Oriental Company.

SHARP PRACTICE.—A farmer, named Jas Moore, brought a load of pork into the city yesterday. Whilst waiting for a purchaser, Thos. Winfield, a pork dealer on Colborne street, approached in that capacity, and offered the owner \$4.75 per hundred pounds for the load, which consisted of nine hogs weighing in the aggregate 1370 lbs. Moore accepted the terms, and drove the load to the store of Winfield, where the latter weighed each hog singly, using his own scales, and then struck off two pounds from each, saying that was his rule. No objection being offered, he figured up the amount (\$64.66) and offered it to Moore in silver. This the latter refused without the addition of four per cent for discount; he also refused to take back the hogs, averring that Winfield had thrown them down on the street, dirtying and bruising the flesh, thereby deteriorating its market value. Moore accordingly brought an action against Winfield, charging him with obtaining goods with intent to defraud. The case was heard by the Magistrate yesterday afternoon when Winfield was committed for trial, being bound over to appear in the sum of \$200.—*Toronto Globe.*

ALLEN'S FATE ANNOUNCED.—Yesterday Wm. Ferguson, Esq., Sheriff, telegraphed to the seat of Government to know positively the fate of Ethan Allen. Late in the evening he received a reply that his Excellency the Governor General could not interfere with the execution of the sentence. Our reporter was present in Allen's cell when Mr. Ferguson communicated the sad news to the unfortunate man. Allen received the announcement calmly and half expectantly. He conversed for a few minutes quietly, and said that he would meet his fate as he had intended all along, with a smile on his face. His mind, he said, was easy, and he had no fear of death. He did not question the justice of his sentence, and was pleased that his companions were not placed in his position, and that he only was to be hanged. He had no hard feeling against any one; he freely forgave all. Allen could hardly express sufficient thanks to Mr. Ferguson for the kindness he had shown. He says finally that his present demeanor is not forced; that he feels as he speaks.

TOWNSEND REVIVED.—The editor of the St. Catharines *Journal* writes from Ottawa that he had been informed by every highest authority that the real genuine Bill Townsend—the leader of the celebrated Townsend gang who murdered Mr. Nelles, of Haldimand county, and who shot the constable Richards at Port Robinson, and whose career created such excitement a few years ago, especially when the McHenry-Townsend trials came off at Cayuga and Welland—will be, or has been, arrested. It is said there will be no doubt this time. I should hope not, for the last trial cost the country \$20,000 and another dose of the same kind would not be pleasant.

Last week a Hamilton bailiff named Mitchell was before the Police Magistrate charged with the illegal sale of the goods of a debtor against whom he had an execution. It appears that on an execution for \$7, he carried off the entire property of the debtor, leaving him a sick wife and two children destitute of everything; and made a mock sale of them at his own house for a tenth part of their value.

The freedom he has been accustomed to enjoy since his trial, will still be accorded to Allen.

When the mountain is converted into the much-talked of Park, 'A French Canadian' would be glad to see English speaking Canadians join in erecting a monument to the great French discoverer, Jacques Cartier on the Mountain which he named; and on which as our correspondent states he was, beyond peradventure, the first European who ever planted a foot on it. Such a monument, on such a spot, would be very fitting, and would at once commemorate and impress upon the minds of thousands an interesting fact of Canadian history. It would be well, too, as our correspondent suggests, that some steps should be taken to preserve the memory and record of such names as those which he repeats. They can scarcely be more classic to French speaking than to English speaking Canadians. The highest practical political wisdom in this country is to cultivate a rivalry of generous sentiment between the races which inhabit it.—*Montreal Gazette.*

THE MAYORALTY.—We hear it stated that there is a very general feeling in favour of asking Dr. Hingston to become a candidate for the Mayoralty at the next Municipal election. The doctor is very popular with all classes of our citizens, and a gentleman whose respectability of position and worth would make him a credit to the City.—*Montreal Herald.*

THE LEGISLATIVE OFFICIALS.—A STARTLING ANNOUNCEMENT.—The *St. John Globe*, Nov. 25, under this lead, says:—We were hardly prepared to receive from the correspondent of the *Telegraph* the following statement of affairs at the Dominion Capital but it is no doubt correct. All those who went to Ottawa from the Lower Provinces, with a promise of situation, have been deceived squeezed out by the swarms of office seekers from the Upper Provinces. Those gentlemen from this Province, who left here with high hopes of place and emolument have now been at the Capital for three weeks, but it appears that as yet they have had no work assigned them.

The recent gales have done much damage on the lakes. The schooner "E. B. Allen," from Chicago to Ogdensburg, grain stuck on the bar at Kingston, but was got off. The "Marine" was blown into the Cataract bridge, and damaged it not a little. The "Hastings," formerly of Belleville, with all hands, lost. The propeller "Michigan" reports passing the wreck of a vessel, with only her topmast visible, about half way between the Galloes and Oswego.

PAMPHLET IN FAVOUR OF PROTECTION.—Mr. McLean, a gentleman very favourably known on the press of Upper Canada, is now in this city for the purpose of selling a pamphlet in favour of a high tariff. We have no doubt he will do the best that can be done for the cause he has espoused.

The Windsor town council at their last meeting, voted the sum of \$5,000 for the purchase of a steam fire engine, and for erecting water tanks in the town.
