REPORT OF DISTRICT VISITORS' SOCIETY.

This Society has done valuable work during the past winter, in visiting, tract distributing, and bringing to the notice of the clergy the poor, the sick, and the indifferent. Many faithful workers have been laid aside through illness, and have been much missed in their districts. The kind enquiries made and the anxiety felt for the sick visitors by those they are in the habit of visiting, prove so well how much their visits are appreciated, and their absence felt.

The unusually large attendance at the Wednesday evening service is to be attributed to the activity of the district visitors. We pray that Almighty God will dispose the hearts of more of the congregation to engage in this work.

St. James' Home and Foreign Mission Society Report, 1885-6.

We are come to the end of another year, when we are called upon to look back and see what we have done. We realize that it is the Master Himself who gave to us, as a society the great missionary charge, to go into all the world and preach the Gospel to every creature. Therefore it is to Him first that we make our report, and what He will think of it, is of greatest moment.

What then have we done? A missionary meeting has been held each month, with a view to having accounts of the work, which is being carried on in various mission fields, and so increasing our interest in them. Letters have been read from missionaries in the North-West, from the ladies who work in the Zenanas of India, and from other scenes of missionary labour. Assuredly there is no decrease in the interest of their accounts or in the urgency of their appeals for workers, and for help of all kinds, even for garments to cover the poor shivering creatures around them. Some of these appeals when printed have touched other hearts than ours, and
