

or wells of production, showing separately the total number of units generated for export and for consumption in Canada.

6. For the measurement of electrical energy integrating watt-meters of approved design shall be installed in such a manner as to show the total number of units generated for export and for consumption in Canada respectively.

7. Before commencing to construct, subsequent to the issuance of the license, transmission lines of wire for the exportation of electrical energy, or lines of pipe for the exportation of gas or fluid, the contractor shall obtain from the Department a license for such construction.

The contractor shall furnish a drawing or map showing the proposed location of the transmission lines or any extension thereof; also:—

(a) The gauge of the wire conductors for the transmission of electrical energy;

(b) The diameter in inches of the pipe lines for gas or fluids, and

(c) The number of conductors or pipe lines that it is proposed to build or construct.

8. Where a supply of electrical energy, gas or fluid is provided in any part of Canada by the contractor for export and home consumption then the price charged to any person or company in Canada by the contractor shall not exceed the prices at which electrical energy, gas or fluid is sold by the contractor for export in like quantities under similar circumstances.

9. Any officer authorized by the Minister for the purposes of the Act may at all reasonable times, and not less frequently than once in every year, enter any premises in which electrical energy, gas or fluid is generated or produced in order:—

(a) To inspect the generating plant, to test any wires, pipes meters or other measuring devices through which electrical energy, gas or fluid may be supplied to any purchaser, or

(b) To inspect the contractor's books for the purpose of ascertaining the quantities and prices of the commodities sold and such other information as may be deemed necessary for the proper administration of the Act, and

(c) To inspect all contracts entered into between the contractor and the purchaser for a supply of electrical energy, gas or fluid.

10. The accuracy of any meter or other measuring device through which electrical energy, gas or fluid may be sold, either for export or home consumption, shall be determined by the Department in accordance with the provisions of the Electricity and Gas Inspection Acts, Chapters 14 (1907) and 87 R. S. (1906) respectively and the regulations made thereunder.
