A Reasonable Idea.

Dental work divides itself into depart ments and the dentist who becomes truly expert in any one is more than apt to henestly believe in its superior value over all others. This is unfortunate for that dentist's patients—often badly affecting both his advice and work.

By employing expert dental operator work they favor and giving then only that class of work to do, our pa tients can be advised without the prejudice of unequal skill and our work per knowledge.

Sir William in Town.

Sir W. C. Van Horne, chairman of the Board of the C.P.R., is in the city. He won't talk about "business." owing to his hurry. He was interviewed by The World vesterday, with little effect. Speaking of the Dominion Iron and Steel Company, of which he is a director—a hustler in his line, as he is a hustler always—Sir William said he was only a passenger in the concern. so to speak, being only a director. But Sir William, who looks upon The World as a side show, was only joliying the young man who interviewed him. He thinks the Dominion Steel Company is the biggest thing on earth. They will, in a year's time, compete with the Carnegle works in Pittsburg, and beat the world. Sir William is pretty close when he talks to a reporter. Perhaps he shows sense, but The World will make another effort to get a story out of the great man before he leaves Toronto. It all depends on how you take him. If one man falls down, enother man may get there. See The Sunday World to-night:

Watch for This. The Canadian Institute will celebrate its 50th anniversary on Saturday evening, Dec. 9. A conversazione will be held in the School of Practical Science, at which Lord Minto and Major-General Hutton will be present.

It is the carelessness of ignoring the signal that the body is in danger of wreck. It may be that the kidneys or the stomach or the head gives the warning sign. But remember, the blood feeds every organ of the body.

Make no slip, but first tone up the system through the blood, and health will surely follow. Hood's Sarsaparilla is the best preparation man has devised to make pure, life-giving blood. It never disappoints.

better will they be able to do on the ent occasion? For it must be rememit that at the last election the Conserval did very much better than the numbe members they succeeded in electing to legislature would indicate. Though only elected six of their candidates, the were a number of constituencies in which they came within a very few votes of feating the Government.

Some Instances in Point.

For instances, the Greenway majority Brandon City was 99, in Dauphin 12, Lorne 14, in Morden 36, in Morris 124, in Portage la Prairie 11, in Rockwood 50, is St. Andrews 89, and the Greenway plurulity in Avondale was 96, in Cypress 88, in Manitou 78, and in Saskatchewan 54. In all hese constituencies a change of 10 per ent. of the electorate from the Liberal to e conservative party would have given a seats to Conservatives.

A Big Turn-Over.

cent. of the electorate from the Liberal t the Conservative party would have give the seats to Conservatives.

A Big Turn-Over.

That there has been a turn-over of a least 10 per cent. in the province during the past four years, no one can doubt. At illustration of the change in feeling which has been going on in the province was afforded by the bye-election in Turtle Mountain two years ago. There Johnson converted a Conservative minority of 23 into a majority of 150; that is to say 88 people who voted Liberal at the general election had been disgusted with the Government and then voted Conservative. That meant that about 10 per cent. of the total electorate in that constituency had changed over from the Liberal to the Conservative side. Even the change indicated by Turtle Mountain would therefore be sufficient to put all the seats just named into the Conservative column and give the Conservative party a majority in the legislature.

The Prospects To-Day.

The Reasons Are Good.

There is every reason, therefore, for be lieving not only that the Greenway Government will be defeated at the polls but that the Conservatives will be placed i power with a very large majority in the legislature. Even many old Liberals predict a turn-over which will surprise the Liberal leader as much as the great turn over of 1878 in federal politics; and maling the soberest calculations it is not a all too sanguine to anticipate that Hug John Macdonald's triumphs on Thursda next will be as magnificent as was that this illustrious father on that memorable occasion. Plenty of Money.

A Magic Pili—Dyspepsia is a foe with which men are constantly grappling, but cannot exterminate. Subdued, and to all appearances vanquished, in one, it makes its appearance in another direction. In many the digestive apparatus is as delicate as the mechanism of a watch or scientific instrument, in which even a breath of air will make a variation. With such persons disorders of the stomach ensue much suffering. To these Parmelee's Vegetable Pilis are recommended as mild and sure.
