SUPERIOR PAINLESS DENTISTRY!

"There is a world wide cry against the dentists that they torture their patients. Those of strong physique submit and endure the agony. With a second class this is simply impossible, and thousands of teeth are neglected and lost even though the patients may be able to pay for our most skillful services. Then there is a third class who, after months of mental torture in anticipation, finally come into our hands, and, with nerves strung to a painful point, pass through the ordeal, but at what a cost! We do not sufficiently consider the consequences of shock in the dental chair, yet undoubtedly many suffer for months and even years from injuries to the nervous system received whilst in our hands.

The greatest duty of our profession today is to discover and adopt a mode of painlessly performing our operations."

NOTE.—The above is an abstract from a paper read by an eminent dentist of New York City before a society of dentists in Philadelphia. The famous Hale Method of painless dentistry, for which we are sole agents for Canada is the best Method on earth.

"THE CREED OF CHRISTENDOM"

The following letter from Goldwin Smith appears in the Catholic Register:—"Sir,—I have read with special pleasure your words of sympathy on the death of my beloved wife, coming, as they do, from a Catholic source. Believe me, I am no enemy of Catholicism, whatever my feelings may be as to some things which have adhered to it, and which, in my eyes, are rather ecclesiastical than religious. Some of my dearest friends, and the objects of my sincere respect, have been Catholics. Christendom, all Christians alike, Catholic or Protestant, desire in its hour of peril to preserve; and the character of Christ, in my belief, is the creed of Christendom.

"Faithfully yours, Goldwin Smith."

NEVER SO MANY DOG LICENSES ISSUED HERE

Money Still Coming In at City Hall, and Total of Dogs Will Like to Reach 1,500

The number of dog licenses issued this year is considerably in excess of any previous year. Up to date the total number issued is 1423. Of these more than 100 were double rate \$2 for dogs and \$4 for bitches, owing to the fact that the owners did not get the necessary document until after July 1. In the past ten days, as a result of "dog day" at the police court, seventy-five licenses were issued at the \$2 and \$4 rate and a number of those summoned left their license fee at the police court and licenses will be issued later.

The largest number of dogs licensed in any previous year was in 1908 when 14,000 canines were registered. This year's total is likely to be in the vicinity of 1500 as it is said other licenses will have to be taken out after the summons returnable next Tuesday have been dealt with.

Among the delinquents who called at City Hall this week to get their licenses was a colored man who, when asked how many dogs he had, replied, one dog and two bitches. When he learned that it would cost him \$10 for their tags of respectability, he quickly decamped without waiting for the license. It is probable he will give them up before the second "dog day" comes around.
