MIKEL NEW PRESIDENT OTTAWA WANTS MEETING

Ontario Municipalities Conclude Convention — Provide Work for the Legislature.

The convention of Ontario Municipalities came to a close yesterday afternoon, after a successful session. A vote of thanks was tendered to the mayor and council for their hospitality and all of the delegates were loud in their praise of Toronto. Mayor D'Arcy Scott of Ottawa, however, thought that the convention next summer should come to the federal capital. The matter will be discussed by the executive.

The same body will decide as to whether the convention will send delegates to the Canadian Union. It was objected that to send five delegates next summer to Medicine Hat would cost \$1000.

The following officers were elected for the ensuing term: President, W. C. Mikel, city solicitor, Belleville; vice-presidents, Aid. Cooper, London; Mayor Scott, Ottawa; Reeve Locke, Brampton; Mayor Kennedy, Owen Sound.

The executive committee consists of the mayors of Toronto, the mayor of Dundas, the mayor of Brantford, and the mayor of Hamilton; Controller Hubbard, Toronto; W. B. Doherty, St. Thomas; S. H. Kent, Hamilton; S. R. Armstrong, Peterborough; W. C. Chisholm, Toronto; W. A. Clark, York; W. C. VanSlyke, Warden, Wentworth; M. Black, Springfield, and all past presidents.

Mr. Mikel, the new president, is city solicitor and also city clerk of Belleville. He is of German descent, although his family have been residents of the Bay of Quinte for nearly a century. He is a prominent lawyer and active in politics, being president of the Young Men's Conservative Club of Belleville. He has been for years keenly interested in municipal matters, and is one of the hard workers of the Ontario Municipal Association.

Work for Legislature. Among the resolutions recommended for consideration by the legislature are the following: To permit municipal elections to be held on the first Monday of December. To repeal the Commence Act and to authorize municipalities to expropriate gas, light and power plants.

To exempt municipalities from liability for defective highways. To amend the Act respecting Nuisances by granting to township councils in township municipalities power to construct their public highways, and by statute law all noxious weeds on said highways in their respective divisions. This was passed at the request of Whitelock Township.

Taxation of Hospital Lands. To tax any hospital lands used for other than hospital purposes, and from which the municipality alone derives a revenue, that the municipality alone be the parties to grant leave to telegraph, telephone or other companies to place poles, rails, conduits, pipes, string wires or in any other way occupy the streets of a municipality, and that power be given to all municipalities to cause the removal of poles and wires now erected from streets doing no unnecessary damage to the property.

The resolutions to provide for the safety of buildings and the removal from streets of telegraph poles, passed. Meet me at Newcombe's Rest Room.

SKIPS QUARANTINE. W. H. Nesbitt of Eastwood Missing From Family With Smallpox. W. H. Nesbitt of Eastwood, who has for the past few weeks been in quarantine for smallpox, is missing.

Mr. Nesbitt did not have an attack of the malady, but several of his family were ill. The wife of the missing gentleman apparently knows where her husband is, but refuses to tell the authorities.

EXPERT HAIR DRESSING.

New Designs and Expert Work Assured at Pemberton's.

The part that a woman's hair plays in her general appearance is conceded by all to be of great importance, and the natural inference from this general consensus of opinion is that no wise woman will neglect anything to protect the hair she has and add to its charm, or carelessly pass over any means to restore what has been lost.

There are a whole lot of men who are bald. It may be unpleasant, but a man can put up with it, while a woman cannot. But while placed under this obligation it is an easy matter for them to obtain all the necessities at about any figure they wish to expend.

Naturally when anybody wants to replace what nature gave them, they want to get the best obtainable and make their purchases from somebody who has established a reputation for giving satisfaction to their patrons.

W. T. Pemberton, 127-129 Yonge-street, has a long established reputation as an originator of artistic hair gowns and a successful dresser of the hair and scalp. Everything in his establishment is of the latest design and the best quality. The latest is the bon ton switch and curls, which are made of natural and wavy hair of the finest texture.

The following officers were elected for the ensuing term: President, W. C. Mikel, city solicitor, Belleville; vice-presidents, Aid. Cooper, London; Mayor Scott, Ottawa; Reeve Locke, Brampton; Mayor Kennedy, Owen Sound.

THE WORLD'S HOME MAGAZINE FOR WOMEN

Edited by LAURA E. McCULLY, B.A.

On the Exhibition Grounds.

There are two things which our annual exposition is incomplete without and which nearly every woman who visits it feels the lack of. There should be a properly arranged and conducted lunch-room on a really ample scale, under the auspices of some prominent society, and there should be a place where babies or very young children could be left for short spaces of time on payment of a suitable fee, and in charge of responsible persons. How many mothers who have to escort their numerous offspring, all the way from 4 to 14, and carry a bundle, a wee baby as well, would feel the comfort of such an institution? Surely some society like the National Council of Women might take this matter up and see it put thru.

As for the restaurant facilities, really they disgrace our exposition. Visitors are compelled to find a very doubtful lunch in a tent, or at a stand, must have their own opinion of our civic arrangements. But one place at all suited to the special needs of women is the W. C. T. U. building, and it could be multiplied by ten and still be packed to the utmost.

The woman's exhibit is, as usual, devoted much too exclusively to needlework. While some of it is art, it is much more mechanical than the whole exhibit does not adequately represent the work of women in the Dominion. Where are special departments devoted to the interests of women doctors, nurses, mechanics or business women? Where does the cook, the housemaid, or the laundress come in? Certainly the women's building is devoted too exclusively to needlework. However, the lace and the embroideries are well worth looking at. Some of the finest ever exhibited here. It is pleasing to see that they take a practical turn, and that many are intended as dust-catching bric-a-brac, or scattered about an untidy dinner-table in tangled confusion. The true use of lace is undoubtedly the art of adornment of the person, and even its employment in draperies is secondary.

At the cat building the usual crowd of anxious exhibitors were foregathered, along with numbers of interested outsiders. How anxiously we looked to see if Patsy, in whose name the interest was taken, had won a prize or not! His father was a cup cat, and he himself winner of a first in the kitten class of last year's show. He was had to go with only the new black kitten for company. Dear "Little Cuss," the beauty of the Persian family, was the champion exhibitor of the last summer. Her coquettish, dainty face still looks down on us from the wall of the best room. Furzo, old campaigner with his glorious blue coat and golden eyes, was run over by a car almost two years ago, and friends ask for him in vain. Topsy, mother of many, is old and delicate, and we dare not expose her to the dangers of the show. And right here let it be said that that building is a hot spot on the grounds. It is a shame for self-respecting people to allow a building containing their pets, worth up to \$1000 each, to be exhibited in such a place. No windows open, no fans, infrequent changing of the sand in the cages, and the place is a positive danger to over-exposed animals.

Well, hopes about one's own cats were doomed to disappointment. They arrived just as the show was about to open, and the judging, and a naughty black cat who hadn't a white shirt-front, but only two beautiful golden eyes, got the prize. His tail was all alone in its class, so really it seemed too bad. Some of the cats were simply wonderful. Toy dogs, nothing else, were a pair of beautiful orange kitties of tremendous size, and with great knowing heads. A white cat took over every man's prize, and was one of the finest cat seen. He had beautiful blue eyes, pretty as a pretty girl's, and the sweetest love-me-quick monstache. His tail was a marvel of fluff and whiteness, and his blue-lined case just set him off. Then there were chinchillas, tabbies galore, kittens, many cats and short-hairs. As dinner-time came round all set up a tremendous demand for victuals. One could almost imagine that it was a miniature tiger who pined and scratched at the walls of his prison so fiercely and growled for his food.

Well, even pleasant days close, and what a rush it is for the street air! **FORGOT LETTER TO WIFE.** Dutiful Husband Cables Contents at Cost of \$212.

ATLANTIC CITY, N.J., Aug. 29.—Failure to mail a letter to his wife, who is in Vienna, cost Charles Galt, a veteran mining man, \$212 in cable tolls yesterday when he fled the letter over the deep sea lines to make up for his forgetfulness.

"I've got a letter that I forgot to mail on the last steamer," he said to the telegraph official, "and I want it sent direct thru as quickly as possible."

The operators gasped when they saw the closely written sheets, but the dutiful husband never even winced when he paid the bill.

AN AGE OF REASON. The days of mystery have passed. There must be a reason for every thing, and we demand to be shown the why and the wherefore. Secret or patent medicines must go with the other rubbish. King Palmetto Compound is not a secret remedy—the formula is printed on the label, and you can get expert advice from your physician. It will tell you that it is the most useful prescription ever prepared. Saw Palmetto for the kidneys, Caskara Sagrada, for the bowels, Couch Grass, Corn Silk for the bladder, Golden Seal and Compound Kureneal—a perfect combination. The cause of ill-health is not a mystery either, and we know we should apply our reason to our daily habits, but we do not do so. The modern struggle is too much for us. The result is a tormented liver, and a generally disordered condition of the stomach, liver, nerves and kidneys. These things lead to very serious results, and render the body a easy prey to germ-diseases, such as typhus, typhoid and consumption. The reasonable solution is to begin taking King Palmetto Compound to-day. One dose a day, and the cure begins with the first dose. It will renovate your entire system, cure constipation and indigestion, and purify the blood. Give it a trial. Write for a free sample bottle to the King Palmetto Company, Bridgeburg, Ontario.

2035—Ladies' Five-Gored Skirt. With Side Plaits at Top and Tucks at Lower Part. Paris Pattern No. 2035.

All the elements that are required to make a successful skirt are united in this charming new model. It is a skirt that is simple and easy to make, and would find its best development in chiffon, broadcloth, silk, or serge.

The pattern is in 6 sizes—22 to 32 inches, waist measure. For 26 waist the skirt, made of goods with nap, requires 13-1-4 yards, 20 inches wide, or 7-3-8 yards 26 inches wide, or 6-1-8 yards 34 inches wide, or 5-1-8 yards 44 inches wide; or of goods without nap, it needs 12-1-2 yards 30 inches wide, or 7-1-8 yards 36 inches wide, or 6-1-8 yards 42 inches wide, or 4-7-8 yards 54 inches wide.

Price of pattern, 10 cents.

What to Wear. As usual, the exhibition gives a prolonged life to the summer frocks, linens and lingerie, this season. Among the smartest things worn at the fair, scarcely any real autumn togs begin to appear. On cool days one sees the new wine reds, forest and hunter's greens, and purples on the steps of fashionable hotels, in carriages, and in the suits, but for most informal occasions only the summer dresses with occasional autumnal touches are seen.

These latter are produced by the replacing of a straw sailor or mushroom by a felt knickerbocker, or one of the wide-brimmed white felts so charmingly trimmed with carefully-knotted, fringed ribbon in patterned effects.

Country visitors in town can do nothing better than to examine the models of the large shops rather than what they see worn, before ordering a suit. Remember that the life of the bolero is nearly at an end. The Russian jacket continues to replace it almost universally. New fur jackets show this style, and very many suits of lighter silks for mid-season wear have felt attached to blouse in jumper effect, and worn over a dainty gumpie. Besides these, the coats show either of two effects. The commonest is the three-quarter or full length auto coat, very convenient for evening wear, and often semitrimmed, with tailored or very modified skirt. The other style is the skirted coat, varied to the cutaways, reaching almost to the knee, in Louis XVI style, and popular in silk and light materials as well as the heavier weaves.

Very smooth cloths should be chosen for these styles, as the rough mill dressy effect given by the deep cuff, the dainty vest of silk or satin, plain or figured, and the long sweeping

In blouses the styles are far too elaborate. This means the return of the "lacy" blouse, and is a nuisance, for what makes things at home known. However, one loophole of escape occurs. A tailored-looking English style shirt-sleeved blouse, with a wide, flat, conventional pump-bow, if it may be so called, for it is not really tied at all, but simply looped over a foundation of stiffening and basted down.

So I have been sky-prancing all night long, A-dragging car-conductors and their Clad in their laughing robes, to join the throng That makes the Car-Barn function all the hours. And say! I had a brainstorm just last trip When I took Pansy's fare from Gill the Grip.

At midnight, when I got a gasp for lunch, I rushed it for the Car-Barns to lamp And see the Creamy Charlies do the Vamp And swing their Pansy Floras in the crunch. I piped my Pansy in among the bunch And asked her would she mix it with the Champ. Wouldn't she like to join me in a stamp? She saw me first and stopped me with a punch.

I saw her hook a loop with Gill the Grip. With Pinky Smith and Handsome Hank she heeled— With all the daisy buns she took a skip. Each time the German tune-professor spied.
