

Table 19

Factor 2

DEFENSIVE NATIONALISTS

	<u>POSITIVE ASSOCIATION</u>	<u>NEGATIVE ASSOCIATION</u>
<u>DEMOGRAPHICS</u>	Residents of Ontario and Quebec	Residents of B.C. and the Prairies
	Men	Women
	Over 55 years of age	35-44 years of age
	Less educated	University graduates
	Francophones	
<u>POLICY ISSUES</u>	Prefer cooler relation with U.S.	
	Personally lose if trade barriers removed	
	Bad idea enter into free trade agreement	
<u>SUPPORT/OPPOSITION TO FREE TRADE</u>	No free trade better for Canada	

Defensive nationalists are similar to the socio-cultural nationalists primarily being associated with older people and those living in Quebec. However, this factor also includes men, the less educated and residents of Ontario. As with the socio-cultural nationalists, defensive nationalists would also prefer a cooler relationship with the United States and view free trade as a bad idea for Canadians.
