

Sabbath School Report.

The condition of the School, numerically, both as regards Teachers and Scholars, differs but little from that reported a year ago. We should have more boys in the School, and more men to teach them. Outside of Elders, we have but three men teachers, two less than last year. Men are needed for this important work, and we trust this year will develop a few volunteers. The Superintendent of last year, retiring, bespoke for his successor, and for his companions in the work, more countenance and more encouragement from the brethren at large. We fear that this desire of his has not been realized—that is, if we judge by attendance at our reviews, these being the opportunities on which interest in our work may be manifested.

In contributions the congregation has been less generous than last year, and this year we have been compelled to authorize ourselves to use one-third of the Sabbath collections, if need be, for the payment of our current expenses. No provision having been made by the Music Committee for either Organist or Leader in the praise services of the School, we have been much indebted to Miss Stuart, Miss Addison and others for kind services, and take this opportunity of acknowledging our gratitude to these friends, and at same time express the hope that this matter will not again be overlooked.

The Teachers' meeting for the study of the lesson is now held weekly, and is fairly well attended.

A. W. LEITCH,

Superintendent
