Hay and Clover—3,020,400 acres, yielding 5,847,494 tons, or 1.94 per acre, as against 5,259,189 and 1.80 in 1904.

The acreage under the crops enumerated above is 8,897,898, as compared with 8,672,525 in 1904.

The area of cleared pasture land is 3,231,325 acres. There are 45,614 acres in rape, 13,217 acres in flax, 1997 acres in hops, 5702 acres in tobacco, 266,613 acres in orchard and garden, 13,719 acres in vineyards.

The estimated crop of apples from 7,018,723 trees of bearing age is 31,380,749 bushels, or 4.47 bushels per tree, as compared with 6.99 in 1904.

The following statement regarding crop conditions on the 1st of November based on reports of 600 correspondents, has been issued by the Ontario department of agriculture:

While a majority of correspondents describe fall wheat as being of good quality, some speak of the grain as being rather shrunken and light in weight. All the cereals suffered more or less from a few days of exceedingly hot weather during the ripening stage, but most of the injury was due to heavy rains during the latter part of harvesting. Rust in fall wheat was complained of by many correspondents, but very little harm to the crop was reported from Hessian fly or other insects.

Spring wheat is not so widely grown as the fall varieties, but the quality of this season's crop is excellent. The heavy rains during the latter part of harvesting, rust in fall wheat was complained of by many correspondents, but very little harm to the crop was reported from Hessian fly or other insects.

The area of new fall wheat is larger than that of last year, taking the province over, although a few counties show a decrease. Sowing ranged from the last week of August to the first week of October. The grain is in good condition and the crop is a splendid start. The appearance of the young wheat when correspondents reported the beginning of November was most favorable, although there were expressed some fears that there had been a vigorous growth, giving the crop rather too much head. Scattering reports were made that the present of the Hessian fly, white grub and wire worm, but to a serious extent. Dawson's Golden Chaff is still the popular fall wheat sown, but some correspondents complain of this variety, as having a tendency to smut.

Barley may be considered to be the average in both yield and quality. Some fields were more or less injured by rain, but most of the grain was of good color. It was relatively the best general crop of the year.

Oats, ripening later than either wheat or barley, suffered more from rain. There was a considerable amount of lodging and a considerable amount of rust was also reported. While the yield per acre is a large one, some of the grain is reported to be light in weight, although other correspondents speak of the quality as excellent. It must be admitted, however, that the general condition of the crop at the time of cutting was decidedly up to the high expectations of the August report.

Correspondents have even less than usual to say about rye, but the crop, where grown, turned out fairly well. In both yield and quality it was well up to the average. There was comparatively little injury from the weevil or "bug," which, however, was wrought havoc in the province. The crop suffered more from rust than any other variety. Notwithstanding the set-back the crop received at the time of planting, then prevailing, midsummer conditions were so favorable that corn picked up in a wonderful way. While some poor

THAT OVERWORKED, PLAYED OUT FEELING AMONG WOMEN

There are thousands of females all over our land who are broken down in health and dragging out a miserable existence, overburdened with diseases peculiar to their sex, apparently growing old while yet young. Often they have pale or sallow complexion, hollow sunken eyes, with a lifeless look; the face has a pinched and gaunt appearance; they are weak, weary and trembling, often extremely nervous, starting at every little noise. Many are low-spirited, and some are fretful. Some are apparently bloodless, with cold hands and feet, while others are flushed by an unusual circulation of the blood, dizziness, and sometimes dimness of vision, loss of memory, and often loss of appetite and sleep, and are wearied with terrible dreams. Palpitation of the heart, nervous prostration, smothering and sinking spells, shortness of breath and the sensation of pins and needles are all indications of a weakened condition of the heart or nervous system, and should any of them be present we would strongly advise the use of

MILBURN'S HEART AND NERVE PILLS

They bring health to the broken down, energy to the weakened constitution, tone up the tired, overstrained nerves, and strengthen the weak heart.

Dr. Edward Jackson, Halls Bridge, Ont., writes: "For a year I was greatly troubled with nervousness and loss of appetite, and could neither sleep nor eat, and I was taking a few boxes of Milburn's Heart and Nerve Pills. I was completely cured and can recommend them to all suffering from the same complaint."

Milburn's Heart and Nerve Pills 50 cents per box or three boxes for \$1.25, all dealers or The T. Milburn Co., Limited, Toronto, Ont.

TUBERCULOSIS AMONG POOR. SPECIAL NURSE WILL VISIT

Two Donations to General Hospital to Provide For Out-Patient Relief.

Provision has been made by the authorities of the Toronto General Hospital for extra attendance on patients suffering from pulmonary tuberculosis, who come to the out-patient department daily for treatment. An special nurse will be detailed to visit the homes of such patients to teach the principles of good nursing, and to instruct them in the use of the inhaler, which has been placed at the disposal of the patients. This arrangement has been made possible by the placing at the disposal of the hospital of the sum of \$1000, of which is being given by a gentleman well known for his generosity in the cause of the poor, and the second sum of \$500 for M. J. Haney, (not of the trust).

WANT WORK, NOT CHARITY

Poverty Parades on Thames Embankment Display Red Flags.

London, Nov. 20.—There was another "poverty parade" on the Thames embankment today. Five or six thousand unemployed men and a sprinkling of women marched along the Thames embankment to Hyde Park, where they planned to spend the day. The parade was led by a man carrying a red flag, and the march, however, was quiet and orderly. The strong force of police on duty had little to do.

GHASTLY RELICS FOUND.

Dried Human Hands Tell Tale of Probable Indian Feud.

Los Angeles, Calif., Nov. 20.—In a letter received yesterday by George W. Knox, the father of Henry Miller and Gus Olander, who went on an expedition to Tiburon Island in the Gulf of California, nearly a year ago, he probably discovered the bones of a human being.

RUSSIA FEARS MUTINY AMONG PRISONERS OF JAPAN

Tokyo, Nov. 20.—It is reported here that Russia, apprehending a mutiny of prisoners on board the transport ship, the "Korona," which is being sent to Japan, have asked the Japanese government to convey them to the Japanese coast.

SCOTT'S EMULSION is more than a fat food.

There is no animal fat that compares with it in nourishing and building up the wasted, emaciated body. That is why children and anemic girls thrive and grow fat upon it. That is why persons with consumptive tendencies gain flesh and strength enough to check the progress of the disease.

TREATED AS DESERTERS BRITISH SAILORS WEEP

Stripped of Uniforms in Bowery Resorts Stayovers Refused Admission to Ships.

New York, Nov. 20.—About 200 sailors from the British squadron, commanded by Prince Louis of Battenberg, were missing from their ships when the squadron made ready to sail to-day. Several of those who had over-stayed their leave were turned away when they tried to board their ships. As it was within a few hours of the fleet's sailing time when they made their belated appearance, the officers treated them as deserters. The sailors wept as they were turned away, and some of them were taken from the Bowery resorts, where they had been staying, and returned to their ships.

CRUISER LENA STOOD OFF.

Warned to Keep Away From Vladivostok It Friendly to Coast.

Honolulu, Nov. 20.—It is reported that the Russian cruiser Lena, which unexpectedly appeared here, was near Vladivostok to get into wireless communication with that port, and was warned to keep away unless in sympathy with the people in their uprising against the government. It is said that the officers were divided in opinion, and that the crew was in sympathy with the uprising.
