THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, MARCH 3, 1921

HE HAD TO BE PROPPED UP IN BED ON PILLOWS

Wagner Was Afraid to Sleep
on Account of Awful Choking
Spells — Tanlac Completely
Restored Health —
Gains 27 Pounds.

"I was flat on my back and hadn't been able to do any work for four months when I began taking Tanlac, but that medicine completely knocked out my rheumatism and I felt like a new man. I gained twenty-seven pounds," was the remarkable statement made by Frank Wagner, Cap. Madeline, Three Rivers, P. Q. Mr. Wagner is a well-known mechanical engineer associated with Geo. A. Fuller, contractor. Mr. Wagner continued:

"I never thought I would endorse any medicine, but since my experience with Tanlac I've changed my mind and it would be wrong for me not to speak out. There are many who need this medicine just as I did. My troubles started with my stomach. Everything I ate disagreed with me and bloated me up so that I had awful choking spells at times. "At night I was afraid to lie down and would have to be propped up with pillows to get any rest at all. The rheumatism got me in its clutches and in a short time made me as helpless as a baby. My hands and wrists were so swollen and hurt me so I couldn't raise my head. I had to have my face washed, my hair combed and be shaved. I could do none of these things for myself. I suffered so much I often wished I could die so as to end my misery. "I was apparently beyond all hope when I started on Tanlac. It acted more like magic than medicine. First, it gave me an appetite, then toned up my stomach and finally completely knocked out every trace of rheumatism. It put me back to work feeling fine. It people knew what I went through with and what it did for me the laboratory couldn't supply the demand. Tanlac's equal certainly has never been made. "Tanlac is sold by F. W. Munro, and The Ross Drug Co., L. C. Allingham, Campbell, N. B.; T. H. Wilson, Fairville, N. B. (Adv.)

ELECTED OFFICERS.

The Women's Auxiliary of the Church of the Good Shepherd in Fairville at its annual meeting yesterday afternoon found that it had met all of the pledges of the year and decided to increase some pledges. The year was a very successful one. Mrs. Amy Bender, the president, was in the chair and the opening devotional exercises were led by the rector, Rev. W. P. Dunham, who spoke on "Duty." A very pleasing incident of the meeting was the presentation of a new surplice to the rector, which gift was gratefully received. The election of officers resulted as follows: Honorary president, Mrs. W. H. Dunham; president, Mrs. Amy Bender; first vice, Mrs. R. Dole; second vice, Mrs. R. J. Barlett; secretary, Miss Charlotte Spiller; treasurer, Mrs. C. H. Hill; C. D. treasurer, Mrs. T. Mitchell; Leaflet secretary, Mrs. William Grier; Dorcas secretary, Mrs. A. McGuire; delegates to the annual, Miss Spiller as president's substitute, Mrs. Dole and substitute, Mrs. Hill.

DO NOT WANT WOMEN ON JURY

Storm of Discussion Regarding
Women Taking Part in
Divorce Proceedings.

London, Feb. 14.—(Associated Press by Mail).—A storm of discussion both commendation and condemnation, has swept through London newspapers as the result of the innovation of having women serve with men as members of juries in divorce cases. The first mixed jury to sit in the London divorce court has been unable to agree on a verdict and been discharged after hearing the case for four days. In the comment on the proceedings, newspapers editorialized and contributed communications of readers have discussed principally the propriety of obliging women members of the jury to examine all the evidence submitted. In this case counsel for one of the parties to the action announced that he had evidence to submit which he did not consider it proper to place before the jury. The judge said he was helpless in the matter, but ultimately only the men jurors examined the evidence.

Sir Edward Marshall-Hall, counsel for one of the parties, said that was the first case he had ever conducted before a mixed jury and that he hoped he would never have to deal with a case of such a nature again. "It is undeniable that there are many cases in which the assistance of women will be of the greatest value to the court," said Sir Edward, "but there are other cases in which, from the nature of the evidence which will have to be discussed before the court, it is undesirable that they should serve."

Sir Edward's comment evoked a hot fight from George Bernard Shaw, playwright, who writing to the Daily News "as a member of the male sex," took issue with the views of the barrister. "Sir Edward Marshall-Hall's assumption that his sensibilities in this matter are less delicate than women's is not only unfounded but extremely offensive," wrote Mr. Shaw. "Why in the name of common sense do this crushing barrier to the sex which is the most important in the law, he thought it necessary to make for presenting them (some of the exhibits in the case) to the six jurywomen."

DEALERS MAKE BID TO SPRING BUILDERS

Lumber Distributors Cut Price
of Flooring and Call It
"Last Straw"

Price Shrinkage Ending—
Sand, Stone, Plaster Blocks,
Lined Oil Come Down—
Autumn Prices Compared.

With the spring building season only half a month away material dealers are announcing further price cuts. They are based upon a bid for a prompt market. Latest reductions show \$5 to \$10 drops in flooring in the yellow pine, oak and maple departments, another sharp decline in linseed oil, a shifting in some building materials downward, a readjustment in plaster blocks and a drop of twenty-five cents a cubic yard in the price of building sand. The first change of any kind that has been reported in this department since last summer. The change has not so far affected gravel or grit. Granite and some of the building stones are quoted at prices much lower than were ruling last autumn.

The major reasons now control price reductions, apparently. One is a frank bid for new spring construction work to make an early start. The other reason is to clear the way for spot building material purchases recently made in anticipation of the year's market requirements.

The only basic departments in which price reductions have not occurred since last autumn are gravel, grit, hollow tile and crushed stone, all of them concrete ingredients excepting hollow tile. In some of these items spring price adjustments have been made. The items quoted represent only a part of the building material market. Sharp reductions have been made in glass, both plate and window, hardware, pipe and white tile. Some items in the electrical equipment department, such as glass, and there are indications of other lines following this lead, as oak lumber already has done.

In some departments, such as cement, for example, an increased demand, causing heavier volume of output, will have a tendency to further cut the cost of the material.

The wireless direction-finding station for finding vessels at sea has been officially opened at Red Head by the radio-telegraph branch of the naval service on Tuesday, March 1.

The station is expected to be of great assistance to navigators and already the masters of several ships that have come to St. John have given testimony of the accuracy of the bearings sent out from Red Head. The new station is expected also to be of value in reducing the probability of fatalities at sea.

By means of wireless messages sent out from the station a vessel at sea may obtain its bearing from St. John and by getting a similar bearing from one of the other stations along the coast, the master of the ship can determine his position on the ocean.

The direction-finding station consists essentially of wireless receiving and sending apparatus. The receiving equipment at the Red Head station includes the latest type of direction-finding gear and a Marconi seven-valve amplifier. By means of this amplifier sound may be made seven times more intense than the sound received in an ordinary commercial wireless station. The receiving apparatus has an almost unlimited range. There are three different receiving sets at the station.

The sending equipment consists of a six horse-power gasoline engine belted to a dynamo and a 60-cycle alternator. It develops two kilowatts. An ordinary telegraph key is used to send the messages. The transmitter has a range of about 200 miles.

A peculiar characteristic of wireless sending apparatus is its greater range by night. The transmitter at Red Head will send from two to three times as far by night as it will by day. According to the men at the station this feat has never been accounted for.

There are four aerials at Red Head set in exact relation to the four points of the compass. The aerials are all con-

FACE WAS FULL OF PIMPLES

For Three Years, Hard and
Awfully Sore, Disfigured,
Cuticura Heals.

"I had been suffering with a pimply face for three years. My face was full of pimples and they were hard and awfully sore. They festered and dried up, and were scaly, and disfigured my face. They caused me to lose a lot of sleep, and were awfully itchy, making me scratch and irritate my face. "I started to use Cuticura Soap and Ointment and I used two cakes of Cuticura Soap and two boxes of Cuticura Ointment when I was healed." (Signed) Clifford Yeomans, East Chesham, N. S.

Use Cuticura for every-day toilet purposes. Wash with soap, scrub with Ointment, dust with Cuticura. Soap 25c. Ointment 25c. and 50c. Sold everywhere. Write for literature to: Cuticura, Limited, St. Paul St., Montreal.

Cuticura Soap shares without cost.

of the commodity to the consumer, while in other departments, such as lumber, a heavier demand will mark the end of the downward run in prices. Dealers price changes may be expected to continue until June 1, but purchasers who have been shopping and studying the actual conditions controlling manufacture and distribution have become aware of the existence of a more active potential spring buying movement.

BEWAIL SLUMP IN RECEIPTS

Proprietors of Fashionable
Hotels and Restaurants Say
They Are Fifty Per Cent.
Below Year Ago.

London, Feb. 14.—(Associated Press, by Mail).—Proprietors of fashionable West End hotels and restaurants are bewailing the slump in their receipts which they declare has taken place. "We have the same number of people dining each night," said the manager of one of the best known restaurants, "but our receipts are 50 per cent below those of a year ago. The difference," he added, "is chiefly due to the fact that during the war, and before the war, it was customary for a small party here to have a mug of champagne, and a bottle of wine, and a bottle of Chablis or some other wine which costs much less than champagne."

"So far as the greater expense," said a famous bon vivant, "it must be admitted that dining out is not so pleasant as it used to be. The restaurants where there used to be refinement and charm, not only in the surroundings but in the people themselves have been invaded by a new type of diner. "The conversation and behavior of the people themselves have rather vulgarized some of the best restaurants and the old frequenters prefer to dine at home or at their clubs. Two nights ago, for example, I was dining at one of the most fashionable and refined of London restaurants dining with his serviette tucked all around his collar. That sort of thing rather spoils the charm of dining out for patrons of the old school."

"So far as the best brands of champagne are concerned the sale is dead," said the head of a large firm of wine merchants in Pall Mall. "We are selling very little champagne to our private customers who are instead drinking port, cherry, maraschino and claret. Foreigners, however, still buy champagne. They could when it could be had at from eight to nine shillings a bottle, but now, with increased taxes and high prices generally, they naturally fight shy of paying from sixteen to twenty shillings for a bottle of champagne, which is now demanded of them."

The importance of religious education and need for co-relating it with secular education was expressed in the following resolution adopted today:

"In view of the dependence of democracy upon religion, and the attacks to make all character and planting are governments alike are being subjected by radicals and by the emissaries of nations now under radical control, it is the duty of all churches, irrespective of creed, to unite in an effort to make religious education more moral and efficient, to emphasize democratic elements in religious instruction with elementary public school education helpful to religion. It is the duty of the public school authorities to emphasize all non-religious elements in instruction which tend to make religious instruction more intelligent."

Little Tommie Brown was always interested in his new little baby sister. One day he stood peering down upon it, while the nurse was singing it to sleep.

"Nurse," he whispered at last, "she's nearly unconscious, isn't she?"

"Yes," nodded the nurse, and continued singing the lullaby.

But Tommie whispered in alarm!

"Then don't sing any more or you'll kill her!"

line effect to offset the acid condition. This you get from one or two Stuart's Dyspepsia Tablets.

Relief is usually very prompt. The regular use of these tablets after meals gives the stomach and small intestine substantial help to digest food and you will then be bold enough to eat baked beans, fried eggs, sausages, buckwheat cakes and many other things you thought would make your stomach miserable. Get a 60 cent box of Stuart's Dyspepsia Tablets at any drug store and find that they eat whatever you like and are fortified against the acid, sour stomach due to indigestion or dyspepsia.

A CASE WHERE
DOCTORS AGREE

Medical Science Practically Unanimous
As to Treatment of Colds.

Doctors are practically unanimous that the drugs which should be used in the case of colds are aspirin, phenacetin, quinine, salol, caffeine citrate and eucalypti monobromate. This combination may safely be trusted in the treatment of colds or a case of grippe, and the work it does is quick and effective.

Grip-Fix, a preparation now on sale at all drug stores, is a combination of just the ingredients advised by physicians for effective results. Grip-Fix has a record for relieving a cold in a night and even a case of grippe in forty-eight hours. With a box in the house, Grip-Fix is a full safeguard against any outbreak of colds. Be sure you get the genuine Reid's Grip-Fix with the formula printed on the box. It sells for 35c.—a small price for a remedy so effective for colds.—(Adv.)

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the callosities without soreness or irritation.

SUFFERED DAY AND NIGHT

The Tortures of Dyspepsia
Relieved by "Fruit-a-Lives"

Little Bras D'or, C. B. "I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. Finally, a friend told me to try 'Fruit-a-Lives.' In a week, the Constipation was corrected and soon I was free of pain, headaches and that miserable feeling that accompanies dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous." ROBERT NEWTON, 50c. a box, 6 for \$2.50, retail size 25c. At all dealers or sent postpaid by Fruit-a-Lives Limited, Ottawa.

nected with a central mast 120 feet high. Great care had to be exercised by the engineers in placing the aerials in the proper alignment.

The Red Head station is in charge of George Harris and he is assisting him four operators, W. S. Armstrong, James Craven, J. A. Yearwood and G. B. Garde. One or other of these men is on duty all the time.

ATTACKS IMMORTAL ART.
Dr. Van Dyke Also Tells Educators
That Demon Invented Jazz.

"From some plays one sees each season in New York one might infer that there was only one companion of the seventh, and mankind knew not of pleasure, breaking it," Dr. Henry Van Dyke, Princeton University professor, last week in the convention of the Department of Superintendent of the National Education Association at Atlantic City. He said immortal art was the most evil influence in the world.

"Art for art's sake," a plea for its degradation, asserted Dr. Van Dyke, and the divorcing of art and morals will leave the world as ruined as though it had been gone over by the German army or cursed with an Egyptian plague," Jazz music was characterized by the speaker as "invented by demons for the torture of imbeciles."

"Much of the nudity in art has done less harm than the language in which it is described," he remarked. "We must exclude deadly art as we would deadly weapons. But we must not rely on law to make people virtuous. This must be a matter of spirit. What we need is a moral sense not subject to sleeping sickness and not more statues."

The highest element in art, in Dr. Van Dyke's opinion, is the moral element. "The best things we can produce are those which make people stronger as well as happier. "But short-haired women and long-haired men who say good and evil have no meaning in art are wrong," he said. "The best things we can produce are exempt from the moral law, that they only have to be beautiful, are mistakes."

"Good music is caused by and fosters high emotions. It is hard to have high thoughts to jazz. The glimmering of his inner thoughts or the miser of his gold and produce real music, but the patriot can sing of his religious education and need for co-relating it with secular education was expressed in the following resolution adopted today:

"In view of the dependence of democracy upon religion, and the attacks to make all character and planting are governments alike are being subjected by radicals and by the emissaries of nations now under radical control, it is the duty of all churches, irrespective of creed, to unite in an effort to make religious education more moral and efficient, to emphasize democratic elements in religious instruction with elementary public school education helpful to religion. PLAN MARITIME AIR PROGRAMME

(Canadian Press Despatch)
Halifax, N. S., March 2.—At Government House today a meeting was held of the executive committee of the maritime branch of the Canadian Air Force association, with the Lieutenant-Governor, honorary president, in the chair. Those present were: Flight Lieutenant L. E. D. Stevens, of Truro; Flying Officer P. S. E. MacRae, of St. John, vice-chairman; Flight Officer H. R. Stewart, of Charlottetown, secretary; Pilot Officer H. H. Whitlock, of Charlottetown; Pilot Officer A. E. Stephenson, of St. John, and W. H. Dennis, Halifax.

It was decided to forward to the Hon. Hugh Guthrie, air minister, a letter setting forth in detail certain recommendations relative to methods of stimulating public interest in aviation, and it is understood that the carrying on of flying demonstrations during the summer covering the Halifax-Charlottetown route, John-Halifax route is one of these means.

Another, it is understood, is that pilots and customs officials be carried by seaplanes and be landed on liners while still several hours from port. Forest-rangers, fisheries patrol, photographic and survey work by air craft are included in the programme suggested by the association.

STORK CALLS ON
FORMER EMPRESS
Geneva, March 2.—Former Empress Zita of Austria gave birth to a girl baby yesterday. Mother and child are reported to be doing well. This was the second child born to former Emperor Charles and Zita during their exile. The former royal pair now have eight children.

LETTERS OF GRATITUDE
Eloquent language and illustrations in advertising may appeal to many, but after all it is the homely, sincere letters from women, overflowing with heartfelt gratitude for health restored by Lydia E. Pinkham's Vegetable Compound, that convince other suffering women that there is a medicine that will help them. Many such letters are being published in this paper from day to day, and it is to any woman's advantage who suffers from female ailments in any form to give this old-fashioned root and herb remedy a trial.

SHIP LINERS ELECT.
Local 1039, International Longshoremen's Association, of steamship, horse and cattle fitters, grain sealers and liners, met last night, elected officers for the ensuing year and disposed of routine business. The officers and committees elected were as follows: President, B. Webster; first vice-president, Andrew Shepherd; second vice-president, P. S. Nelson; recording secretary, W. Byers; financial secretary, J. J. Morrissey; treasurer, W. J. Thompson; marshal, S. Wilkinson; audit committee, C. Hughes; C. Thompson and J. Smith; executive committee, J. Maxwell, H. Waters, W. Clark, W. McArthur and Wells Kelly; delegates to the district council, Andrew

Why Be Afraid
of Good Food?

Eat What You Like Best But Follow
It With a Stuart's Dyspepsia
Tablet.

When the stomach sours or becomes
gassy, with heartburn, it needs the alkal-

line effect to offset the acid condition. This you get from one or two Stuart's Dyspepsia Tablets.

Relief is usually very prompt. The regular use of these tablets after meals gives the stomach and small intestine substantial help to digest food and you will then be bold enough to eat baked beans, fried eggs, sausages, buckwheat cakes and many other things you thought would make your stomach miserable. Get a 60 cent box of Stuart's Dyspepsia Tablets at any drug store and find that they eat whatever you like and are fortified against the acid, sour stomach due to indigestion or dyspepsia.
