

## Your Interest, and Ours

It's to your interest to secure one hundred cents worth of satisfaction for every dollar you spend in Millinery. It's to your interest to secure the handsomest work your money can buy. To get style and newness, perfection of finish, and prompt attention.

Well—it's to our interest to serve your interest. It pays us to give you all these advantages—and we do give them.

There's probably no millinery department in Prince Edward Island so well quipped as ours. The stock is very large—and it's personally selected. We've a large staff of expert workers in our workroom and we'll have your hat trimmed to suit you perfectly—and delivered on time.
