

"Peat." C. G. S., Report of Progress for 1863-66, pp. 181-291. Ottawa.

Report on the Gold Region of Lower Canada. C. G. S., Report of Progress fr. 1863 to 1866, pp. 79-90.

1867.

On the Objects and Method of Mineralogy. S. J., xliii, pp. 203-207. A. A. P., vii, pp. 233-242. Reprinted in C. & G. E.

On the Mineralogy of Crystalline Limestones. Geol. Mag., iv, pp. 357-369, 432-477, 478; Les Mondes, xv, pp. 17-24; Archives Sci. Phys. Nat., xxxi, 1867, pp. 5-14; C. N., iii, 1868, pp. 225-234; Roy. Instit. Proc., v, 1866, pp. 178-185; Smithsonian Reports, 1869, pp. 182-207.

Sur la formation des gypses et des dolomites. C. R., lxiv, pp. 815-817.

Sur quelques réactions de silo magnésiens et sur les roches magnésifères. C. R., lxiv, pp. 846-849.

Sur les pétroles de l'Amérique, du Nord. Paris, Bull. Soc. Géol., xxiv, pp. 570-573.

Terrains anciens de l'Amérique du Nord. Bull. Soc. Géol., xxiv, pp. 664-669.

Sur la théorie de l'Origine des montagnes. Bull. Soc. Géol., xxiv, pp. 687-689.

Description géologique du Canada. Esquisse Géologique du Canada, pp. 3-35.

Report on the Gold Region of Hastings. C. G. S., pp. 3-6.

1868.

On Some Points in the Geology of Vermont. S. J., xlv, pp. 222-229.

Notes on the Geology of Southwestern Ontario. S. J., xlv, pp. 355-362; C. N., iv, 1869, pp. 11-20.

A Notice of the Chemical Geology of Mr. D. Forbes. Geol. Mag., v, 49-59.

On the Chemistry of the Primeval Earth. C. N. (new series), iii, pp. 225-234. Read to the Roy. Inst. Great Britain, London, May, 1867. Repub. in C. & G. E.

On the Gold Region of Nova Scotia. C. G. S., pp. 38.

On the Chemical and Geological Relations of Metals. P. A. A. (paper read, not printed).

1869.

Volcanoes and Earthquakes. C. N., iv, pp. 397-397.

The Magnetic Iron Sands of Canada. C. N., iv, pp. 467-469.

On the Probable Seat of Volcanic Action. Geol. Mag., vi, pp. 245-251; C. N., iv, pp. 166-173; S. J., 1, 1870, pp. 21-28. Reprinted in C. & G. E.

Études chimiques sur le cuirre. C. R., lxix, pp. 1357-1350; C. N., iv, p. 324; S. J., xlix, 1870, pp. 153-157.
