The Solicitor stated that he had spoken to Hon. Mr. Harcourt in regard to the interpretation of the law on the question, and the conclusion arrived at was that there was nothing in the law to compel payment, yet the equities were so apparent that Mr. Harcourt thought the sum should be paid. Whilst not legally bound to pay it, judgments in law were sometimes given on equities. The Council felt that the law had better define the rights of the county in the matter.

A deputation from Markham asked that certain lands in the village, used as farm lands, be taken into the township. This matter will be dealt with on Thursday afternoon. It was urged against the reduction of the area of the village that the security of the debenture holders of the village would be decreased.

Bylaws were passed extending the time for making the assessment in York Township, also confirming bylaw No. 666 of Scarboro Township to close Con. A.

Mr. H. B. Irwin wrote, asking on what basis the \$890 grant is made to the Toronto Junction High School. The amount in dispute is \$21.99. The amount in dispute is \$21.99. The High School Board has recently purchased a piece of land adjoining the school for \$300. This they have placed to maintenance account, and asked the county for their proportionate share. The county claim that the purchase is a permanent improvement and that they are only liable for maintenance. The County Treasurer placed the estimates for the year at \$45,441.41. This will require a levy of 1.7-10ths of a mill for general purposes; \$7350.80 will be required for the Industrial Home, which will necessitate a levy of 14 of a mill. Dr. J. H. Wesley, resident physician at the Industrial Home, reported 15 deaths and much illness. In other respects the Home is in good condition.

THE BARKER-KELLER SHOOTING.

Clergyman Who Was Shot Told -Defendant Not Heard.

New York, June 18 .- The second day the trial at Jersey City of Thomas G. Barker for the shooting of the Rev. John Keller at Arlington proved an interesting one. It was full of objections by counsel and clear-cut, cold and sharp rulings by the presiding judge. Both principals went on the stand during the day. Mr. Keller told his story straightforwardly. The story of Barker was not told. The court held that Barker could not testify as to his own state of mind on the morning of the shooting, or, as Prosecutor Erwin put it, itestify to his own insanity."

Grand Lodge Met in Fifty-Seventh Since the Old One Was Smashed the Ministers of Queen's Park Have Been Kept Busy.

EVERYTHING DONE ON THE QUIET

Victoria Street Kept in the Dismal Dark.

A product of the growing time, not alluded to or described in the Liberal organs, is the "new threshing machine." It has been constructed with care and skill by experts. When the old machine went to smash, in West Elgin and North Waterloo, the construction of a new one became a paramount and pressing necessity. It was then one of the Liberal jokes that in the selection of election workers they must be able to "stand the prayer-meeting test." This proved an impossible standard in most cases, and the workers of that type were not fitted for some of the work required.

The party leaders then got on to the idea of sending men who were identified with the church yote, and others whose affiliations were of an amount of harves. the ridings where elections came on. For example, in Hon. E. J. Davis' constituency, the voters' list has been looked after by two gentlemen, one of whom is an official in a temperance organization, while the other has leave of absence until June 20 to organize the liquor vote in the contest over the local option act in Richmond County, Que-

option act in Richmond County, Quebec.

The most important difference between the old and the new machine is that everything in relation to the provincial elections is first authorized by Premier Ross, and that the organizers regularly report personally to him. Also, that the province has been divided into districts, not under professional organizers, but under cabinet ministers. For example, Hon. R. Harcourt is in charge and responsible for the organization of and responsible for the organization of the Niagara Peninsula. Not upon his personal desires, but upon the outcome of the campaign, in the general elec-tions, should the government avert de-feat, will his remaining in the cabinet depend. Other ministers have districted feat, will his remaining in the cabinet depend Other ministers have districts to look after. The organizers do not, as in former times, look to the officers of the Reform association for their instructions, but they get them direct from the ministers in their private offices at the Parliament Buildings.

While the government denies the proximity of elections and bluffs at being full of courage, the members of the cabinet are so fearful of the opposition that they conceal from their party friends in Toronto dates of meetings, which they are to about address, while that they conceal from their party friends in Toronto dates of meetings, which they are to about address, while having them worked up in remote lo-calities, for fear that their opponents might learn of them in time to make early dates for meetings to expose their fallacies.

The cabinet ministers have become an organization committee, with Premier Ross as chairman, and Hon. J. R. Strat-Ross as chairman, and Hon. J. R. Stratton as secretary-treasurer. In consequence, the old threshing machine office in Victoria-street has dwindled down to a mere letter-writing and enquiry bureau, at which second-hand election news is peddled out, and which serves as a blind to divert attention from the real campaigners in the Park.

Secure Relief in 10 Minutes

And a Radical Cure.

Does your head ache? Have you pains over your eyes? Is there a constant dropping in the throat? Is the breath offensive? These are certain symptoms of Catarrh. Dr. Agnew's Catarrhal Powder will cure most stubborn cases in a marvelously short time. If you've had catarrh a week, it's a sure cure. If it's of fifty years' standing, it's just as effective for the standard in neglecting a cold. Many who have died of consumption dated their troubles from exposure, followed by a cold, which settled on their lungs, and in a short time they were beyond the skill of the best physician. Had they used Bickle's Anti-Consumptive Syrup, before it was too late, their lives would have been spared. This medicine has no equal for curing coughs, colds and all affections of the throat and lungs.
