A weak inner sole is spinal disease to a shoe. Goodyear Welt stitching forces the makers to use best leather for inner sole because its powerfully drawn stitches cut through soft material like cheese. That's one reason why the Slater Shoe is strong in the unseen, hidden parts. It's Goodyear Welted

QUESTION OF JURISDICTION.

At Present Interferes With Enforcement 2-Cent Fare on G.V. Ry.

With respect to the complaint in yesterday's World, that the Grand Valley Railway Company, was charging a three-cent fare over the twenty miles between Brantford and Galt, Vice-Chairman Ingram stated that he has had the question of jurisdiction under consideration. A general circular letter was sent out by the board to all railways, when the work of the board was first inaugurated, requiring them to comply with the act. No reply was received from the Grand Valley Road, and the question of jurisdiction came up in consequence.

Mr. Ingram said that he was aware that legislation had been sought at Ottawa by the Grand Valley Company "for the general advantage of Canada," which euphemistic phrase covers a three-cent fare. The Dominion statutes of last session have not yet been distributed, and the board is unable to say if the road is still under provincial jurisdiction of the act of 1895, Cap. 97, and the amended act of 1896, Cap. 102. Until this point is decided no further action can be taken, but it is expected to have definite information in a few days.

WOMAN'S WORLD.

THE GOLDEN LEAVES.

If my friend comes back to the bustling town
Ere the golden leaves come rustling down
How shall he see, and how shall he hear
The luring lustre of mead and mere,
And the sweetest words of the dying year?

When the golden leaves come rustling down,
Littered in amber and gold and brown,
And vine crowned autumn tricks fields and slopes
Of harvests richer than spring sown hopes.

How shall his inmost spirit know,
At gaze in the glorious guile of glow,
Of the blending of blessing and balm
and prayer
That fills and thrills and stills the air.

In the long bright glamor, before the snow?
How shall he see, and hear, and know,
If he hastens back to the bustling town,
Ere the golden leaves come rustling down?

Nursing-at-Home Mission.
Mrs. Barclay McMurrich presided at the quarterly meeting of the nursing branch of the Toronto Mission Union on Hayter-street. Mrs. McKillop of Jamaica gave an address and a graduation medal and diploma to Miss Ethel Wilkins. The reports of the secretary, Miss Sophia Robb, and the superintendent, Miss Middleton, showed that since May 27 cases have been attended, with 2022 visits made and 53 cases of night duty. Mrs. W. R. Ledger, the treasurer, reported a small surplus. The work of the branch is that of a nurses' training school, but is conducted on purely mission lines for the special benefit of the poor, and a most commendable work is thus being performed. During the summer four Church of England deaconesses took a short course in nursing preparatory to going to mission fields, one to a station in China and one in the North-west.

tablespoonfuls of sugar; over this is poured one quart of rich milk; and, if desired, a little nutmeg grated over the top. Value of Ammonia as Cleaning Agent.

At cleaning time ammonia is a great saver of labor. Its uses are many and very beneficial. To begin with two tablespoonfuls added to the bath makes hard water as good as soft, keeps the skin nice, and gives an especially clean feeling; after doing any rough or dirty work a little in the water you wash your hands in will help to keep them nice and soft. It makes an excellent silver polish, too, if mixed in equal quantities with whiting, enough to make a cream; rub this lightly on with a flannel and polish with a dry cloth. This will remove all tarnish and help to keep the silver and electroplate in good condition. It is also as effective for brass, nickel and steel. Glassware, windows and mirrors are made cleaner and brighter with less labor if washed with warm water and a little ammonia. For washing up, too, it is helpful, half a teaspoonful to each quart of water, and with this no soap or washing powder is needed. Brushes, combs, sponges, chamois leather are made clean and fresh by using ammonia in the water. In washing the leathers the great secret for keeping them soft is to leave the soap in them at the last, not to rinse it out. Ammonia in the water with which you wash carpets helps greatly to revive the color and to clean them. In the wash, if ammonia is used in the soaking water, a tablespoonful to each peck of water, as well as to that in the bath, the work will be halved, and much less soap and soda needed. When scrubbing floors and tables a little ammonia in the water will whiten them in a very short time. It is also efficacious in cleaning sinks.

INSURANCE COMPANIES LOOK ASKANCE

AT A MAN IF HE CANNOT ANSWER THE QUESTION, "HAVE YOU EVER HAD RHEUMATISM?" WITH A GOOD HONEST "NO!"
So you see how it bars happiness and comfort if you neglect the means to prevent and cure—the great

South American Rheumatic Cure

is the effective means, and while lack of provision for your "loved ones" from such a cause may be counted secondary to a life of suffering to oneself, it is one of the many sides in the study of health that we should take in dead earnest. Every disease has its symptoms—every ailment that flesh is heir to has its note of warning, and it's for us to heed or suffer the consequences; and who does not know the signs by experience or observation?—fever, chills, sweating, shooting pains, numbness, aching muscles, stiffened and swelled joints.
The great South American Rheumatic Cure gives ease from the first dose and it gently and effectually eradicates the trouble from the system. It gets at the root of the evil and it gets there quickly—most stubborn cases cured in one to three days. Influential physicians prescribe it as the best and surest cure they know of.
ALL DRUGGISTS AND MEDICINE DEALERS SELL IT.
SOUTH AMERICAN NERVINE makes blood that is poor and pale rich and red—and that means good health.

VANITY

From time immemorial moralists have railed at the vanity of woman. Here is a woman, and a beautiful one at that, who says that vanity is an imperishable instinct; that vanity, like love, is one of the great forces that makes the world go round; that to be vain is a duty to humanity and an essential of success.

It's an original view; what is your opinion? This defense of an old time sin is set forth in our new magazine—
