WINE GROWING IN ONTARIO. wholesome drink for all the people o

The World believes that claret is a bet ter everyday beverage than beer or tea. The World believes that such a claret, and Duchess of Cornwall and the vin ordinaire of France, the claret of California, can be produced in Ontario Such a claret is grape juice and nothing else. It carries a small percentage of alcohol. Se do many other things. But

> But such claret, to be palatable 365 days in the year, wholesome and of keeping quality, must be made from certain grapes, must be converted into wine by proper methods, and must be handled thereafter

it is in no sense the alcoholic beverage that

on scientific principles. These three things, grapes, pressing, perts. They have been ascertained for all troubles which combine with Asthma. Its success is astonishing and hundreds of years in France, they have wonderful. been ascertained in California in tario in five years by a proper policy, carried out by the local government. As we said Saturday, \$20,000 a year spent on ex-

this province and what part the government ought to take to bring so desirable

this business. We're going into it more extensively and more thoroughly. As we have a line of Stoyes and Ranges we thoroughly. As we have a line of Stoyes and Ranges we believe discount anything you see on the market for the money, we are inclined to swing out a bit and give their merits wider circulation.

Our Royal Alexandra Range

That's the name of Canada's newest and, we think, best range. At any rate we're willing to let you make comparisons with all comers and judge it on its own merits.

We think it is the best because of the following special features:

(2) Its oven is venitated with diffusive flue.

(2) Its oven is venitated with diffusive flue.

(3) The fire-box is accurately proportioned.

(4) There is a draw-out own rack.

We shave a line of Stoyes and Ranges we ferred to some of the objectionable features; the Minister of Publication of the Company was held on sept. 16 last and a very flattering statement was presented to the shareholders by the president. Few street rall-way can show a better year than that of the Toronto Railway Company in its see how Hon. Mr. Tarte-can refuse to a code to their request. It is public money that it is proposed to spend in the erection is necessary in the public interest, as well as to free from suspicion the innocent members of the Harbor Board, for the boodling, it was a sufficient to allow an increase in the dividend from 4 to 5 per cent. The sum of \$300,000 was set aside for dividends and a handsome sure. plus carried forward. But the coming fiscal year, or rather the current year, promises to prove even more satisfactory.

The Globe, in its report of the annual rock and Column that the crews of Sham-

The Globe, in its report of the annual meeting, says that the earnings of the company for the current year, according to the current year company for the current year, according to the present traffic basis, will be \$1,700,000; operating expenses slightly under 50 per cent., say \$850,000; city's mileage and recentage \$218,000; interest charges, \$150.000; and available for dividends and reserve \$480,000. This, to be sure, is a magnificent showing—one of which any company might be proud. What the company is working up to this year is to get its operating expenses below 50 per cent., and to reach \$480,000, practically half a million, as a high water mark for dividends and reserve. That the company of the company for the current year, according to the sacted upon. A series of races with the crews exchanged would prove as interesting as the races for the cup have been. There is little doubt that habitual experience of weather possibilities and probabilities was to the advantage of the defending crew in American waters, the same as would be the case were the order reversed and an American waters, the same as would be the case were the order reversed and an American waters. In view of the closence were the order seversed and an American waters. In view of the closence were the order seversed and an American waters. In view of the closence were the order seversed and an American waters. In view of the closence were the order seversed and an American waters. when it is done Ontario can supply all Canada, the Mother Country, even beat out France in the production of everyday claret. What California has done Ontario can do. Every state of the Union and Europe are now becoming tributary to California for grapes, and the juice of the grape turned into wholesome claret.

DR. TAFT BROS. Medicine Co.:

Gentlemen,—I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the past 12 years. Having exhausted my own afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York. I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease. DR. TAFT BROS. MEDICINE Co.:
