Products

AIR POLLUTION CONTROL
WATER & WASTEWATER

Backflow Preventers
Control Valves
Pipes, Valves, Fittings

Company/Product

Elasto-Valve Rubber Products (EVR) was established in 1984 and in 1989 became a subsidiary of Devjo Industries, a company listed on the Toronto Stock Exchange. EVR is located in Sudbury, Ontario where it has earned a reputation as a manufacturer of high quality Elastomeric piping products. The products made by Elasto-Valve include pinch valves, replacement sieves, expansion joints for piping, ducting systems, diaphragm seals for pressure instrumentation, and custom reinforced rubber fabrications. All manufacturing at EVR is quality controlled in accordance with CAN-Z.299.3 and ISO-9003.

Current Geographic Marketing Activities

EVR currently sells its products through distributors and agents to all processing industries, including water and waste treatment, as well as pollution abatement systems in mining, pulp & paper, and power generation. Sales activity is strongest in North America, with growing activity in the U.K., Australia, and South America. The company is greatly interested in pursuing additional business on a global scale.

Contact Sought

EVR would like to develop contacts with sales agents and distributors specializing in process equipment and controls, piping products, or air and flue gas handling systems.
