FUTURE OF U.S. RAILROADS.

ed States, has clear and distinct views rule in presence of the fact that its objects of merited censure, contumeregarding trust regulation. In an interview which appeared recently in The policy. New York Press, he said, in answer to the question, "What ought to be done with the trusts?"

Bring them under the law; give them the same treatment that being administered to the railroads. Up to date, I am free to say, however, the railroads haven't complained very much. Freights have not been reduced, and fares are less only in spots where states have supplied the legislation. But congress will hit the right idea by and The future of this nation is wrapped up in the transportation

get about quickly is the most important matter before the country. considers, are unsound, as purely business propositions, and should be thrown together that waste may be stopped.

I would put all the railroads into one ownership and management. Then I would provide for needed extensions, for maintaining the physical property, for the adoption of practical inventions and for an annual dividend of 4 per cent. on the stock. Freights would tumble, people could travel for a cent or a cent and a half a mile, and there would be a stable investment security for the public.

On the question of capitalization, Mr. Barber instanced the Northern Pacific United States:
