

SCOTT'S EMULSION

THE WHOLE OIL!

There is no secret about Scott's Emulsion. Nothing is covered up by obscure references to active principles or alkaloids. Neither is it an alcoholic mixture put up under some mystifying title.

It is simply an emulsion of the best Norwegian cod-liver oil combined with the hypophosphites and glycerine.

We use the whole oil (*a*) because the great reputation of cod-liver oil as a food and medicine was made by using it in this way; (*b*) because such use is, almost without exception, approved by the medical profession of the whole world; and (*c*) because we fail to find a single writer, worthy to be called an authority, who advocates differently.

When cod-liver oil is indicated, the whole oil must be used.

We will gladly send you our formula, together with sample bottles, upon request.

Two sizes; 50c. and \$1.00. SCOTT & BOWNE, Chemists, Toronto

OF COD-LIVER OIL WITH HYPOPHOSPHITES

SCOTT'S EMULSION

BOTH INDICATED!

Probably you have frequently noticed that when you are about to prescribe cod-liver oil you think of the hypophosphites, while the reverse is equally true. This is because when one is indicated so is the other, at least this is true in the great majority of cases. Physiologically, they combine well, too, one reinforcing the other.

We do not mention glycerine on the label, yet we believe, with the *London Lancet*, that it is exceedingly valuable, in that it aids in the absorption of fats and retards tissue waste.

Scott's Emulsion contains these three remedies, so combined that they never separate or deteriorate in any way. You will find it the most pleasant and most efficacious preparation of its kind on the market.

We will gladly send you our formula, together with samples, upon request.
