WESTERN CANADA—DROUGHT CONDITIONS—REPORT OF  
COMMITTEE PRESENTED

**Hon. Efstathios William Barootes**, for Hon. Dan Hays, chairman of the Standing Senate Committee on Agriculture and Forestry, presented the following report:

Tuesday, May 31, 1988

The Standing Senate Committee on Agriculture and Forestry has the honour to present its

## EIGHTH REPORT

In compliance with the Order of Reference of Thursday, May 19, 1988, your Committee has heard a good overview of the drought conditions in Western Canada by the Minister of Agriculture and his officials.

Your Committee, recognizing the serious nature of the drought and its damage to Canadian livestock producers, recommends that prompt action be taken by the federal government to provide relief in the form of:

1. transportation assistance to pay a portion of the costs of transporting forage to drought-affected areas;
2. transportation assistance to pay a portion of the costs of moving livestock to and from any available grazing areas; and
3. transportation assistance to pay a portion of the costs of transporting water to areas affected by the drought.

The extent of federal transportation assistance should be at least equal to that under the 1980-81 Herd Maintenance Assistance Program and should be determined in conjunction with the provincial governments.

Further, your Committee recommends that

4. a special deferred income tax arrangement be implemented. This arrangement would allow livestock producers to sell their livestock inventory and then to repurchase the same dollar amount of inventory, within a reasonable time frame, with special tax treatment. The sale proceeds from livestock inventory sold due to drought conditions would be considered as taxable income in the year in which the livestock inventory is repurchased.

Your Committee recommends that the federal government give urgent consideration to such initiatives.

Respectfully submitted,

E.W. BAROOTES  
for  
DANIEL HAYS  
Chairman
