W. H. MACGORMAN DIES IN LACHINE

Was Prominent for Years in Mission Work in St. John.

Friends throughout the city will be shocked to learn of the death of W. H. MacGorman, formerly of St. John, who passed away in the General Hospital at Lachine, Quebec, after a short illness following an operation. Mr. MacGorman will be best remembered for his mission work here, to which he devoted his energies with great zeal, in the effort to reclaim those who had gone astray or to make religion something vital in the lives of those who were beset by temptation. His first mission was in Prince die Row, and later in Prince Edward street, which was known as the City Mission. For many years Mr. MacGorman was employed in the blacksmith department of the St. John Iron Works, and was of late superintendent of the forge department of the Dominion Bridge Co. at Lachine. He was a member of the German street Baptist church of this city. Mr. MacGorman is survived by his mother, who lives in this city, and by his wife, three sons and one daughter who live in Lachine, and one son Rev. John R. MacGorman of Mahone Bay, N. S. There are also one brother, John R. of this city, and three sisters, Mrs. R. Barr, Mrs. Alex. Ranganathan and Mrs. Robert Wilson, all of this city. Mr. MacGorman was not an old man, and the news of his death is a terrible shock to all his relatives and friends.

N. H. S. LADIES IN ANNUAL MEETING

Membership Roll Has 248 Names—Lecture Plans for Season.

The annual meeting of the Ladies Association of the Natural History Society was held this afternoon at the Natural History rooms with Mrs. M. E. Lawrence, the president, in the chair. The reports of the year's work were read and the president addressed the members outlining the plans for the coming year's activities.

The report of Mrs. R. B. Rankine, secretary-treasurer, showed a few additional names on the membership list to balance those lost through death and removal. The present membership is 248. The report showed four meetings of the executive held during the season and also outlined briefly the activities of the association during this period.

It was decided that the lectures this year would be held monthly the same as last year. The opening of the Kate M. Mathew Memorial Lecture Course, as it is called, will be given by Mrs. Ayscough, of St. Andrews, on "Symbolism of the Purple City, Pekin." This course of lectures will be continued until next April. It was decided to do away with the book of tickets for this course and issue a season ticket for the entire course.

The report of the treasurer showed that \$88.75 was received last year from the lectures and the expenses were \$40. The election of officers was to take place at the meeting this afternoon.

HOME FRONT U. S. Frank Coleman, employed in the C. N. R. ticket office, and C. N. R. Pullman Walter L. Young, returned today after a two week's vacation trip to Toronto and New York. While in the latter city they saw one of the world's series games. Both men reported that the fans in New York seemed to be pulling for Washington to win. They also said that the chief topic of conversation in Gotham was the baseball scandal and added that the consensus of opinion among the fans was very much in favor of the Yankees. There was more behind it than had come to the surface as yet.

SCHOOL MATTER TO BE DISCUSSED TOMORROW NIGHT

Fletcher-Peacock, Architect and Engineer to Meet With Committee

The matter of a vocational school for St. John will next come up for discussion tomorrow evening at a meeting of the vocational committee and it is expected that at that meeting there will be an interesting discussion.

Among those who will be present at the meeting will be Fletcher-Peacock, provincial director of vocational training, F. Neil B. Peacock, architect for the building, G. G. Murdoch, civil engineer, in addition to the members of the committee.

One of the matters to be discussed will be the cost of making a playground for the school on the site and the cost of a quarter of mile of street and water and sewerage and Mr. Murdoch will be asked for an opinion on these matters.

Dr. Curran, chairman of the school board, said this morning that nothing would be done in regard to expropriation of the proposed site until after the meeting on Wednesday evening and until after that meeting he had nothing to say on the subject.

MAKES ANOTHER HARBOR RESCUE

John W. McCaustland Figures in Saving Geo. Coggin Near Navy I.

A narrow escape from drowning occurred yesterday when George Coggin, a resident of the West Side, was rescued from the harbor by John W. McCaustland, 121 Queen street, West St. John. The accident took place near Navy Island where Mr. Coggin fell from his boat. He was clinging to the side of it, exhausted, when rescued by Mr. McCaustland. He jumped into a boat and assisted by two others who were in the neighborhood, rowed out and got Mr. Coggin into the boat. The latter would not have been able to cling much longer to the side of the row boat. Mr. Coggin, who is about 65 years of age, had recovered today from the effects of his plunge into the harbor.

This rescue is the fourth that Mr. McCaustland has made during the last few years. A few months ago he rowed out and saved three boys who were drifting into the harbor on a raft; about two years ago he saved a boy named Dupluis who he fell off of a wharf while fishing, and six or seven years ago he saved a lad named Bissett.

As Hiram Sees It

"Hiram," said The Times reporter to Mr. Hiram Hornbeam, "what do we need in this town to put new heart into the people so that they will face the future with faith and courage?" "Tell 'em they haint got nothin' to live fer," said Hiram. "Tell 'em times is hard an' gittin' harder. Hey it pointed in the papers as a warnin' to every other town not to spend a dollar. If I'd do that long enough an' hard enough you'd hev the hull town on its toes yellin' fer progress an' braggin' about what a live town you got—yes, sir." "You are quite sure that is the best way?" queried the reporter. "Well," said Hiram, "that's the way to make the grass grow in the street—an' then Doc Frink won't hev to do no more payin'. Aint that economy?" "No need of it," said Hiram, "when you kin raise grass. An' see what you'd save—these hard times." "Thank you," said the reporter. "You're very welcome," said Hiram. "I always was an economical cuss."

DRESS WELL AND SUCCEED

Why dress well? Because it is a well known fact that the right clothes give a man more confidence. He is more likely to go places and associate with people when he is properly dressed than he otherwise would—his appearance gives him confidence in himself.

While it is admitted that clothes really do not make the man, still they have a lot to do with assisting his natural abilities, and helping him climb the ladder of success.

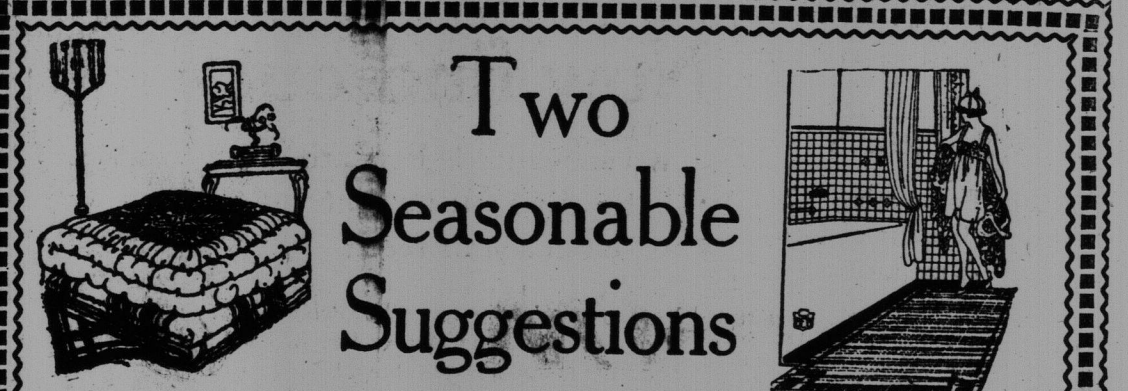

And yet it is not an expensive proposition to be well dressed. It is simply a matter of showing sound judgment in selection; to select clothes that are of a becoming pattern, that have the right style, and that have the interior workmanship to back up their appearance.

Clothes that for the past thirty-five years have been assisting men to climb the ladder of success are surely worthy of your careful inspection. Such are "Scovill's Clothes."

Come! Judge for yourself.
