

Kaiser Ordered One In Every Seven Naval Mutineers To Be Shot

A revolutionary outbreak on the German warship Westfalen about six weeks ago, is reported in a Central News despatch from Copenhagen. This uprising is said to have had all the elements of a widespread and organized revolt, and to have been suppressed only with the greatest difficulty.

Several mutinous outbreaks also are reported to have occurred among soldiers at the front. These were not of such a grave character, the despatch adds.

Amsterdam, Oct. 10.—A mutiny is reported to have occurred on the German warship Nurnberg which was at sea. The men seized the officers and proceeded in the direction of Norway, with the intention of being interned.

The Nurnberg was overtaken by destroyers and forced to surrender. Emperor William went to Wilhelmshaven and ordered that one out of every seven mutineers be shot. Chancellor Michaelis protested, with the result that only three were shot. Heavy sentences were imposed on the others.

Emperor William's visit to Wilhelmshaven, in company with Chancellor Michaelis, was made after the mutiny had been suppressed. The chancellor's objections to the emperor's order that one mutineer in every seven be shot, was on the ground that he could not assume such responsibility before the Reichstag.

One of the reasons for the mutiny was bad and inadequate food. The Westfalen is a battleship of 18,600 tons, built in 1906. The Nurnberg is a new vessel and is not listed in the latest naval records. She is a namesake of the cruiser Nurnberg, of Admiral Von Spee's Pacific squadron, which was sunk at the time the squadron was destroyed by the British in the battle off the Falkland Islands, in December of 1914.

Fine Show in St. Andrew's Rink Draws Many Admirers—The Prize Winners

The ninth annual bench show of the New Brunswick Kennel Club opened yesterday afternoon at St. Andrew's rink. The show this year is being held under the auspices of the Loyalist Chapter, I. O. D. E., and the patrons include Lieut.-Governor Ganong, Hon. Walter E. Foster, Mayor Hayes and the Earl and Countess of Ashburnham, of Fredericton.

More than 200 entries, including several from the upper provinces, were received and some very fine specimens of dogs are included in the exhibition. In addition to the dog show a cat show is being held in one of the ante-rooms of the rink. There are less than twenty cats entered in this show but those on exhibition are beauties and make a very creditable showing.

The I. O. D. E. are conducting refreshment booths and games in connection with the show and each night a door prize of \$5 will be given to the holder of the lucky ticket.

The energetic show committee for this year are doing everything to make the affair a success. LeBaron Wilson is the chairman of the committee and he has the assistance of H. Mont Jones, president of the club; W. C. McKay, Bliss A. Smith, J. V. McLellan, Chas. Conway, George Gray and Robt. B. Lansey.

The Time Has Come to Deal With Corns in a Scientific Way. Let An Expert Deal With Corns. Ask who makes it before you use a method for ending corns. Harsh methods are not sanctioned now. Mussy methods are unnecessary. Soreness never need occur. Blue-jay was invented by a chemist of high repute. It is made by a concern of world-wide fame as a maker of surgical dressings. Its action is gentle and results are sure. It acts on the corn alone, not on the healthy tissue. Apply it as you wrap a cut finger. That's all in all. BAUER & BLACK, Limited, Makers of Surgical Dressings, Etc., Toronto, Canada. How Blue-jay Acts B is the B&B wax, which gently undresses the corn, usually in twelve to 48 hours to end the corn completely. C is rubber adhesive which sticks without wetting. It wraps around the toe and makes the plaster snug and comfortable. Blue-jay is applied in a 15¢. After that, one doesn't feel the corn. The action is gentle. So the corn disappears without soreness.
