The Mackenzie and Mann interests have practically a right of way alongside the C.P.R. right up to Yonge-street. Everyone now admits the need of a high level viaduct from the end of Bloorstreet across the Don to Danforthavenue, so as to let a new development come in that direction. The new Grand Trunk line from the Belt line will cross the Don on the high level near Todmorden, and make straight for Little York or East Toronto, with a lot of yards and sidings on the plains all the way from Todmorden to East Toronto, over two miles.
