THE WEATHER

Meteorological Office, Toronto, Sept. 12.

—An area of low pressure is spreading quickly to-night over the southwest and west states. Pressure continues high in the western provinces, where cloudy and cold conditions continue, with rain or snow in the southern districts. Showers have occurred in Quebec and the Maritime Provinces, while in the lake region the weather has been fine and moderately warm.

Minimum and maximum temperatures: Dawson, 48—64; Atlin, 36—64; Vancouver, 40—63; Kamloops, 46—64; Calgary, 30—38; Edmonton, 34—44; Winnipeg, 38—56; Prince Albert, 36—64; Winnipeg, 38—56; Prince Albert, 36—44; Winnipeg, 38—50; Parry Sound, 50—68; Toronto, 56—73; Ottawa, 56—68; Montreal, 54—68; Quebec, 58—64; Halifax, 60—72.

Thunder Bay Country Under Water-

Surveyor's eport.

Thomas Foster of Fort William, who has been for some time engaged it surveying lots 1, 2, 3 and 4 of the land grant, made to the Thunder Bay branch of the Transcontinental Rail-way, has written to the survey branch at the parliament buildings that rain has so constantly faller that rain has so constantly faller that rain has so constantly faller within half way to Taddert, when the during the last two months that all the level country has been under water. Each of these lots of land is 18 miles in length and 6 miles in width. He reports that lot No. 1 consists of rolling land, heavily timbered; border, with spruce, tamarack, birch, popplar and pine, and all the land over which he has gone is covered with a dense growth of underbrush.

base at Casablanca.

The first column was composed of four companies of regular infantry, several the Catholicity the hast two into a place where he to the train was just at the house, and ran to a place where he can frain to a place where he can frain to a place where he can from the train was just at the house, and ran to a place where he can frain to a place where he can from the train was just at the house, and ran to a place where he can from the train was just at the house, and ran to a place where he can frain to a place where he can from the train was just at the house, and ran to a place where he can from the train was just at the house, and ran to a place where he can from the train was just at the house, and ran to a place where he can from the train was over. He had lived there 30 years and never before thought of a wyeck.

Detective Rogers told of the Fergubation of the hought of a within half way to Taddert, when the stan can home on a freight so test. He came home on a freight so the train, which each of the house, and that the train came very respect, no sections of the church ritualistic, evan-live of a wyeck.

The carrying out of the proposed improvement and extension of the city waterworks system will not occasion any increase in the general hate of any increase in the general hate of taxation, as the additional supply of water will produce revenue more than sufficient to meet interest and sinking fund charges on the debt to be incurred.

The voting on the bylaw takes place on Saturday, September 14th, between 9 a.m. and 5 p.m. Don't fail to vote.

WATERWORKS IMPROVEMENTS.

An ample supply of water for all purposes is of vital importance to the welfare of Toronto. If this supply is withheld the progress of the city may be checked; if it is provided, danger or disaster may be averted.

The voting on the proposed bylaw the carry of the carry of the control of the control of the country surrounding Taddert became covered with smoke and flames. The voting on the proposed bylaw the carry operations.

Tried away many of their returned to The allied army later returned to The allied army later returned to Toasablanca.

During the engagement the Moors and surrounding ratotics of circling rapidly in front flar tactics of circling rapidly in front flar tactics

Shorter Hours at Kent's.

Recently a committee representing the 90 odd employes of the Ambrose Kent & Sons, Limited, manufacturing jewellers, waited upon the members of the firm with a request for the reduction of hours from 52 to 50 per duction of hours from 52 to 50 per week. To-day, the firm announced their desire to accede to this request. This generous act speaks well for the cordial relation that exists between the firm of Ambrose Kent & Sons and their employes.

Transplied mechanics, A. W. McConnell, lecturer; in drawing, T. R. Loudon, lecturer; in drawing, their employes.
